R. G. Dun & Co's. weekly review of trade states that the volume of payments through the clearing houses of the cour 'y during the month of July was 47. per cent. larger than last year and 59.6 per cents larger than 1892, the best of all previous years. Interruption of business by labor troubles of all sorts has been less than in any other July for years. The failures in the United States last week were 151, against 225 fast year metal

In the death of Hon, William Yates Atkinson, ex-Governor of Georgia, which occurred at his home in Newman on the 8th inst, after an illness of a few days from typhoid dysentery, Georgia loses one of her purest and as long as life lasts. best citizens, and the entire South one of its most devoted statesmen. He was a self-made man, and at the age down in the very zenith of his manhood and usefulness, but his name will ever be honored on the pages of Georgia

There must be some truth in the statements made time and time again that at one period of the fighting at Manila there came very near being a clash between Germany and the United States, and that even now the relations of these two powers are not very cordial. First came the dispatches from Manila which were covered up as far as possible by the government at Washington. Then came the Coghlan incident. Now comes the statement of Admiral Dewey that our next war will be with Germany, and although many say that Dewey did not utter the words attributed to him, there are many who believe he did. Where there is so much smoke there must be a little fire.

We are in the midst of a season of parching heat and withering drought. The rains are coming in spots and localities it seems, but in many sections come reports that crops will be cut very short if rain does not come soon. While all should bow in numble submission and the faithful know that somehow it is for the best, there is unavoidably a feeling of depression at the certain privations that must ensue. It means cherished hopes blighted and fond expectations unrealized. Lots that have been hard will doubtless be harder, and many imaginary evils may become only too real, yet ours is a land in which real calamities are few and extreme suffering for want of subsistence is rarely met. The cry of distress is quickly heard, and there is charity to meet every case of real destitution. If it is ever tardy it is from impositions upon it and not from a lack of broad philanthropy.

The Dover (Ky.) News of the 10th inst. says: "It is with pleasure we assure our readers that Black Diamond railroad affairs are in splendid condition and the friends of the enterprise are more hopeful and sanguine of speedy success than at any previous period. In fact matters are in such shape that at present it seems that no possible contingency can arise to prevent the early construction of the system. The work to be done on this side, as mapped out by the English capitalists, after the expert engineer made his report, is being rapidly closed up at every point. The survey in South Carolinajwill be completed in a few days, that in North Carolina and Georgia, only about twenty miles in the latter State, will be pushed as rapidly as three field corps can do the work. By the time this is done all other matters pertaining to the work will have been accomplished and everything will then be in readiness to begin actual construction. This is a plain and truthful status of the enterprise, made for the benefit of the friends of the cause and not for the purpose of influencing its

There is much being published now in the press of nearly every section of the United States in reference to the subject of lynch law. Every good citizen regrets the necessity of such occurrences, and many suggestions are being made as to a remedy to cure the evil. So long as the infamous crime of outrage is committed upon the women of the country, just so long will the lynching of the perpetrators continue.

Mr. J. F. McClure, who has been merchandising, is erecting a new store room, so that he may carry on better room, so that he may carry on better room, so that he may carry on better first as last. The white men of the business, and would be pleased to have country are not going to permit these crimes to go unpunished, and the sooner colored men understand this the better it will be for them. There is no use in mincing words about it. Human nature is the same all over the land, and wherever these outrages are committed, no matter whether they be in the north or the south, or the east or Come again, young ladies, we are glasses selected to fit each individual the west, the lynching of the perpetrathe west, the lynching of the perpetra- always glad to see you. tors is certain to follow. The hot, dry weather is proving very detrimental to crops. It is generally conceded that unless we have a rain very soon the crop will not exceed one half. The drought has not been so long, but the extreme heat and dry wind have done their work.

A meeting is in progress this week at Shiloh. The pastor is assisted by Rev. J. R. Earle. The preaching is forcible, logical and faithful and the congregations very good.

On the 8th inst. we visited Seneca, the occasion being the conveniency of the Beaverdam Association. The attendance was very good and the meeting a harmonious one. While there we were the guest of Mr. Wm. Lunney, who, with his excellent wife, left nothing undone to make us enjoy it. We also had the good fortune to meet several old acquaintances. Among them were Dr. Hopkins and family, Mr. Hayne Lowery and family, W. A. Holland, W. S. Hunter, J. R. Earle, Jr., and Ches. D. Giles. Our visit to Seneca will be a green spot in our memory

A colored man, George Geer, was drowned in the Savannah on the 1st inst. He with about 20 other negroes of 30 became Governor of the State of had just finished working the road to Georgia, and served two terms. He Hardscrabble when they all went to the had filled other positions of honor and river to go in washing. The water was trust before being elevated to the from 8 to 15 feet deep, and he, not being Executive chair. He has been cut a good swimmer, went to the bottom. Mr. Joe Furgerson was near with his boat, and fished him out in about 15 minutes but life was extinct.

Mrs. W. M. Strickland, who has been sick for several months, is better. We are glad to note she is able to attend church this week.

Our neighborhood generally is in good health.

The campmeeting at Sinai, we hear, was well attended on last Saturday and Sunday and we understand the behavior was only seconded by the wildest orgies of the rankest hottentots. By way of variety, with other things, they had the "flying jennie" on hand. We need some missionaries of the right kind right nere in our own country, or some wholesome laws made and then enforced, we are not certain which. It is a certain fact that something is
