We have handled Dr. Moffett's TEETH-INA (Teething Powders) ever since its first introduction to the public and trade as a proprietary medicine, and our trade in it has steadily i nereased from year to year until our orders now amount to two or three hundred gross per year, which is a very strong evidence of its merit and the satisfaction it is giving to the mothers of the country, for they say that nothing so effectually counteracts the effects of the summer's hot sun or overcomes as quickly the troubles incident to teething.

The great secret of a merchant's success The great secret of a merchant's success is in buying his goods right. Sullivan Hardware Co. have a regular Wholesale Department, and since opening same their tracie has increased in volume very rapidly. In this age of sharp competition, merchants are looking more closely after prices, and they are finding that they can buy at wholesale from this house cheaper than by sending their orders away from home and paying freights. The reason for this is that the Sullivan Hardware Co. are always wide awake and The reason for this is that the Sullivan Hardware Co. are always wide awake and make contracts ahead with the manufacturer direct; besides they employ a resident buyer in? w York, with branch offices in other cases, who keep in touch with all large factories, which gives this house the advantage of knowing just where their spot cash orders will obisin the lowest prices. It is much more satisfactory for merchants to buy in a home market when they can save money by doing so, and that is what Sullivan Hardware Co. propose to do for their trade. Anything in the Hardware line can be bought from them as low, often much lower, than the same class of goods are offered by other wholesale houses. If you have not investigated this fact they stand ready to prove it if you will give them your orders.
