ONE YEAR, \$1 50 SIX MONTHS, 75

WEDNESDAY, JULY 19, 1899.

The first bale of this year's cotton crop was sold in Texas on the 13th instant. It was donated to Gov. Sayres for the benefit of the flood sufferers, and was sold for \$75.

The central committee in charge of the Gen. Wade Hampton building fund has bought a beautiful lot in Columbia for \$1,500 on which to build the home for the gallant old hero. The work of erecting the building will begin in a short time.

Kansas City has raised \$50,000 to give for the next national democratic convention. This money goes to the campaign fund. Chicago will have to go higher this year or lose the convention. Denver, Omaha and Pittsburg all want and will put up for it.

The Georgia State authorities began war on the Oil Trust last week, by seizing 10,000 barrels of impure oil. Tests have shown that three-fourths of the oil sent to that State for sale falls below the 120 degrees fire test and is extremely explosive. The Georgia people are resolved to straighten the trust. In South Carolina there is, we believe, no direct law protecting the people against the sale of inferior oil.

That an American policy of imperialism and conquest in the far East is likely to reach an appalling cost financially, as well as in its inevitable sacrifice of American blood and principle, is indicated in the official Treasury figures showing that the effort to restore and maintain order in the Philippines has been continued thus far at an average daily expenditure of \$800,000. How long will the people of the United States stand such a useless extravagance of both blood and money?

A convention of the wheat growers of Georgia was held in Macon last week, and much good is expected from the meeting. The Greenwood papers suggest that a similar convention of the wheat growers of South Carolina should be held in that town, and we heartily second the suggestion. Such a gathering, we are sure, would be a benefit to the farming interests of the State. Our farmers can produce all the wheat they need, and they should be urged to sow larger crops of it.

The South seems to be having a particularly hard time just at present, for, in addition to the disastrous floods of Texas, a plague has appeared in Mississippi in the form of myriads of grasshoppers, which are devouring crops by the acre. So many complaints have been sent to the Department of Agriculture in Washington from farmers who are suffering from the ravages of these insects that a special agent has been sent to Vicksburg, near which the greatest damage has been done.

The Protestant ministers of Marshalltown, Ia., have formed a sermon trust. The State Board which controls penal and charitable institutions has made a schedule rate of \$3 which it will pay for sermons preached in institutions under its government. The ministerial union has reached the conclusion that the rate is too low, and its members have agreed that they will not preach for less than \$5 per sermon. Whether the board will import cheaper preachers, or whether it will pay the price demanded by the combination, remains to be seen.

That the Democratic party should be preparing for a thoroughly organized and clearly defined attack upon the trust evil, a course in which it will be upheld by the people, is due solely to the logic of circumstances. Within the past year the growth of the trusts has been unparalleled in extent and all-embracing in the variety of commercial and industrial fields monopolized. The records of the State of New Jersey are filled, page by page, with the listing of trusts brought into being under the accommodating laws of that commonwealth. The combination of capital thus affected reaches an aggregate of billions of dollars.

Farmers in this section of country will be interested in the important part corn is to play in the American exhibit of the Paris Exposition next year. Corn is to be pushed, and the rest of the world is to become acquainted with its virtues, its use as a food, its value, its nutritiousness, and its palatableness. If we can get the millions of Europe to eating our corn the south and west will be the beneficiaries. Of course, the people of Europe can never know the delights of roasting ears, of corn pudding, of the appetizing dishes the thrifty housewife makes from green corn, but they can be introduced to the use of cornmeal and to canned corn, and if their tastes are not vitiated they will like the new food.

The State Normal School for teachers at Rock Hill closed its session last week, and it was an eminent success. There were about 400 teachers from all sections of the State in attendance. The class-room instruction by competent professors, lectures by educational leaders, intellectual attrition in the daily converse and communion of teachers with each other, a season of refined relaxation—these and such as these have been the attractions of the occasion. It has been an experience of rest in work rather than absolute rest from work on the part of a class of workers who deserve honorable mention and hearty recognition in their labors for the rising generation, which

means their labors for the future of Church and State. All honor to the teachers of the country! Anything that promotes their improvement or contributes to their usefulness or tends to their needed rest under circumstances of congenial pursuits and enjoyments should ever have the approval and encouragement of our State government.

