In Georgia they are discussing a plan for the uniform grading and classification of cotton all over the State. There is no uniform classification in the South. The matter will be brought before the next Legislature.

The movement to rebuild the recentby destroyed home of General Wade Hampton is receiving substantial en conragement throughout South Carona. Charleston has contributed over \$2,000. Anderson must do her duty.

The speakership contest is getting warm. The president has announced that either Sherman or Henderson would be perfectly acceptable to him, making no mention of the half dozen other candidates, who do not appreciate such a freeze out.

One day telegraphic reports indicate the lighting is over in the Philippines, and the next brings news of another battle. But one thing can be stated as a certainty, that the insurgents will be compelled to accept terms of peace from the United States soon.

The cotton mills in Spartanburg are in an unusually prosperous condition. The Free Lance says the Pacolet Mills made the remarkable profit of 33 per cent. All the other large mills and also some of the smaller ones made over 20 per cent, on their capital stock,

The friends of Gov. Ellerbe now re gard his condition as hopeless, and expect the end to come at any time. His physicians say that his strength may sustain him until very hot weather sets in, but they give no hope whatever for him. This information will be read with sorrow throughout the State.

The United States Commissioner of Education reports that the ratio of educated persons in the United States is twice as great as it was a quarter of a century ago. In 1872, according to Mr. Harris, only 590 persons out of a million were enrolled in the colleges: in 1898 there were 1,216 in a million.

Now and then we hear a yawp from some editor in the north who is grieved that the south should preserve the memories and traditions of the mournful but glorious period of the Confederacy, but these fellows amount to little where they live, and there is not the slightest reason why anything they may say should receive the slightest attention from the people or the press of the south.

Senator Harris, of Kansas, expresses lead the opposition forces in the coming campaign and that the main issue will de imperialism, Mckinley's foreign policy, trusts and the high tariff which breeds trusts. Senator Harris, who was one of the leaders of the free silver movement in 1896, believes that silver will be a secondary issue in the next presidential fight.

Scientists teach us that the stars fall every thirty-three years. Some now living remember the awful sight in this country in 1833, when the people were horrow stricken at the spectacle. In 1866 they were seen again, not so much however in this country as in European countries. Astronomers are expecting and watching for this to occur again this year. "Stars fall" more or less each year in October and No-vember, but this will be an unusually interesting year for astronomers.

The growth of the National wealth during the present decade, it is expected, will break the record. It is estimated by careful statisticians that if the rate of increase of production during the past two years is maintained the total accumulated wealth in 1900 will not be far from \$110,000,000,000. On Wednesday evening, here or more than double the wealth of Great Britain. In 1860 the wealth of

The peace congress assembled at the 'House in the Woods," in the suburbs of The Hague, on the 18th, the czar's birthday. M. De Staal, Russian ambassador to Great Britain, was made president of the conference. President McKinley sent a cablegram to the czar congratulating him on the auspicious event. An eminent member of the congress says it is simply an act of politeness to the czar and will yield no practical result, simply because it can not. The powers, he asserts, are too disunited and watch each other too closely to arrive at any understanding ments, among which were 1,800 sprays

The man that goes through life in this day and age without knowing something of literature and the world in general, is not worthy to live. With the Duke of Fife was also made by the all the books, newspapers and periodicals that are published every year, and at such low prices that they are within reach of every one. there is no reason why anyone should not keep up with the world. For five or six dollars any family can be supplied with a good magazine twelve times a year; two newspapers, each fifty-two times a year, and a few good books. With these to read what home could not be birthday was a valuable one, for the made happier and more cheerful than it would be without them? 'The children taught to read while they are young are the ones that will do the least gossip about others' business, and in the long run make the most useful men and women in life.

Mr. Williams, from Alabama, is visiting in these parts, and his many friends were glad to see him at prayer meeting last Saturday night but still gladder to hear him give a talk.

Two of our boys went to Clemson Saturday. They had a good time and a lot of fun. We noticed some fine crops on the way, and some fellow over across the creek has decided to try an experiment with raising toad frogs, grasshoppers and July flies, simply judging from the looks of the lands and the condition of the fields.

Some Costly Cakes.

Four thousand five hundred dollars was the cost, as given by the Chicago News, of the cake provided at the wedding of John Jacob Astor to Miss Willing, of Philadelphia.

The Princess Beatrice's wedding cake was worth \$1,500. It weighed 800 lbs., was 9 feet high and 5 feet around. Six months it took for modeling the ornain their programme. His prediction is that there will be a long discussion and then a first-class burial of the czar's peace proposals.

- It isn't necessary to make a fool of yourself every time you have an A Negro Fiend in Hampton.

HAMPTON, May 26,-About 5 o'clock this atternoon Abraham Davis, an eighteen-year-old negro, was arrested S. C., has returned home to the delight by Marshall Gooding and lodged in jail. He is charged with having rayished a nine-year-old little colored girl, afterhaving brutally beaten her. Evidence points to the fact that the negro followed the unsuspecting child when she left town on her way homeward. She resides with her industrious mother about a mile from Hampton, on the Varnville road, and had been sent to Hampton on an errand. The child managed to reach home in a very weak state. The excited and greatly distressed mother brought the child in her arms to Hampton and appealed to a prominent gentleman for aid in baying the fiend arrested, and was at once rendered assistance by the arrest above stated. Dr. J. B. Harvey pronounced the child as very seriously injured. Intense indignation is felt by all citizens. Abraham is sure to receive a long term in the Penitentiary,-News and Courier.

Town Run By Women.

Mrs. Marie Totten, wife of Charles Totten, a prominent merchant, was elected mayor of Beattie, a town of 500 inhabitants in Northern Kansas, at a recent city election. Her majority over James Wall, the present mayor, was 87.

There were two tickets in the fielda woman's ticket, headed by Marie Totten, and a man's ticket, headed by James Wall. Both sides made a strong

Although election day was windy and stormy, the women all put on their heavy wraps and went bravely to the polls. It was their only chance to rescue the little town from ruin.

Beattie has been for the last two years so overrun with saloons and joints that it was impossible to live there comfortably. The women felt keenly the disgrace, and not long ago held a convention to devise some means to change the town's ways. They planned to put a ticket in the field in the next municipal election. That was ten months ago. Every night when the husbands and grown sons came home from their work the housewives would bring up the subject of saloons and what a disgrace they were to Beattie. - San Francisco Examiner.

The Alliance Store!

Summer Clothing And Durable Shoes.

We will confine our remarks in this issue to our Clothing and Shoe Department.

The notice in the edition of last week in reference to these two mammoth departments of this big Store brought many persons who came to see, with the result that they were at once pleased with our big selection and the popular prices and became purchasers of our Goods. We have always contended that a big value is a sure basis for big business, and our policy will always continue to give all that we consistently can for the money, and therefore continue to hold the bulk of the purchasing trade. The Clothing and Shoes that we sell are gathered from all quarters where our compe. tent buyers can do the best, and sold here. Our values are never surpassed, for they are the best values that can be offered. Quality, durability and price considered, we know that we make purchasing safe and easy here. Real worth saves dollars and makes satisfaction. Shoddy Goods can be purchased at less price than Goods we sell, but shoddy Goods would not stand what these will stand, and hence our word

At this season in both departments there are many broken lots which can be purchased at broken prices. Dollars become elastic here, and you are able to stretch your dollars to an unusual tension.

For the Ladies, especially, we have secured the agency for the celebrated-
