FORKEST ON THE WAR PATH

How His Men Trapped a Border Spy.

From the Nashville American.

question of a very few years till the mem and women who can look back upon the late unpleasantness and say "We remember the smoke of battle, we have heard the rattle of musketry and the roar of cannon," will have passed over the river into the great

The story of the struggle between brother and brother is surrounded by a sacred halo. The fierceness and the savagery of it all is dead, and in its place has sprung up a beautiful legend of life, a story that can be told in the nursery to the infant on its mother's knee, or can be clothed with the beauties of a language and descend to history as the amplification of a novel of purity and truth, whose influence will serve to ennoble posterity.

Even now it is a treat to hear one of these who belonged to the old school tell of the trials and incidents of that day. Yesterday a veteran who had worn the gray with honor in the civil struggle of the '60s, whose face was scarred and seamed with relies of past experiences, and whose hair was white with the frost of time, was sitting in one of the public offices of the city, and when an American reporter entered he was in the midst of one of these tales of other days which are well worth retelling. It is a story of real life, and the once dark hair of pride, is streaked with threads of silver. She is now the mother of a old South.

1864 Forrest's cavalry was encamped at Verona, Miss., one of the few supply depots on the Mobile and Ohio that account. Sixty miles from Verora is Rienzi, a little suburban town, which had fallen into the hands of the Federal troops, and from this place little bands of the bluecoats were making rapid devastation of the surrounding territory. Forrest was

He resolved to ask her aid in capturing Jenkins, and her part in | deeds of the war," said the old vetwhereabouts and communicate by long enough to convince Miss every man knew his duty.

One afternoon, a few days after she ry a spy."

And what became of Jenkins?" had been commissioned a spy, Jenkins stopped at her home for a drink the reporter inquired. of water. The young girl waited on his kind went in those days-up a him herself, invited him into her par- limb. lors, concentrated all her strategeni and beauty and smiles on his entertainment, and when he took his departure she had his secret.

was the message that went down the line, and scarcely had it been received Wednesday morning when an order was issued for ten of the most trusty and fleetest horses, to report to Gen- man; "but what is your weight?" men in camp, mounted on the surest eral Forrest at once.

Among the number was a young lieutenant, searcely more than a boy himself, who was known by the soldiers for his cool daring in times of danger, and it was this man whom General Forrest summoned before

"Bedford," he said, "you have a fine detail and these men will follow you anywhere. You will take supper to-night within three miles of the enemy's camp at Rienzi. Watch your front and allow nothing to prevent you from reaching your destination of the enemy's camp your destination of the enemy's camp at Rienzi. Watch your front and allow nothing to prevent you from reaching your destination of the enemy's camp at Rienzi. Watch your front and allow nothing to prevent you from reaching your destination of the chirch are to do with me?

States, is awaiting the scientist's visit to Africa.

Strange tales come to us at interport the third was a fine for the chirch are to do with me?

Why, excuse me! But don't you see how impossible it is that the earth should tip every time you take a step?"—Pack.

Strange tales come to us at interport was of a race of white people living in the far interior. No civilized man has ever reached their country, which is said to be on the skirts of a desert of the chirch are total area of the chirch area to the chirch area to vars, and believe him perfectly to Africa.

Strange tales come to us at interport was of a race of white people living in the far interior. No civilized man has ever reached their country, which is said to be on the skirts of a desert of the chirch area to t

The landmarks of the old South are | tion, avoiding all engagements on fast crumbling away, and it is only a your journey. Pay no attention to anything behind you. I have that all arranged. To-night I trust to your own judgment. Forward!"

Lieutenant Bedford's orders were to report at the house of our fair young spy for orders.

As the detail rode away one of the soldiers shouted out: "Boys, make your wills and leave your saddle blankets to your sweethearts." Another muttered under his breath: "That dare-devil Bedford would charge hell itself if old Forrest ordered!"

The ride was a long and tedious one, but at So'clock a halt was called and the destination had been reached. Lieutenant Bedford repaired to the young lady's home, as directed, and he afterwards said he "had the devil of a time to make that little woman believe he was who he was." For his uniform consisted of an old pair of blue pants and a Union coat, and he was a very suspicious looking object even to himself.

The girl informed him of the location of Jenkins' house. however, and he was instructed by her as to the best approaches, for it must be remembered the Federal camp was not a quarter of a mile distant. Then, after an hour's rest, the horses were left in charge of one of the men with instructions to fire his gun in case he was attacked, and the rest started on the heroine, which was her glory and | the perilous expedition, each taking a circuitous route. Each man was accurately instructed by Lieutenant family, the wife of a prominent states- Bedford, the house was described in man of North Mississippi, and her detail, and a certain position at the home itself is a beautiful relic of the different doors and windows was as signed to each man. It was under-During the early part of the fall of stood that Jenkins was not to escape. and he must be taken before General Forrest, dead or alive.