Belton's Bank.

A bank was organized at Belton, S. C., July 11, with Mr. R. A. Lewis as President and Capt. Ellison A. Smyth Vice President and Mr. W. E. Greer, Cashier. The bank will be known as "The Bank of Belton," and was organized with a capital of \$50,000. The Directors are Messrs. R. A. Lewis, Capt. E. A. Smyth, J. T. Rice, Lewis D. Blake, D. A. Geer, W. K. Stringer, W. C. Clinkscapes, J. Clyde Green and W. N. Cox. A beautiful and convenient building will be erected in the very near future and will be furnished with all the modern furniture necessary for successful banking. The enterprise will, of course, be a great convenience to the public, and that it will succeed there can be but little doubt, since the management is to be by wise and discreet business men—men who have already been successful in whatever they have undertaken. The bank expects to be doing business by September 1.

Lowndesville Briefs.

The farmers of our section are blue. They say that if rain does not come very soon the crops will be almost worthless. A good rain or "season," as it is called, has not fallen here since the first of May.

Townville News.

We are still having hot and dry weather, and of course our crops are not looking so well at this writing.

A large crowd attended the exercises of unveiling the monument of Rev. J. Walter Dickson at Smith's Chapel last Sunday. The exercises were both interesting and impressive.

Miss Bowie, a graduate of Due West College, has come among us to take charge of the school at Hepziba. Miss Bowie is an accomplished lady and we bespeak for her a large patronage.

Mrs. J. A. Burgess and Miss Pearl Owens visited friends and relatives near Piercetown last week.

Miss Maggie Nance is visiting relatives in this section.

We regret the illness of our clever friend, Capt. Orr Tribble. He is one of Townville's pillars, having lived near here for some 45 years. Capt. Hunter, also, is in very feeble health. He, too, is another old settler here. His eyes are troubling him very much. We learn that the sight has passed from one of them.

Townville is talking of a barbecue in the near future. Yes, let's have it; and have a free one at that; not say free and when dinner time comes tell our friend that he can get his dinner down at the table for 50 cts.

Capt. H. R. Vandiver has returned from Anderson.

Beaverdam Association, which was to have met with Fant's Grove, a little Church a few miles from here, has been moved to Seneca, S. C., and will meet there at the regular time of meeting.

Well, everybody is expecting a nice time at the picnic on Saturday, 22nd inst. Everybody is invited to come and bring dinner. SCHOOL BOY.

First Query: "What relation does the Sunday School bear to the Church?" To be opened by A. A. Fields.

Second Query: "What design did God have in constituting the Church?" Opened by D. I. Spearman.

J. JAMISON, Moderator. R. J. MATTISON, Clerk.

It is stated at the War Department that almost every officer who served in the volunteer army during the war with Spain and who had been honorably mustered out, has again offered his services to meet the needs of the Philippine campaign. Altogether no less than ten thousand applications for commissions in the new army have been received at the War Department by state of matrimony before his dies. She has had three husbands, but is willing for a fourth.

Educational Meeting.

Toney Creek News.

It is very dry in this community at present. We had a light rain Sunday, but nothing like a season. Crops are very small, there is scarcely no fruit and vegetables are not to be had in this community.

Died, Saturday, July 15, infant daughter of Mr. Rubo Poore. It was buried at Shady Grove Sunday afternoon.

Miss Mary Acker is visiting near Anderson.

Mr. and Mrs. C. F. Lawrence, from Florida, have been visiting their mother, Mrs. Maggie Norris. Mr. Lawrence returned Sunday. Mrs. Lawrence will remain for several months. They speak well of Florida and say the crops are fine.

The general talk now is the factory at Belton. We hope everybody will get a good, paying job, but think those who have homes and are making a living are very foolish to go to the factory.

News is very scarce this week, but hope to be able to give you more in our next writing. PATTY.

