WEDNESDAY, JUNE 18, 1902.

The information comes from Washington that the appropriations by the present Congress exceed the receipts of the National government by over \$50,000,000.

The production of pig iron in this country has now reached the highest point ever known. Indeed it has reached such proportions as would friends justify calling it hog iron.

The Washington Post says: "If the South Carolina people elect Jim Tillman governor there will be ample justification for many of the harsh things said of that State."

A young lady has been discharged from the war department in Washington fer criticising the President. Free speech will soon be done away with if the rough rider continues in

President Roosevelt last Friday sent a special message to Congress urging reciprocity for Cuba. He thinks the interests or America will be greatly subserved thereby, but many prominent members of his party differ with him.

A call for meetings of negroes in all parts of the country to discuss the necessity of emigration to Central Africa has been issued from Chattanoga. Evidently the steamship companies have a notion that the negroes of the South have managed to save up something during the past year or two.

Mr. and Mrs. John Boggs visited relatives at Central quite recently.

Miss Mary Ligon who has been off at College is now at her father's, Rev.

T. C. Ligon.

Mrs. Bell Grant, of Seneca, visited her daughter, Mrs. Henry Crooks.

Mrs. Jane Woolbright has been quite sick for the past few days.

Henry Whitworth, of Lavonia, Ga., spent a few days with Billie Holcombe. Calhoun Harris, of Anderson, was at his father's, J. C. Harris, the second Sunday.

Pansy.

Col. E. H. Aull, of Newberry, private secretary to the Governor, who has been spoken of as a candidate for Secretary of State, has announced

Secretary of State, has announced that he will not make the race. Col. Aull says a State officer must have an income outside of his salary to live in Columbia.

Professor Starr, of the University of Chicago, says the wedding ring is a mere relic of barbarism. It may be perfectly safe for Professor Starr to fire away at the wedding ring, but if he wishes to stand well with the girls he will make no attempt to abolish the engagement ring.

If all the States of the Union will adopt the primary plan of South Carolina in the election of United States Senators there will be no need of a constitutional amendment to accommendate the picnic at Cooley's Bridge Saturday and report a pleasant time.

S. N. Pearman has returned home after an extended visit to relatives in Texas and Mississippi.

The people of this community are looking forward with much pleasure to the Union meeting which meets at Eureka the fifth Saturday and Sunday in this month.

Tom Davis and John Martin, two popular young gents of Anderson, were calling on some of our fair ones last week.

We noticed among the many visitors

plish the purpose. A large number of States have already adopted the plan, which has proven entirely satisfactory.

The Confederate Soldiers Relief Association has issued a circular inviting all Confederate soldiers who are needy and destitute to communicate with the organization at once. The chairman of each county pension board and two citizens of each county will act as a committee to assist the association.

The tremendous leap in the price of meat is a hardship on the poor people whose incomes are already taxed to the limit in order to supply the necessities for their families. In the large cities beef is now being retailed at 35 cents per pound, and it is likely to remain about that figure for some time to come. There is a big demand for beef cattle all over the country.

The Democratic organization in Indiana has in its State platform sounded a clear call to the political battle of 1902. The Democratic party and a majority of the American people will fall in line at that call, arrayed for conflict with the tariff bred trusts and the party of the tariff and the trusts. They must win the fight if the country is to be rescued from oppressive monopoly.

The Democratic Congressional Committee should by all means make trusts and the tariff the paramount issue of the approaching campaign. The campaign literature, the work of Democratic speakers and of Democratic newspapers, must all deal aggressively with this issue. The American people are determined upon relief from trustism and the tariff, and the National Democracy must lead the movement which shall terminate in victory for the people.

Mrs. Virginia D. Young, of Fairfax, S. C., editor and proprietor of the Fairfax Enterprise, desires to edit a collection of sketches of "Women of Today in South Carolina," and to this end asks the help of her brother editors, the members of the Federation of Women's Clubs, the Daughters of the American Revolution and of men and women everywhere in the State who would like to put upon record the notable labors of women among us engaged in whatever kind of work for the help of humanity.

The House of Representative to be elected this year will be chosen under the new apportionment made since the Federal census of 1900. There are 29 additional districts, bringing up the total membership of the next House to 386, and there is some uncertainty as to the political changes caused by the reapportionment in several of the States.

Among the visitors at Zion last Sunday we had the pleasure of meeting our old friends from the Iola section, Messrs. Foster and Eugene Mitchell, Sam Buchanan and John Green.

Several of the Zion boys spent last week in Anderson attending Court.

The song service at this place last Sunday was well attended, some 400 or 500 people being present. The singing was led by Profs. Hale, Thomas, Barnett, Clark and Reynolds. Each did their part well, and the only objection was that the day could not last a week.

A shooting scrape took place at Portman last Saturday morning between two negro laborers, Lovelace Young and Wallace Dudley, in which Young shot Dudley, inflicting a slight pistol wound in the cheek. Young was arrested and carried to Anderson and lodged in jail.

Quite a number of our people went to Atlanta on Smith's excursion. All of them report a pleasant time.

Prof. J. C. Lenderman will conduct an all-day singing at Zion on the third Sunday in July. Other leaders will also by present. Everybody is invited to attend with song books and well-filled dinner baskets. Singing will begin promptly at half-past nine on July 20.
