The great secret of a merchant's success is in buying his goods right. Sullivan Hardware Co. have a regular Wholesale Department, and since opening same their trade has increased in volume very rapidly. In this age of sharp competition, merchants are looking more closely after prices, and they are finding that they can buy at wholesale from this house cheaper than by sending their orders away from home and paying freight. The reason for this is that the Sullivan Hardware Co. are always wide awake and make contracts ahead with the manufacturer direct; besides they employ a resident buyer in New York, with branch offices in other cities, who keep in touch with all large factories, which gives this house the advantage of knowing just where their spot cash orders will obtain the lowest prices. It is much more satisfactory for merchants to buy in a home market where they can see the money being so, and that is what Sullivan Hardware Co. propose to do for their trade. Anything in the Hardware line can be bought at these prices, often much lower, than the same class of goods are offered by other wholesale houses. If you have not investigated this fact they stand ready to prove it if you will give them your orders.
