WEDNESDAY, JULY 17, 1901.

The State Democratic Convention of Ohio met last week and nominated Col. James Kilbourne for Governor. The Convention declared against Bryan and his platform.

The cost of the Boer South African war has already reached an amount double that of the Crimean war. Great Britain is paying dear for what little gain there may be in the conquest of the two republies.

The dividends being paid by industrial enterprises throughout the country this month do not look so well after all when considered in connection with the number of strikes that are now on. Real prosperity would mean that labor should also get some of the profits.

The country is not to be enlightened with the full details of the Chinese campaign, the war department undertaking to judge what shall be published and what not of the report of Gen. Chaffee. This imperial idea of censorship is ill-befitting a republic where all are entitled to all the information that its public servants

One of the big insurance companies is going to put total abstainers in a special class of policy holders, and if their death rates prove less than in day will no longer be tolerated. Herethe class where drinking is permitted after birds that won't sing will be a lower price for insurance will be made to sing. Everyone is welcome made them. Temperance and virtue have their own reward, but a tip on folks. the side from the insurance companies will not come amiss.

It is stated that there are sixteen candidates for Congress in the Seventh District to succeed the late Dr. Stokes. The Democratic State Executive Committee will meet in Columbia next Tuesday to fix a date for the primary election. The campaign promises to be a lively one, and the voters of that District deserve the sympathy of their fellow-democrats throughout the State.

A folder issued by a Southern railway shows that at the end of 1900 there were 495 textile mills along the lines of its system, being a gain of ninety-four mills with 22,185 looms and 1,137,590 spindles during the year. Of these mills sixty-six are in Georgia, thirty-three in Alabama, 159 nic at Hardscrabble next Saturday. in North Carolina, and 102 in South Carolina, the others being in Tennessee, Kentucky, Missouri and Virginia.

The industrial art edition of the Columbia State is on our table. It unquestionably takes rank above any similar publication that has previously been attempted in South Carolina, and reflects great credit upon the enterprising publishers. There are a hundred pages of the edition, many of them illustrated, the cotton mill industry of South Carolina being specially exploited. In short, the edition is broad in conception, able in production, neat in execution and may be well treasured by every Carolinian. A publication of this kind is of far reaching benefit to the whole State.

Mr. A. W. Love, Superintendent of the South Carolina State exhibits at the Inter-State and West Indian Exposition in Charleston, spent yesterday in the city in conference with members of our general County committee. It is time that something in reference to our County exhibit was being done, and the committee will hold a meeting at an early date and go to work in earnest. Other Counties have already gone to work, and Anderson, the best County in the State, must not lag behind. Our County can make a fine exhibit of her products and resources, and we must do it. This is a work that some of our energetic women can take a hand in, and we hope they will be ready to co-operate with the general committee when it begins its work.

In this day of vexatious scramble over the mighty dollar it is hard to tell how much the Sabbath has sweetened human life. Day after day thunders on. Each one is laden with care, and thought and worry and business. It comes beating in on us like a mighty wave. We may be able to stand up against one of them, two of them, but by the time the sixth wave has thundered in upon us, we begin to stagger. But then the seventh comes with waves of healing. It is the Sabbath. It is the day of rest. And thus in our lives there are six layers of care and conflict, and one layer of Heaven. Six times the shuttles leap across the loom of our lives carrying a silver thread. And so the weaving goes on, from year to year, until the loom stops and God cuts off the threads which have been going

It is said that the Hon. William N. Graydon, of Abbeville, will be a candidate for Congress next year from the third District. Every County in District will probably have one or more candidates in the field.

The Philadelphia Record concludes that we are still a nation of farmers since incomplete census returns show that in 1900 there were 5,700,000 farms under cultivation as compared with 4,564,691 in 1800. This may be deemed a remarkable increase, showing that the growth of our industries is symmetorical, the farmers keeping in pace in the march forward. The single discouraging feature of the situation is the increase of tenant farming. This is accounted for, however, to some extent by the lease of lands by immigrants who are intending purchasers. As the area of unoccupied arable lands in the United States becomes less and less it is altogether probable that future censuses of the country will show a comparasive decline in the number of farms. The heavy increase in the past ten years is in the nature of a surprise, though the inducements of fine crops and fair prices have doubtless given a spur to land investments since 1896.