Then, turning to the largest man in railroad, and particularly important on the detail, Bedford said: "You will go with me, break down the door while I stand ready to enter, and we'll get Jenkins or have a merry time trying." Then to the others: "Boys. cool heads! Go where I have ordered -forward!"

Then, with the lights of the enemy thwarted in every attempt to put a camp flickering in the distance, these stop to the depredations, and he was men set out to do or die. From the convinced that his misfortunes were | windows of a Southern home far in due to some spy who kept the enemy the rear the bright gleam of a lamp constantly informed of his move- was just visible to the eye, and the ments. His suspicions were fastened | soldiers knew that a woman's prayers on one of those Federal sympathizers, were with them. One by one they ar so rare in the South, and yet so dan- rived at the home of Jenkins, took gerous and ruinous to every venture their stations, cocked their carbines, of the rebels. The man's name was and when all were in waiting the Jenkins, and Forrest decided to take | word was passed to Bedford in a whisper: "All is ready."

NEVER VISITED BY WHITE MEN

Vast Tracts of Land Awaiting Courageous Explorers.

The story of Dr. Sven Hedin's trav els in unknown lands, says the Pittsburg Dispatch, doubtless astonished a great many people, who imagined that practically all of the earth's surface is now known to civilization. There was something strange about the narrative. To speak of four years' travel-Asia seemed like a fairy story. But it is nothing of the kind. Dr. Hedin's story is altogether probable, and will be for many years to come.

Few people realize how much undiscovered country there is still on Livingstone, Stanley, Baker, Vamopportunity for exploration is still extensive. It would not be extravagant to say that at least 20,000,000 square be mapped and described by the inquisitive traveller. Though exploration is steadily in progress in all quarters of the globe there is still a big tudes. field left, and many a dreaming schoolboy of the present day will yet achieve fame among the world's map-

The traveller in Asia has yet to map nearly 200,000 square miles of that continent. In central parts we know nothing of cities, towns and native pilgrims. There may be peoples in these interior countries unheard of by civilization, as there are certainly geographical peculiarities of which we know nothing.

The same may be said, and with considerably more emphasis, of Africa, North and South America, Australia and the Pacific Islands. Millions of square miles remain to be uncovered in Africa, America and Australia, and not a year goes by but what some hitherto unknown island of the Pacific is added to the list, and many more

Many a tourist in Europe this last kinds of stock raising. season has heard for the first time, as he sailed past Gibraltar, that beyond of it! Less than a score of miles from was discovered in the heart of the Pyrenees, the mountain chain dividing Spain from France, and in the heart of theory seems possible enough.

Europe, one might say. plorers have not gone far away from the river courses. We can follow fairly well on the map now the course along the principal water courses. of the Congo, the Zambesi, and locate | New Guinea would be a veritable parapproximately the long, mysterious adise for the explorer with a fondness course of the Nile. But the geographers have little or nothing with which the most wonderfully diversified in to fill up the white spaces in Central the world, and it is as richly endowed Africa. Some travellers are gradually with peculiar forms of animal, insect breaking their way into the interior and bird life. The obstacle which has country, and the next few years will stood in the way of exploration in yield many valuable and interesting New Guinea has been its savage indiscoveries; but the field is still large for those with the ambition to travel peaceful tribes, many are still canniin unknown countries.

The most important work of the future African explorer will be to study the various races and map out the hydrographic features. There are dozens of native tribes presenting characteristics interesting to the ethnologists. We need more information than we have of the tree dwellers of Shari, the dwarf tribes of the Congo the Baluba, and the remarkable Bachroad to civilization.

Examine the latest maps of West unexplored country to the north, south, | lar regions may become known. east and west of the wonderful Congo. It is merely a theory that these dis-5,000,000 square miles of unknown country, an area larger by one half than the total area of the United

extremely dangerous to cross. Efforts made from time to time to reach these people have been repulsed by the flerce tribe surrounding them. A Mohammedan priest, named Al Hadji, saw one of the tribe some years since while on a pilgrimage to Mecca. Al Hadji described the man as being as white as any European he had ever met, with light hair and blue eyes. Who will find these people?

Australia is another great field for the explorer. Developments as strange and important as those atings in unknown lands in the heart of | tending the efforts of the African explorers may await the traveller in the continent of the Pacific. More than 2,000,000 square miles of unmapped the field is still large in Asia, and and unknown country awaits the venturesome individual who shall eadeavor to penetrate its wilderness.

