WEDNESDAY, OCT. 29, 1902.

Anderson does not lay claim to being on a boom, but for real progress and prosperity we do claim to be in the front rank with the leading cities of the country.

The price of whiskey in Kentucky has advanced twenty-five cents on the gallon. That doesn't mean, however, that men will drink less; only that the women and children will eat less, says an exchange.

If Anderson needs anything at this time it is a live Board of Trade that will do active work for the improvement and progress of Anderson. It should be organized and hold its meetings regularly once or twice a month.

A report of the Census Bureau on the entire textile industry shows that \$1,042,907,577 is invested in the 4312 establishments reporting. The value of the product is returned at \$931,494,566, to produce which was an outlay of \$23,289,162 for salaries, \$209,022,447 for wages, \$63,122,916 for miscellaneous expenses and \$521,345,200 for materials used.

If you desire to relieve those townships from the payment of a heavy bonded indebtedness, issued in aid of a railroad which has never been built, and which the State Courts have declared invalid, but which the Federal Courts are trying to enforce, vote "Yes" next Tuesday on constitutional amendment, Article VII, Section 11, of the Constitution, relating to counties and county government.

The Republicans have nominated a candidate for Congress in each District in South Carolina. Of course they do not expect to elect any of them, but if there is a small Democratic vote in the election next Tuesday the Republicans will have good grounds for a contest, and with a Republican House they may throw out some of our nominees. It is the duty, therefore, of every Democrat to go to the polls and vote next Tuesday.

Ex-President Cleveland says the only chance for the Democracy to win in 1904 is to put up a stiff fight for tariff reform. This is the only issue the party has ever been successful on before the people, and it is a live, burning question. The tariff touches the pockets of the people, and is increasingly burdensome. If the party can't win on this issue it is useless to revamp the old silver question or any of the other moribund features of the Democratic platform in former campaigns.

It is hardly possible that the American people, who are resolved to amend the tariff as to its greatest inequities and to control the trusts in their outrageous extortions, will be deceived by the specious pleas put forth by President Roosevelt, who by his own confession acknowledges that he has not the courage to follow his convictions. There is a sentiment of Republican revolt in the West, due to the conviction that there must be a revision of the tariff in the interest of the people. It is this sentiment which it is said has caused the withdrawal of Speaker Henderson in the Third Congressional District of Iowa, this eminent tariff revision idea. There is undoubtedly a serious disaffection in the Republican ranks. The condition created by the growth of this sentiment for tariff revision promises some big surprises in the election next Tuesday. The Democratic campaign managers are justified in working confidently and aggressively for the return of a Democratic majority in the next Congress.

Southern Congressmen are being written to by constituents who desire information about the silk worm industry. The Agricultural Department at Washington has collected literature on the subject and numberous persons are interested in it. Many years ago there was quite a craze on the subject at the north. Mulberry trees were set out in large numbers but as far south as New Jersey they were killed by frost. The south is the proper place for this industry, and we believe it would prove a successful venture down here. It is an industry that can very well employ women and children. We understand that the North Carolina experiment station is giving some attention to the matter, and estimates that in 50,000 families the product of four to five ounces of silk worms could be cared for, without any hindrance to other work. As the United States now manufactures and uses more silk than any other country, it seems right that some of it should be produced here.

Attention, Democrats!

Capt. H. H. Watkins, chairman of the county democratic executive committee, has received the following letter from Gen. Willie Jones, chairman of the State executive committee: Headquarters of the State Democratic Executive Committee, Columbia, S. C., Oct. 24, 1902. Capt. H. H. Watkins, Chairman, Anderson, S. C. Dear Sir: I have been informed that a white man by the name of Scott has been nominated by the Republicans against Hon. Wyatt Aiken, who is the Democratic nominee for congress from your district. It is very important that every Democratic voter should be brought out on election day November 4th, and I write to ask you that you will do every thing in your power to get our people to vote. This is the only danger we have. Get your county papers to stir the people up and urge upon them the great necessity of the vote being cast. The Democratic candidate may be in some danger of being defeated. I am particularly anxious that a large Democratic vote shall be cast, so that if there should be a contest before the House of Representatives, which we presume will be Republican, that our candidate may have such a large majority that there can be no question as to his election. So that I trust you will do everything in your power to get our people to come out and vote. Yours very truly, Willie Jones, Chairman State Dem. Ex. Com.

Onego Items.

Willie F. Henderson, of Greenville, is at his father's. J. K. Henderson is critically ill with typhoid fever. His many friends here and elsewhere wish for him a speedy recovery.

J. Knuch, the infant son of Jno. Wyatt, died Saturday morning and was buried here at 11 o'clock by the side of his mother, who preceded it to the grave two months ago.

The dwelling house on S. W. Hendrix's place, occupied by Tom Waters, was destroyed by fire Sunday morning about 2 o'clock.

Mr. and Mrs. L. O. Latham visited L. R. Henderson the third Sunday. James Cox, of Belton, was in our midst recently. There must be some attraction for him.

Mr. and Mrs. Pool, of Greenville visited John R. Henderson yesterday, Oct. 27. Blue Stockings.

The government is investigating the use of oil as a fuel on battle-ships. Two men were killed and four others injured in a mine explosion in Springfield, Ill.

The city of Havana, Cuba, has passed through a whole year without a case of yellow fever.

The government corn report shows an average condition of 79.6 against 52.1 a year ago.

Darlington will probably handle between 6,000,000 and 7,000,000 pounds of tobacco this season.

