J. R. Earle, Esq., of Walhalla, is again occupying the editorial chair of the Oconee News, which is now published at Seneca. We extend him the right hand of fellowship and wish he and the News big success.

The South Carolina pensioners will not this year get the extra \$50,000 which the Legislature intended giving them. The Supreme Court bas so decided in the case brought to test the matter. This will be sad news to the old soldiers and soldiers' widows, but it cannot be helped now.

The Southern Baptist Convention at Ne / Orleans selected Asheville, N. C., as the next meeting place. A resolution was adopted declaring that first battle at Fort Sumter, where he from China are unscriptural, and that Volunteers was organized he was electthe Church should be willing to suffer for the cause of rist.

The nuisance of stamping checks and drafts, telegrams and other documents of daily usage will soen be abated. The bill that goes into effect July 1st removes the war tax on the following articles: Bank checks and drafts, express receipts, money orders, mortgage or conveyance in trust. power of attorney to sell, promissory notes, protest, telegraph messages, warehouse receipts. On all else the tax is retained.

We agree with the Yorkville Enquirer when it says: "We again beg rule of Democracy in South Carolina is loyalty to the result of the primary election. Any white man has a right to advocate, within the primary, any view that he may see proper to advocate. The white voters themselves are the judges as to what they prefer, and the man who is afraid to trust these white voters on any proposition, is not a Democrat. That is not Northern or Western Democracy, but it is good in South Carolina."

Some of the newspapers in this State have developed a great fondness and profound respect for Gen. Wade Hampton in the last few weeks. States Senate, at the dictation of the "Great Leader," these newspapers might have helped the gallant eld warrior and statesman by exhibiting their admiration and respect for him, but instead they sneered at him, and awaited his defeat in ghoulish glee. They need not soft-soap him now; the public know that they are not sincere.

In Columbia last Friday Attorney General Bellenger gave a decision holding in effect that there is no legally constituted government for the County of Charleston, the board of county commissioners being illegal. This is the culmination of a jarring factional fight that has been going on in Charleston for several weeks. The first effect of the decision was disastrous to the dispensaries. According to this decision, the Board being illegal its acts were invalid and the bonds of county dispensers approved by it null and void. Under these circumstances, Directors Evans and Dukes, of the dispensary, ordered that every dispensary in Charleston be closed. There is much speculation as to how legal business can be done in Charleston. Some prominent lawyers hold that it will require a meeting of the General Assembly to straighten out the affairs and that a special session should be called for that purpose.

O. P. Austin, chief of the United bureau of statistics, estimates that the population of this country at the close of the twentieth century will will not be less than 300,000,000. This estimate is not made at random, but is based upon an exhaustive study of the subject from every conceivable point of view, and no one is in better position to make an intelligent forecast than Mr. Austin. He is not only in the habit of dealing with statistics, but he is in possession of the government's census reports since the beginning. In making this estimate Mr. Austin not only considers the country's rate of growth and expansion in past years, but he considers the extraordinary possibilities of the soil and the various agencies of progress which are now at work. Mr. Austin's figures are not extravagant. Our extent of territory and our resources are such that we could easily support the population of the globe, and me are any nation on earth.

During his service he was recognized by his comfaces as one of the bravest and most daring soldiers in his Regiment.

In 1865 Capt. He, therefore, spent nearly all his life in Anderson County, and was one of our best known and most highly esteemed citizens. He married Mrs. Julia Carpenter, a sister of our townsman, Mr. T. J. Life was full of beauty and harmony to him, and his nature was tender, sympathetic and hopeful. His heart went out with emotions of kindness to the suffering and distressed, and he never turned a deaf ear to a worthy appeal for help in the hour of need. Although a very modest man, no set of men in secret conclave nor in open convention ever formulated a rule or a regulation that governed, embarrassed or intimidated him if it were contrary to his own opinion, for he believed firmly in loyalty to principle. The majesty of his character shone most fully in his strict integrity. Honest, reliable, upright, conscientious, his word was his bond. Energetic and true as steel in all the walks of life, there is no wonder that he had so many admirers. A man of unstinted hospitality, of high social standing and most companionable in every sense, he enjoyed his friends and their association. He is now at rest, and will reap the rewards promised the faithful by the blessed Savior whom he served so zealously in this
