Senator David Bennett Hill, like Gen. Hoaxy Poaxy Aguinaldo, persists in retaining this mortal coil. Like our own immortal G. Walt Whitman, he representation is had there at the "aint dead yit."

Will McKinley benevolently assimilate one of the slices of Chinese territory around which the hungry powers est, and to which every energy should are snarling? It would be a fitting be bent to make effective a perfect orpunishment for the blood-thirsty and ganization. fanatical Boxers.

The Republicans couldn't meet the test. The armor plate combine whipped County, there are many issues which them into line at the last moment, and the people wish to be raised, and bethe fat-frying for their campaign was simultaneously inaugurated. That armor plant was too good a thing for the politic Hannas and Penroses.

If Greenville County is willing to stand the expense of trying criminals wanted in this County, the taxpayers here will not raise any kick. We would be only too well pleased if our good neighbors would relieve us of a larger share of this class of expensive Inxuries.

That \$400,000 contribution of ship builder Cramps to the 1892 Republican campaign fund has caused many colicky developments in the internal Republican organism. As a consequence the relations between the munificent donor and the Republican managers who failed to deliver a satisfactory equivalent may be regarded as somewhat cramped.

As the time draws near for the assembling of the National Democratic Convention, all the indications point to the relegation of the currency issue to a position of subordination. This being the case, there are now the brightest prospects for Democratic success at the polls next November the party has ever had since its organization by Jefferson. The only unfavorable feature about it is the tremendous Democratic majority promised in Congress, which, we fear, will tend to topheavy and unwieldy helplessness.

The revelations as to the ice trust in New York city in which Augustus Van-Wyck, late Democratic candidate for Governor on a vigorous anti-trust platform, was found to be a large stockholder, should excite no more surprise than the sudden change of front to the contrary position by the Republicans' in Congress. They are the known exponents of trust doctrines and their ready defenders. What can we say of their constancy now when we hear them railing in bitter denunclation against all kinds of trusts, little and big, good, bad and indifferent! No, no, VanWyck is not the only peach.

An association for South Carolina should be formed immediately, and inasmuch as the matter has been brought to the attention of the State Agricultural and Mechanical Society, we would commend the suggestion of the Secretary, Col. There are six graduates this year, one of whom is Mr. J. T. Mann, of Ander-son County. This class reflects much credit upon our faculty, and they enter life's battle with the best wishes of instructors and schoolmates. BARGAINS are offered here now, such as have never before come to the Anderson buying people. Our heavy sales of the past week is conclusive evidence of the appreciations.

The big Departments of Shoes, Men's Clothing and Mattings more especially have been notably moved by the Challenge Cut Prices.

The new House Furnishing Goods Department has become a public favorite.

Desirable Light Weight Dry Goods for present use is rapidly moving out of our stock in Bargain form to careful purchasers.

WE having formed a partnership for the practice of Dentistry, and to establish a Cash practice, we give a liberal discount of 20 to 25 per cent. from former prices. Thus no bad debte, no bill collector to pay, no lost material. Therefore, those having work done by this plan pay only for what they get, and save that over charge to make good the work done for others who never pay at all; also, giving us more time to serve the paying class. Editor John Brisben Walker, of the Cosmopolitan Magazine, a close, personal and political friend and adviser of Wm. J. Bryan, has written the latter a strong open letter in which he urges the abandonment of the financial question as an issue in this campaign. He who blocks the progress of its rapidly argues well that the hope of the country lies in the Democratic party, and that the man who, by bad judgment and extreme political opinions, makes Democratic success impossible "may be responsible for the downfall of the republic." The introduction of the currency question must endanger the success of the fight against the real vital issuc-imperialism, trust rule and militarism. Such a pronounced expression can be better valued when it is remembered that Mr. Walker has been one of the foremost agitators of the remonitization of silver in the United States, and it was he who wrote and secured the adoption of the clause indorsing the Chicago platform at the Buffalo Convention in 1896.

The farmers and kindred interests of the South are moving at a rapid gait in the organization of Southern Cotton Growers. To the Georgia Cotton who will in turn do their part when the Planters' Protective Association is due probably more of the credit for the organization up to the present day than to any other source. The president of the Association, Hon. C. H. Jordan, has taken a keen interest in perfecting a thorough organization of cotton growers, ginners and bankers, and has met with unexpected support from all classes. The Georgia Bankers Association will co-operate heartily with the Cotton Growers and will perfect the plans at its meeting this month. The banks are ready to advance liberally on cotton stored in warehouses, thus enabling the planter to control his crop as long as he sees fit. The storage charges, including insurance, will be reduced one-half from the rates now prevailing, so that the carrying charges, particular partices who will erect

There are many abuses along this line that the people demand shall be remecall our attention to a very stapid died at once. They want a definite blunder which crept into our columns pledge on the question of good roads, permanent highways, and they want for this purpose a general appropriation. Burying hundreds of dollars expressing fraternity to the soldiers annually in red clay is decidedly outwho fought for the Union. It was not of-date. Every ginner in the State should be licensed, and he should be required at the end of every month to return to the Clerk of Court a detailed sworn statement of the number of bales of cotton ginned by him. Such statement should give a full and complete record of each bale of cotton-the name of owner and other persons interested, marks and numbers branded

on bale, weight, and such other facts as will aid in more perfectly identifying each bale wherever found. Legislative candidates are expected to take a position on this question, as it is a reform that is coming, and the man rolling wheels must suffer the crush that inevitably awaits him. The people demand a vigorous and effective anti-trust law designed after laws which have stood the test of constitutionality in other States. They want an inspector of illuminating oils-not simply a man to fill a position and draw a salary, but an inspector that will inspect. They demand a better and broader interpretation of the relations existing between landlord and laborer, defining a laborer as under legal contract having received supplies for a crop from a landlord. They want a first-class bomb-proof drainage law.

They want a reduction of the privilege tax on fertilizers. These issues are all well understood by the masses and need no elaboration on our part. Those gentlemen who offer for the Legislature are expected to discuss these issues when they go before the people, time for action comes.
