Whitner, of this city, has been made chief engineer of the Passenger Power Company, a strong company of Richmond, Va., which is the present owner of the street railway and lighting plants of that city. They will at once begin the construction of two power plants at different points in Virginia. This has been Mr. Whitner's specialty, and he has been a great service in this State and Georgia in developing the latent force of our rivers. In South Carolina he was the promoter and chief engineer in the development of the electric power plant which supplies Anderson and other towns near, and for the past two years he has been the chief engineer in developing the Catawba power, an immense undertaking, located near this city. This enterprise is expected to work wonders in this section."

Love laughs at barriers is as true now as it has always been, and was exemplified in the marriage Wednesday afternoon last of Mr. Levi W. Jolly and Miss May Cartee, both of Hopewell Township. The parents of the young lady objected. The young couple came to the city, called on Rev. William Brown at his residence and were made man and wife, and left as happy as if they had received all the benedictions conventionalities could invent. They are quite popular and their friends extend congratulations.

Patrick, late deceased, was a graduate of the Citadel at Charleston and for years a distinguished educator. Captain J. M. Patrick was for many years his assistant. His record is good and his efficiency undoubted. He is an Anderson County man. His chances of election are good and all things being equal, he should receive the support of this County.

Mrs. Lula Archer, wife of Mr. Lawrence N. Archer, died Friday morning in Birmingham, Ala. A telegram to Mr. J. B. Lewis brought the sad intelligence and Mrs. M. E. Archer, the mother of Mr. L. N. The Globe Store is a new and up-to-date department store which will open its doors for public patronage on Sept. 1st. The store room on Granite Row owned by Mr. J. E. Barton and lately vacated by W. F. Marshall & Co. has been entirely renovated and immense stocks of merchandise are now being moved into the building. The store will be managed by Mr. J. H. Weil, although the business is entirely independent of the store arising his name on South Main St. A large and efficient force of sales-people have been engaged for the new business. We wish for the new business the liberal support of the trading public.

Moffattsville Matters.

The Good Hope and Generostee Sabbath Schools held a most enjoyable picnic at the Generostee Church-grounds last Friday. A beautiful dinner was spread to which all did full justice. In Memoriam.

In the fresh beauty of the morning of Aug. 9, 1902, the pure soul of Melissa Willingham went back to God who gave it. She was the only child of an aged, infirm and widowed mother, Mrs. Teresa Willingham. As a child she was always cheerful and affectionate, as a woman industrious, helpful and contented, although not perfect in body, having been a cripple from birth. A noble spirit was never given woman. The writer has known her from childhood, and will cherish the memory of her friendship as a sacred thing. She was a consistent member of the Presbyterian Baptist Church, and was here laid tenderly to rest in the presence of a large concourse of friends who came to pay this last tribute to the remains of her whom they loved. Peace to her memory, and God's blessing on the sorrowing mother.

E. J. Kay.

"MAKE HAY WHILE THE SUN SHINES!"

It is very easy to make Hay while the sun shines if you have A DEERING MOWER and RAKE.

THE many advantages the Deering Mower has enables the operator to work it with much more ease than any other machine, and no time lost in going around stumps and trees. This Machine is so constructed that the driver is at no trouble in lowering and raising the cutter bar in passing stumps and trees. With no effort scarcely he brings the cutter bar to an upright position without stopping the Machine. There are many other advantages the Deering Ideal Mower has that we will show you when you want a Mower. The Pitman Rod of this Mower has only two pieces, while all other Machines have from ten to twenty-five pieces to wear out and be replaced.

The Mower is not all in looking up an outfit. It is essential to have a good Rake, and the Deering Rake is the simplest Rake on the market. A comparison of our Rake with other makes will convince any farmer that it is the Rake he needs. The devices for dumping are so constructed that a child can operate it without any assistance. If you are in need of an outfit let us show you our Mower and Rake and be convinced.

Now is the time to sow your stubble land in Peas and harrow them in with one of our TORRENT HARROWS.

We are still headquarters for all lines of Hardware, Nails and Wire. BROCK HARDWARE COMPANY, Successors to Brock Brothers.
