One of the predictions for the new century is cheaper living—that is, living as well as we do now for less money. It is hoped the prediction will prove correct.

The Legislature met in Columbia yesterday and organized. Hon. W. T. Stevenson was elected Speaker on first ballot, receiving 73 votes, Mr. Prince 26 and Mr. West 17.

There is at least one advantage of being poor. No one will be looking around your premises for a \$25,000 boy to kidnap nor subject you to the terrible strain of deciding whether you shall compromise with the kidnapers.

Philip D. Armour, king of the pork packers, multi-millionaire, philanthropist and one of the greatest financiers of the past decade, died at his home in Chicago last Sunday, after a long illness. He started life a poor boy and died one of the world's wealthiest men.

A distinguished New York penologist, Eugene Smith, estimates the direct annual cost of crime in the United States at \$200,000,000. The indirect effects of crime bring the total annual cost to about \$400,000,000.

Judge Buchanan is going to be a candidate for re-election, but with all of his sensational appeals, it is not likely that a South Carolina Legislature will re-elect such a man.

Col. R. W. Hunt, the genial and popular agent of the Southern railway at Augusta, succeeds George B. Allen at division passenger agent at Charleston and W. E. McGee, passenger agent at Greenville, succeeds Mr. Hunt at Augusta.

The record of crimes and casualties throughout the country only emphasizes the need for a rigid enforcement of the law against concealed weapons. The statistics on homicides in the United States for 1900, as compiled by the Chicago Tribune, show a total of 8,275, an increase over 1899 of 2,050.

The center of population of the United States has been announced by the geographer of the census bureau to be within a few miles of Columbus, Ind. The center of population of a country is not, as is popularly supposed, the point from which there is an equal distribution of people, but the center of gravity, as it were, of the whole surface of the country.

A Tribute to Frank T. Wilhite.

It was with sad hearts the many friends of Frank T. Wilhite saw his mortal remains laid to rest on Wednesday, Jan. 2, 1901, in the Baptist cemetery in the city of Anderson.

It seems only a short time since he appeared like a young man in full strength of his manhood, with the promise of a long life before him. No one knew, and little did he realize, that death had marked him for his own before the year's record should be closed, yet such was the case.

The writer first knew Frank as a boy, when he was about 16 years of age, and although some years his senior, a friendship and attachment was then formed which has lasted through more than twenty years without a single break.

He was a successful druggist. On the 17th day of April, 1880, he was licensed by the South Carolina Pharmaceutical Association, but he did not stop with this.

HARRIS LITHIA WATER

Is the strongest natural Lithia Water in the United States!

Which is shown by the analysis and testimonials from the most noted Physicians of the country. Read what Major S. S. Kirkland, who is known by almost every one in South Carolina:

Mr. J. T. HARRIS—Dear Sir: I truly feel so grateful for the benefits derived from Harris Lithia Water that, were I able, I would like to erect a monument to commemorate its virtues and curative powers.

For over thirty years I have been a fearful sufferer from what is known as Cystitis or Catarrh of the bladder and enlargement of the prostate gland, caused by exposure and hard horseback riding during the war and since, too. My bladder was continually in a dreadful state of irritation, causing a constant desire to urinate, particularly during the night. My urine was of a very dark color, and thick with mucus and deposits; sometimes as dark as any strong tea or black copper and of a very disagreeable odor.

You are, gentlemen, at liberty to refer to me as to the great healing propensity of your Harris Lithia Water. I have known of a number of other parties who also have found great relief from this Water.

We guarantee that one glass of Harris Lithia Carbonated Water will relieve any case of indigestion in one minute's time or money refunded, or if taken after each meal will cure the most stubborn case of indigestion.

The Harris Lithia's Ginger Ale is superior to any other Ale on the market, because it is made from the famous Harris Lithia, and you receive the benefits of the Water besides getting the best Ale.