Holland's Store.

We had a very good rain in this vicinity last Saturday night.

Crops are growing very nicely. Our farmers are about through plowing cotton, and it will only need one more plowing.

Rev. H. M. Allen preached an excellent sermon at Shiloh fast Sunday. Mr. Allen's sermons are always fervid and clear cut.

The Bible Institute will meet with Shiloh the second Saturday and Sunday in August.

Denver Dots.

It has been four weeks since this immediate vicinity has had a good rain and crops and gardens are suffering

for the want of it. The bottom corn is almost a failure on account of the excessive rainfall and overflows, and unless there comes a good season soon the upland corn will be a failure, too. Cotton is needing some moisture, too. Our oldest and best farmers say that cotton generally is the smallest they ever saw it at this time of the year-16th June.

Mr. Billie Reid, of Seneca, and Mrs. Sallie Riley, of Anderson, visited their sister, Mrs. Esther Garrison, and other relatives here last week.

Mrs. Martha Watson and Mr. and Mrs. John Eskew were guests of Miss Mattie Eskew recently.

Mrs. Wm. Hembree and her pretty

daughter, Miss Mamie, visited relatives here last week. Mr. Warren Martin, one of Pendleton's best citizens, was the guest of Mr.

J. R. Garrison recently. Prof. W. P. Holland, of Seneca, was in Denver last Friday. It is thought he will accept the position of Principal in the High School here for the next term. INCOGNITA.

Concord Items.

As you seldom ever get any news from these parts, Mr. Editor, we will try and give you a few dots.

Rev. Mr. Black preached a very interesting sermon here last Sunday morning.

Mrs. James Stevenson is visiting friends and relatives in this community. She seems to be well pleased with her new home in South Georgia.

Mrs. Monroe Smith has been very sick, but we are glad to say she is improving.

Some of our people are talking of going to Seneca River to fish sometime in the near future.

Mrs. Walter Moorehead is visiting friends and relatives at this place. Several of the Concord people worshipped at Hopewell last Sunday.

Some of our people are thinking of taking in Children's Day at Trinity next Sunday. The summer school opened here last Monday and the children were glad to

welcome Miss Eva Gentry as their teacher for another year. Plums and blackberires are about gone, but there is a chance for a living

yet as watermelons will be ripe before long. WE Us & Co. July 16, 1901.

Whether or not, Read On!

That seems like a silly question to fire at a stranger in a Public Park, yet five persons are just that much richer by so asking. The New York World posted five men in Madison Square the other day with instructions to surrender a hundred dollar bill to the first one accosting them with that query. Though 20,000 people were attracted by the announcement, only five could profit thereby. But here's a lottery without one blank.

COME TO OUR STORE BEFORE JULY 31,

The earlier you come the better for you. One-half of the month is past and the great July saving prices will only last during this month. Bundreds of persons have benefited by the grand price reduction: here during this month.

WE don't propose to hold Sunday School during the week, nor to open a sleeping joint at our place during the dull season this Summer. We havn't slept a little bit since Sept. 1st, but have kept things howling at a lively clip, and as a result we have doubled our business of last year, as evidenced by our sales-book. Now, we defy the dullness of Summer, and in making a new record propose to make one that can't be beat without hustling. Our Goods are all paid for, and are ours to do with just as we see fit. So, just to liven up the sleeping animals a bit we will throw our entire Stock of newly

Summer Shoes

On the market at prices that will make our unfortunate competitors foam at the mouth. We are sorry for them, but foaming is raighty good for some folks. They're powerful good and pretty, (the Shoes, we mean,) but they've got to go. We can't bear to be so lonesome during these hot months, and if we can't swell the crowds at our counters one way, we'll do it another. When we say that our Shoes are of the best quality, those who, have traded with us the longest know that they are up to the standard.

Don't forget that we are the largest distributors of-