South America is also entitled to the globe. In spite of the efforts of consideration. There are parts of it that are less known than any other in berg, Andree and all the others the the world, not even excepting Africa and Australia. For some reason travellers have neglected the Southern Hemisphere. It is thought the unmiles of unknown lands yet remain to healthy climates of the southern zone are responsible, but this scarcely explains the lack of knowledge concerning the districts in the higher alti- tle-piece, and his clean shirts in the

These Hugging Parties.

A Charleston paper, several years ago, published the following: "An exchange says that hugging parties for the benefit of Churches are a recent importation into the South, but they are becoming very popular in some sections, especially in Virginia. The prices are as follows: For girls under 15, 35 cents for a hug of 2 minutes; from 15 to 20 years of age, from 35 to 75: another man's wife, 1; widows, according to looks, from 10 cents to \$2: old maids, 2 cents apiece, or two for a nickel, and no limit of to time.' To which a lady very properly ob-

ected and replied as follows:

In your last issue there appeared a paragraph entitled "A Hugging Match," which was intended to be funny, but which proved to be mean. It embodied the old fossilized slur on old maids, and averred that in the hugging matches now in vogue in divers places, while young girls and widows were hugged at a dollar or two each, and a very few seconds allowed at that for the thrilling performance, old maids were hugged at 3 cents each or two for a nickel, with no limit as to time. I'll vouch that the author of that paragraph is a bachelor who keeps his blacking brush on the mancoal box, and who is a good enough judge of whisky to pull the stopper out of a bottle of corn whisky and smell the negro that hoed the corn. And if the truth were only known, he perhaps some old maids, any one of whom would had to have supported him had she been fool enough to have had him, and all of whom render don't know how it feels to uncork a bottle of paregoric at 2 a. m. to quiet a squall that was caused by a colic instead of a cloud; and I am ignorant of the process of pulling off a pair of muddy boots at midnight and swathing with wet towels the burning, aching forehead of a "lord of creation," who promised with a lie upon his lips protect me as long as he lived. I repeat it, I don't know anything about these delights of matrimony. I suppose I ought to be pitied. But I had rather be laughed at because I am not married, than not so be able to laugh because I am married. If you will excuse me for being confidential, I'll say in closing, that during a career of 30 years I've only been hugged one time. On that occasion, strange to say. I got three scents. I didn't want any more. The three scents I got were scents of disgusting hair oil, rum and

would settle with you for your bad behavior?" "Yes, but I thought it was only a joke, like when you told with him.

- New Boarder-"Do you enjoy Christmas, ma'am?" Landlady-"Very much, indeed. All my boarders get invited out to dine, you know."

Many men fool with sickness just as a bear fools around a trap. A man doesn't like to own up that he is ill.

doesn't like to own up that he is ill.

He says "O, it amounts to nothing. I shall
be all right to-morrow." But he isn't all
right to-morrow; nor the next day. Pretty
soon the trap snaps to; and he has some
serious disease fastened on him.

The only sensible course is to keep away
from the trap, and not allow sickness to get
any hold on you. It is a frightful mistake
to trifle with indigestion and bilious troubles in the belief that they will cure themselves. On the contrary they drag the whole
system down with them.

system down with them.
When the appetite and digestion are irregular it shows that the machinery of the body is out of order and is not doing its proper work; the blood-circulation is poorly supplied and is being gradually debased by bilious poisons.

The proper alterative for this condition is Dr. Pierce's Golden Medical Discovery. It

acts directly upon the digestive functions and the liver; and enables the blood-making glands to supply an abundance of pure blood, rich with the nutritious vital elements which build up healthy flesh and enduring strength.
In all impoverished and run-down condi-

tions the "Discovery" is far better than malt "extracts" or nauscating "emulsions." It creates genuine permanent strength. It does not make flabby fat but solid muscle. It is a perfect tonic for corpulent people.

A full account of its properties and mar-

velous effects in many so-called "hopeless' cases, verified by the patients' own sig cases, verified by the patients' own sig-natures, is given in one chapter of Doctor Pierce's thousand-page illustrated book, "The People's Common Sense Medical Adviser." This splendid volume will be sent free on receipt of 21 one-cent stamps to pay mailing-cost only. Address. Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

R. V. Pierce, 663 Main Street, Buffalo, N. Y. For a cloth-bound copy send 31 stamps.

"Having suffered for several years with indigestion," writes Samuel Walker, Esq., of Parkesburg, Chester County, Pn., "I concluded to try your valuable 'Golden Medical Discovery." After taking five bottles I was entirely cured. I also suffered from bladder trouble, which was also cured by the 'Discovery.' I feel like a new
