An observing farmer says: "There are some curious things about corn, and one of them is, where do the red and speckled ears come from when you do not plant any but white corn? And another is, why can't we find an ear with an odd number of rows on it? You can find a four-leaf, clover, but you never saw an odd row on an ear of corn yet. It is always fourteen, sixteen, twenty or some other even number, and we would like to know about its mathematics and what objection nature has in these instances to odd numbers,"

A candidate out West carries a good plow hand on his rounds. When he wishes to talk to a farmer he lets his friend take charge of the team and keep the plow going. The farmer is generally willing to talk several hours while the "sub" is plowing. This is an example worthy of imitation by some of our candidates.

The reply of the Governor was encouraging and highly complimentary to the Senator. In speaking of the matter, in answer to inquiry. Mr. Sullivan remarked: "There are few who would decline such an honor, but as any appointment Senator McLaurin may receive at the hands of the President will quite likely be deferred until the expiration of his term, the Governor will not have an opportunity to confer so great an honor upon any of our people." The members of the Lodge with their lady friends or relatives and a few visiting Knights from other Lodges made up the party, and there was an abundance of good things on the tables to more than appease the appetite of every person present and feed as many more. The meats were prepared under the supervision of that experienced caterer, J. B. McGee, Sr., and their preparation was perfect. After the feast short addresses were made by Messrs. J. M. Knight, of Sumter, and W. Boyd Evans, of Columbia, both of whom are prominent Knights of Pythias in their respective cities.
