

Intelligencer.

Published every Wednesday. J. F. CLINKCALLS, EDITORS AND C. C. LANGSTON, PROPRIETORS. TERMS: ONE YEAR, \$1.50 SIX MONTHS, .75 WEDNESDAY, APRIL 30, 1902.

It is now intimated that there is going to be trouble in raising a Roosevelt campaign fund for 1904, because of his inclination to shackle the trusts. With the men of millions politics is simply a matter of business.

At last the Exposition at Charleston seems to be appreciated and is being patronized somewhat like it deserves. The attendance has been quite gratifying for the past few weeks, the visitors coming from many States in the Union.

An Alabama Congressman proposes to take Representative Crumpacker and several other Republican Congressmen who have never been in the South, down to his State on an educational tour, where they can study the "ward of the nation" at short range.

The movement on foot to erect a handsome monument to Gen. Hampton should receive the hearty support of every liberty-loving, patriotic citizen of South Carolina. Anderson County, we know, can be counted on to contribute generously toward the monument.

All old soldiers who received an artificial limb under the Act of the Legislature of 1879, and Act of 1881, or the amendments thereof, or who received the sum of \$25, in lieu of an artificial limb under the Acts above mentioned, are entitled to the sum of \$25, for the repair of an artificial limb, under the new act passed at the recent session of the Legislature, provided they apply before May 26. A certificate as provided by the Act must first be filed by the applicant.

The Democrats were never before so united nor have Republicans ever before been so divided on the tariff as they are now. In Congress a few days ago the Democrats voted without dissent for the amendment to the Cuban reciprocity bill, which cut down the differential on refined sugar, which according to the statement of the sugar trust taken \$8,000,000 a year of its enormous profits. No less than 64 Republicans joined with the Democrats to adopt this amendment.

The potato bug, which proved to be so destructive to the Irish potato crop last year, totally destroying it in many places, has already made its appearance and is ready for the fray. They can be exterminated, however, by mixing one ounce of Paris green in three pounds of flour and sifting this on the potatoes. The Southern Cultivator recommends this, and says there is no danger of poisoning the potatoes. This should be done immediately after the first bug is seen, for they can soon ruin the entire patch.

The increase of the business of southern seaports during the last few years has been phenomenal and continues at an unabating rate. A large part of the export trade that formerly went from northern ports has been captured by the ports of the South, which possess many decided advantages. New York complains much of her loss of cotton exports, while New Orleans, Galveston and other southern ports are rejoicing over the growth of theirs. Cotton is now shipped direct from New Orleans to Liverpool for 28 cents a hundred and costs just about as much to ship it to New York.

Some of the newspapers of this State are discussing the question as to who should be allowed to enter the Democratic primary, and are giving themselves much concern in the effort to solve the problem. The same papers are also having a good deal to say about "Democrats who are preparing to join the Republicans." This is the sort of talk that is doing the Democratic party much harm. A Democrat can diverge from the views of a 2x4 editor without joining the Republican party, he can separate himself a long way from the Populist program palmed off as Democracy without "joining the Republican party." Perhaps if some of the self-constituted critics would have their particular brand of diluted Democracy chemically analyzed they would be surprised by the variety of the ingredients developed. Under the rules of the Democratic party in this State, any white man who will pledge himself to support the nominees, and any negro who voted for Gen. Hampton in 1876, and who has voted the Democratic ticket continuously since, are the ones permitted to participate in a primary election, provided they can meet the legal requirements. Were it not for this rule a large number of the "populist" individuals who have held office in this State for the past ten or twelve years would have long since been put outside of the ranks of Democracy.

The 22nd of May has been named Wagener Day at the Charleston Exposition in honor of its distinguished and energetic President, Capt F. W. Wagener. Every effort will be made, and rightly so, to make this the greatest day of the Exposition. Not only the people of Charleston but the people of the State and all portions of the country benefited by the Exposition, should do honor to the man who has been the bone and sinew, the inspiration and guide of this great Southern enterprise. Everybody who possibly can ought to assemble in the "Ivory City" on Wagener Day, and show their appreciation for him who has done so much for us.

Tillman at Manning.

Manning, S. C., April 25.—About two thousand people attended the meeting here to-day. Appelt failed to produce any affidavits supporting his charges against Tillman, save some bearing out his allegations as to Tillman getting things free from the penitentiary. Appelt offered also a telegram from Tillman saying he would speak here. The telegram showed it was sent "dead head," which proved Tillman had used a telegraph frank.

Tillman spoke first for a half hour and asked Appelt for his case. Tillman read two letters, marked "Private," written him by Appelt, and said he had a right to do so because it was part of the war. He regarded Appelt as a tool of McLaurin. Senator Appelt offered a half dozen affidavits from former employees of the State penitentiary, all concerning the oat crop and supplies furnished Tillman by the penitentiary. Neal states that Tillman got wood, coal, vegetables, fertilizers, etc., for which he paid nothing and gave orders that no charges be made.

Tillman's position in reply was that this was an old matter, fully covered by the Stevenson committee.

Appelt offered no certificates or affidavits as to the bond deal, whiskey rebates or anything else, only offered a table to show that rebates were paid up to 1894.

Tillman said the evidence offered was not sufficient to convict a dog on. No evidence was offered and Appelt insisted had made a complete farce. There was no use to shave an ass.

He took up Appelt's series of questions and answered each.

The main feature of the speech was that he insisted that the primary would be defeated if candidates were not made to pledge themselves to abide State and national party platforms.

He favored two separate series of campaign meetings, one for State and the other for senatorial candidates, about two months apart. He denounced Senator McLaurin as a traitor to the party, and held that he was a Republican, if there was any way to mark one.

Mrs. Dock Craig, Miss Essie Rochester, Mr. and Mrs. Darwin Reid, of Sandy Springs, and Miss Hattie McWhorter, of Denver, returned Saturday from a week's visit to Charleston and the Exposition. They say their trip was most enjoyable and what they saw too great to describe.

Mr. Browne's friends will be sorry to learn that his health does not improve.

Rev. H. M. Allen preached a strong, practical sermon at Welcome Sunday to a very attentive audience.

The busy season nor the scarcity of money have not deterred the colored people from buying lumber and going ahead enlarging their Church, Fairview, near here. They seem to have zeal if not forethought about Church business.

Mrs. Lovie Garrison was quite sick last week, but we learn she is improving.

Mr. W. D. Garrison and daughter, Miss Lillie, spent Monday in Anderson.

Nearly everyone is buying Paris green to kill the potato bugs, which are beginning to destroy the vines when scarcely above ground. One of "Peck's bad boys" says he saw them sitting on the row waiting for the potatoes to come up, but we do not vouch for his statement.

Wheat is looking well now, but the oat crop is not promising. Gardens are coming on fast this lovely weather. Incognita.

Mohawk Items.

We have been having some pleasant weather, and the farmers are almost through planting.

Misses Neta and Elvira Pennell spent Friday with Misses Clara and Flora Wright.

It was reported that there would be a singing at Bethany last Sunday afternoon, which disappointed several of our young people.

Miss Mamie Norris visited the Charleston Exposition last week and reports a jolly time.

Cotton and corn is coming up at a very rapid rate.

Our farmers say it is as fine weather for planting as they ever saw.

Mrs. Mary Fant went to the reunion at Dallas, Texas, on 18th inst. While there she will visit her son and return home about the 15th of May.