TALK NO. 2.

AN OPTICIAN

Is one who makes the scientific adjustment of Spectacles his special business. He must thoroughly understand the science of physical optics, and the measurement and curvature of lenses, and the action of light, its reflection and refraction upon the human eye, and its workings as perfectly as a watchmaker understands a watch. He must understand ophthalmology, retinology and ophthalmometry, and be able to make every objective and subjective test with accuracy and precision, to measure every defect of refractive error, visual acuity, or muscular imbalance, and to select and adjust lenses which will place his eye in perfect focus.

I am devoting special attention to this science, and have prepared myself for expert work. If your eyes trouble you in any way, see me and I will make a careful examination and tell you just what ought to be done.

A. C. STRICKLAND, No charge for consultation or advice.

HELP US MOVE!

WE beg of you for help to move. This is no joke. We are in cold earnest and will prove it to you. Listen while we talk, and then take your turn at speaking.

We have again outgrown our pantaloons breeches, (as a Dutchman once said) and we must make dem some more big. Or to make it clear to you, the house in which we do business has become too small to conveniently accommodate our large and growing trade. Hence we have secured a larger and more desirable house on Granite Row. Now, we have not forgotten what a job it was four years ago to lug about nine thousand dollars of stuff up here from our little old place, though the back doors were almost touching. And how much more of a job will it be now for us to move over twenty-five thousand of Goods clear across the Public Square. We don't want to do it, and we ain't agoin' to do it. No, we are just going to make a grab-pile of it, and let our friends and enemies come in and carry it off for us. To give you an idea of our intentions in the matter—listen:

For every ten cents traded with us we will give you a help-me-ticket. If you trade 50c. worth you get five help-me-tickets, and so on. These tickets entitle the holders to free grabs at the pile, or 1c. all. Every little boy or girl who comes in and buys 25c. worth of Goods, or is with an older person who buys 25c. worth or more, we will give free one Hickory or Boxwood Top or a tiny Doll Baby—either black or white. Nor is this all. To the person trading the greatest number of bills, amounting to over one dollar, between now and August 25th, we will give first choice of two German Yokell Clocks—greatly prized as an ornamental souvenir. To the person trading the most bills, amounting to over 25c., we will give another Clock like above. Only one bill can be recorded in one day.

But, Minor, says some one, you can't afford it. Well, we admit as much, but we do it, anyhow. Now listen for prices in this bright competition. Oh, yes, they'll have to use a camphor bottle to keep up their noses:

12. and 15c. Suspenders cut to 10. This Bleaching cut to 2c. White Sawn cut to 2c. Better White Laces 2c. Callon—Shorts—2c. Mep's Drill Drawers cut to 20c.

10c. Linen Collars at 8c. Misses Tan Hose, all sizes, 5c. Shoulder Straps for Valises 10c. Children's Waists 10c. Lucky Matches, 12 boxes 8c. Korner Matches, 12 boxes 10c. Handkerchiefs 2c, 2c, 5c. Ladies' Slippers at 30c. High Class Sandal at 75c.

A few special values in Sample Shoes in Ladies' 80c. to \$1.50. In Men's 90c. to \$2.50. Remember, you get help-me-tickets with all this. No wonder competition rages.

Good Glass Tumblers 10c. set. Goblets 25c. set. Ice Creams 35c. doz. Hen and Rabbit Butter Dishes 10c. Covered Honey Dishes 10c. Syrup Cans 8c, 10c, 15c. Aluminum Hair Pins 5c. doz. 21 kinds Hair Pins to select from. Combs, Brushes, Toothbrushes, Jewelry, etc., at prices which defy competition.

Now let's wind up this tale with a quid of Cr-ek o-Jack Tobacco, or a piece of Judge at 35c. or 20c. per lb. Or shall we wash it off with a few bars of best Laundry Soap at 2c, or 4c, or 5c for biggest bars.

In our Wholesale Department we make special prices to merchants everywhere. Yours always truly, C. S. MINOR and THE TEN CENT STORE. Spot Cash does the work.