An explosion in the dyeing room of the Sibley mills, in Augusta, killed one operative and injured several.

Several sections of Tennessee and Georgia have experienced earthquake shocks of several seconds' duration.

A new religious sect has appeared at Borga, Finland. One of its peculiarities is the use of bread and coffee in the communion service.

In the United States are 6,000,000 women workers. Of these 10,000 are authors, 320,000 are teachers, 6,000 are doctors, and 1,800 occupy pupils.

And now they have a Porto Rican postmaster in jail on the charge of embezzling money funds. He has confessed. Carpet-bagism is no better now than it was twenty-five years ago.

A solitary man held up a train in Montana last Friday night. He killed the engineer, robbed the train and then went on his way. A reward of \$5,000 has been offered for his body, dead or alive.

An official order will be issued from the War Department within a few days calling for the reduction of the army from its present strength of 67,000 to 59,600, the minimum strength provided by law.

After being tried in legal form in court for criminal assault and murder and given the death sentence in each case in Hempstead, Texas, two negroes were taken from the court house by a mob and hanged to a telephone pole in the public square.

Farmers in Walla Walla County, Washington, are preparing for winter by covering their roads with straw to the thickness of about a foot. This prevents the roads from setting so deep in mud. Three hundred miles are to be covered in this way.

John Wilmore, a prominent merchant in Scott county, Va., has been arrested on the charge of murdering his father some years ago. The father disappeared suddenly and the son said he had gone to Mexico, and later said he had died in that country. The bones of the old man were found under the son's store last week.

While traveling Miss Helen Gould is constantly attended by a man named Tutt, who acts as her body-guard. One of his special functions is to keep kodak friends from taking pictures of Miss Gould. During his long service he has been arrested several times for smashing cameras, but Miss Gould, of course, always gets him out of the trouble. He is a giant in stature and weight.

County Mutual Benefit Association of America.

The County Mutual Benefit Association of America is now organizing the Anderson Division of 1,000 members. The membership fee is \$5.00, which covers the first advance death assessment. One dollar for every member is deposited with Mr. James M. Payne, the Secretary and Treasurer of the Anderson Division, and is held in The Bank of Anderson, subject to the order of Nelson K. Green, the President of the Anderson Division, to pay the first death loss by the Association. The Policy is clear and simple, agreeing to pay the sum of one dollar for every member in the Division upon the surrender of the Policy and approval of the proofs of death of a member in good standing. It is a home organization, managed by honorable, high-minded business men, for the benefit and protection of home people. It reduces life insurance protection to the minimum of cost that the average of human life will allow. There are no big salaried officers to pay, and there are no big annual premiums to be sent out of the County into some rich Northern insurance company's pocket. All the money stays right at home, and when it is paid out every member knows exactly to whose benefit it goes in time of trouble. Until the first thousand members are secured applicants will be received up to 55 years of age, thereafter no member will be admitted over 30 years of age. We want good, reliable agents in every township in Anderson County at once. Persons desiring to become agents for their township will write or call on THOS. W. NORRIS, manager of agents for Anderson County.

The State.

Nothing can take the place of your county paper. For county news and for county pride it should go into every home. But for news from the capital of your State and every county in South Carolina, served fresh every day; for daily news from Washington, the United States and every other quarter of the globe, nothing can take the place in South Carolina homes of The Daily State.

These are momentous times in history. We are in the midst of war, strikes and political struggles of great importance. The next session of our legislature, with the inauguration of a new governor, will have peculiar interest. Man or woman, to keep up with the times, must read the Daily State. The next session of our legislature, with the inauguration of a new governor, will have peculiar interest. Man or woman, to keep up with the times, must read the Daily State. The next session of our legislature, with the inauguration of a new governor, will have peculiar interest. Man or woman, to keep up with the times, must read the Daily State.

But if you can't afford that, there is The Semi-Weekly State, issued Tuesdays and Fridays, each issue containing the most important news from all South Carolina and the world at large for that day and the preceding days since the last issue. And this may be obtained for \$2 a year, \$1 for 6 months, or just a fraction over a half cent a day!

No family in South Carolina is too poor to take this paper. No money can be spent to better advantage by a poor family. It is a necessity. Subscribe NOW—TODAY.

\$5,000 IN GOLD GIVEN TO WOMEN

By the Make of "Queen Quality," the Famous Shoe for Women.

ASK US FOR PARTICULARS! Our Fall and Winter Stock is now most complete, and one of the most up-to-date lines of Shoes ever shown in this country. We respectfully ask you to call in and make an inspection of our Stock. We don't ask you to buy unless you think the Goods worth the price asked for them.

We sell only High Grade Goods; we let the other fellow sell the cheap and shoddy stuff.

Yours for business, DAVIS, THE SHOE MAN, W. F. DANIEL, Manager.

Wheat Fertilizers!

It Pays to Buy the Best.

WE are offering for sale Fertilizers and Acid Phosphates manufactured expressly for GRAIN. They are finely ground and perfectly assimilated, and hence will give better results in the field than Fertilizers unevenly ground and imperfectly mixed. We desire that buyers will particularly notice the CONDITION of our Goods. They are all carefully milled and screened before shipment. Ten acres of properly prepared and fertilized land will give better return for your labor than four times the quantity of scantily fertilized and poorly prepared land. Our Goods are right. Our Prices are right. Our terms are right.

Yours truly, D.C. BROWN & BRO.
