States are coming out strong for reci- general opinion of many of the best procity. Gradually the theory of high | lawyers throughout the United States prorective tariff is being dissipated in that the decision will become the this coentry.

Of course the striking machinists will arouse the sympathies of the politicians, but they will gain the resentment of thousands of workingmen who will be forced into idleness by this ill advised strike.

The action of Gov. McSweeney in reference to the resignations of Senators Tillman and McLaurin is meeting with general approval throughout the State. Many citizens from every part as from spring and rivulet they wended of the State wrote him urgent letters their way towards old ocean, flowers to net as he did.

Experts attached to the Department of Agriculture are hopeful of producing a hardy variety of orange that will grow in the open air as far north as New York. The next step should be to invent a catalogue that will ripen about Christmas.

The citizens of Augusta, Ga., have determined to honor the memory of Eli Whitney, inventor of the cotton gin, by the establishment of a club house named for him. It will be situated on the site of the first gin erected by Inventor Whitney.

The United States experts figure that the cotton acreage this year is 27,532,000 acres, an increase of over 2.000,000 from last year-the percentage being 83 per cent increase. The average condition of the growing crop is 81 5, as compared with 82 5 on June ding. After spending the evening 1 of last year. The bureau states that 81.5, with one exception, is the lowest June condition in 20 years.

most talking for McLaurin and in nearly every case you will find the same old "Anti" crowd that has fought Tillman and the people ever since 1890, and they will be worse cleaned out than they ever were before." This is respectfully referred to Editors Hoyt, Gonzales, Garlington, J. C. Hemphill et al.

An epidemic of benevolence fills the air in these days, and the infection of good will and good deeds is spreading wider and wider. Nothing can resist the progress of gracious influence and kindly feeling. It is a remarkable feature of American life in this generation. Were there ever so many generous givers? Were there ever such multitudes of noble men and women eager to use of their abundance liberal portions for worthy causes and the relief of the unfortunate?

A suggestion has come from a prominent cotton mill man regarding the South Carolina Inter-State and West Indian Exposition that is well worth exploiting and should meet with hearty response from the cotton manufacturers of the State. This suggestion is to the effect that the "textile exhibit" should be taken up by cotton mill men and made one of the grandest features of the great show. South Cnrolina has good reasons to be proud of her long strides in manufactures, and the fact that over a million spindles have been added to the total employed in the State within a year or two is reason enough for inviting the world to come and see what has been done.

By a majority of one the United States Supreme Court has rendered Chicago and return, fom all points on its lines, decisions in two cases with reference to our relation with Porto Rico or probably better to say Porto Rico's relation to us. The one is called the De Lima case in. which the Court decides that after the treaty of Paris, Porto Rico was a part of the United States and was not subject to duty, therefore such duty must be refunded. The Court holds, though, that it was not unconstitutional of Congress to pass the Foraker Act, which put a tarifi of 15 per cent. on Porto Rican goods shipped to the United States. Therefore, in the Townes case, in which it was sought to have the tariff refunded, the Court Sustained the ad-ministration, claiming that the govern-
