WEDSESDAY, MARCH 21, 4900

The Grand Old Party, like the l'in mo government, is in Oliscan censol ed parlance "rapidly disintegrating Many of its members are returning to their hones and peaceful avoid a The insurgents now in the field are ranized into guerilla hands who William McKinley is desto tabidly as messible." The ... to state the Major's ever, as compared as which is an incom

measure have a device a desire their eccenand harvareter attel tricities a individual. They goinsan nurse their favorite phantoms and cherish the wildest vagaties in the thee of fidicule, scorp, contempt and, often, force. The stirring events in the old Bourban State within the last tew weeks was a striking example of a State gone mad. Bleeding Kansas set the pace many years ago, which has been followed since by North Carolina. South Carolina and now Kentucky, Passing under the chastening rod is a drastic but often wholesome discipline. Let us hope that Kentucky may be purged of her rottenness.

Hon, John DeWitt Warner's characterization of the Hanna-Payne ship subsidy monstrosity as a trust "of the trusts, by the trusts, and for the trusts," sums up in a few words the full intent of the whole iniquitous proposition. As a type of special class legislation, it is without a peer, it being an attempt upon the part of the Republicans to empty into the spacious lap of a few shippers, of whom the party's preferred ereditor, Senator Hanna, is the chief beneficiary, the munificent annuity of nine million for the term of 20 to 30 years. In return for this gratuity, the government asks nothing-not even the protection of American ship-yards, nor of American sailors, nor even of American ship owners to the exclusion of a foreign minority of stockholders. It serves, however, the purpose for which it is intended that is to take especial care of its favored and at absolute control. In the face of faithful few, another method of paying campaign debts and political obligations. The party may be compelled to forsake its pet scheme for the reason that it abandoned the Porto Rican tariff measure.

Anderson in her rapid march of progress should not neglect the establishment and encouragement of the smaller industries. It is such industries as these that net the most satisfactory results, the size of the investment being considered. It is a comparatively easy matter to diversify a city's industries by encouraging investment along these devil with fire. Early in January of lines and by a liberal subscription to this year every tobacco growing Counthem. True, the investment may be small at the time but it is ten-fold large and enthusiastic convention calllarger in its after effects than now seems apparent to the individual investor. In other words it is a dual investment, first to the individual, and next to the community. Looking over the field in a casual manner, there are many small but paying industries badly needed here. We need a spoke and shuttle factory, a spool factory, a car pet mill, a bag factory, a shoe factory. a barrel and box factory, a paper box factory, a pottery, a tobaccowarehouse and factories-for tobacco will soon be one of our important products, a wagon and buggy factory, a trousers factory, a shirt factory, and a score of other enterprises which only need promoting to become permanent and profitable. Our sad experience in one small enterprise should not prejudice us againstall nor against the same one with experienced managers and a well equipped plant. Let us cast about for small investments. Last week we suggested the matter of governmental aid in road building, and urged organization in order to invite the experiments of the general government along this line to this particular field. Our suggestion has been heartily endorsed by a number of prominent and representative citizens, and be a wise amendment made by a student of public questions. Commenting upon the road law of New Jersey, he said that, in his opinion, it was the duty of the State to enact a general road law as an earnest to the general government that we are really alive to the necessity of good roads. So long as a State shows no interest in the upbuilding of her own property, it would be embarrassing to her chances to be recognized as a contestant for experilaw of New Jersey gives an annual appropriation of \$150,000 toward construction. This law has been effective seven years, during which time nearly 500 miles of roads have been built at a cost to the State of \$715.826. Last year there were built tit miles, and this year 212 miles will be built at an average cost of \$3200 per mile, or \$686,626. These are maximum estimates, but illustrate the point. The government should not be asked for an appropriation until we have at least laid the foundation of self-help, both in the County and in the State. Our position is thoroughly endorsed as to immediate organization for the purposes set forth, and, the suggestion of our critic is an eminently able one and one that should receive due credit.

ed for the purpose of considering some remedial action on the part of the farmers as a whole. At this convention, Mr. J. F. Jordan outlined a plan which was considered and adopted, the purport of which is shown in the agreement entered into at that time. The following is the text of the agreement: "We agree to enter into a contract with J. F. Jordan and his associates to sell to them our tobacco raised during the next five years at an advance of not less than 15 percent over the prices of the same grade of tobacco during the last five years, the said price to be fixed by a commission, a majority of whom shall represent the seller. We further agree to take stock with said Jordan and his associates in a corporation which shall be formed for the purpose of manipulating and disposing of said tobacco sold by J. F. Jordan and his associates to the extent of not

less than 15 per cent of the value of our said tobacco. The details of this agreement shall be hereafter arranged so as to carry out the true intent, and meaning of the agreement. If we make default in this agreement in any particular we agree to forfeit to said corporation the said stock so taken and we reduce the crop received a more flattering reception at least 25 per cent below the past than we had hoped. The suggestion year's production. We invite the cois further augmented by what seems to operation of Virginia, South Carolina and other sections which grow bright tobacco." The plan has much to commend it and is practically the same thing as has been adopted with very satisfactory results by the grape growers in western New York. Prior to their adoption of this scheme they were all at sea about prices, and nobody was making any money. Now, instead of selling the grapes in a miscellaneous way, they are turned into the mutual company which they have mental operations. The present road organized. There they are crated and sold by the company, and the total proceeds for the season distributed among the growers, who are in the pool, in proportion to each one's production and the grade of his product.

Teacher's Association.

BELTON, S. C., March 19, 1900 .- The County Teacher's Association of Anderson County will hold its regular monthly meeting at Anderson, at 12 o'clock, Saturday, the 24th of March. The program will consist of the usual recitation and a paper by the Secretary. All teachers are cordially invited to attend.

Harris Lithia Water

IS the strongest natural Lithia Water on the market, and has the en. dorsement of the most noted Physicians of the country as to its superiority and get our prices. If you don't like over all others. Almost any one in South Carolina knew the noted Dr. A. N. Talley, of Columbia, and what he had to say for Harris Lithia :

"After a long and varied experience in the use of mineral waters from many sources, both foreign and domestic, I am fully persuaded that the Harris Lithia Water possesses efficacy in the treatment of afflictions of the Kidney and the Bladder unequalled by any other water of which I have Kidney and the Bladder unequalited by any other which of the or union of the based upon observation of its effects upon my patients for the past three years, during which time I have prescribed it freely and almost uniformly with benefit to the medical maladies above mentioned.
Columbia, S. C., Oct. 8, 1892.
A. N. TALLEY, M. D."

"An extended clinical use of the Harris Lithia Water prompts me to the statement that I regard it as one of the best, if not the best, Lithia Water known to the profession. In the condition of Phosphatic Urine, its action is marvellous. Its use in the Rheumatic and Gouty Diseases afford me more Now don't wait until it is too late. comfort than either the Buffalo or Londonderry Waters. Yours truly, Asheville, N. C. JOHN HEY WILLIAMS, M. D.

"I have used for some time Harris Lithia Water in my family, and also with my patients, and find it the best Water I ever used in catarrhal condition of the uretus and bladder. It is also a good diuretic Water. Atlanta, Ga., April 20, 1891. G. C. ROY, M. D.

We guarantee one glass of Harris Lithia Carbonated Water to relieve any case of Indigestion in one minutes' time or money refunded ; or if taken after each meal will cure the most stubborn case of Indigestion. Why will you suffer when you have this guarantee?
