She Was in Mourning.

He had asked her to be "his'n," and she had made up her mind that she had "worked out" long enough, anyway. So she accepted him. She was perfectly satisfied with her place, but she wanted to have a house of her own. So they were married.

It wasn't long afterward that she came back to see her former mistress about something, and the latter noticed that she was wearing mourning. Of course she was sorry for her, and was rather surprised that she made no mention of her bereavement. It is indeed a grievous thing when a honeymoon is cut short.

Finally the former mistress brought up the subject herself. "You are in mourning, Maggie,

she suggested. "Yes," replied Maggie, compla-

A Woman State Officer.

Among the progressive women of the West Miss Estelle Reel, of Wyoming, occupies a unique position. She is State superintendent of instruction, also register of the land board, on the regular Republican ticket, bcing the only woman in the United States who has been elected to a State office. Miss Reel has been in Wash-

ington some weeks in the interest of the land board of Wyoming. She is empowered with authority to negotiate the sale of the lieu lands

from the Government to her State, which in turn, are sold to private individuals or corporations. It is frankly stated at the interior

department that Miss Reel has transacted the business in one-third the time and with better pecuniary results to her State than has heretofore any masculine register of Wyoming.

Miss Reel has been at the Waldorf-Astoria this week, not as a pleasureseeker in the metropolis, but busily engaged in the interest of the educa-

tional part of her public duties. She arranges the curriculum of all the schools, selects text-books and arranges the school institute meetings throughout her State.

Ten years ago Miss Reel was a school teacher in Illinois, and, going to Wyoming for her health, became interested in its educational matters, till by rapid promotion, through the recognition of her exceptional talents, she occupies her present high position. So popular is she in this State of equal suffrage that her political influence is clearly recognized as an important factor by the Republican party, to which she belongs.

She was expected as guest of honor at the West End Woman's Republican Club yesterday afternoon, but. being

hastily called out of the city on business, a letter of regret was sent, in which she said in part:

"I have been looking foward to meeting the New York women, of whose intelligent interests in politics I have heard. The feature of your political work that has appealed to me most directly is the fact that it is carried on so entirely along educational lines; that you are always striving to enlarge the opportunities of the masses for education, believing that in that way the principles to which we adhere will be most permanently established."-New York Tribune.

More than 90,000 cases of obstinate female difficulties have been absolutely cured by this wonderful "Prescription." It heals, strengthens and completely rejuvenates the tissues and nerve-centers of the feminine organism. It is the only medicine devised for this special purpose by a regularly graduated experienced physician. It is the one authorized preparation which may be positively relied upon to cure.
Mothers and daughters may consult Dr. Pierce by letter without charge and in the most absolute confidence. Their letters will be answered not by any mere nurse, but by an educated skilled physician. Dr. Pierce's Common Sense Medical Adviser will be sent free if 21 one-cent stamps are inclosed to defray the cost of mailing only.

After two years of suffering I began taking Dr. Pierce's medicine and now I am entirely cured. I had been troubled with female weakness for some time and also with a troublesome drain on the system, but now I am happy and well. I will cheerfully recommend Dr. Pierce's Favorite Pre-tcription to all invalid ladies."

- Minnesota has a law to encourage tree planting. A bounty of \$2.50 an acre is offered, and at least one acre must be planted, while no one person can collect for more than ten acres in a year or for more than six years. Any tree but the black locust may be planted. Last year bounties were paid to twenty-five counties for planting 9,524 acres. The law has been in operation sixteen years. In that time more than 100,000 acres have been planted in trees. - An Oriental story tells us of a man

"Oh, you can do almost snything with a rope when you do not want to lend it," was the reply.
