The Manning Times congratulates The News and Courier on having as a member of its staff so promising a humorist as "Nathan Beeswax," a young boy from the clay hills of Anderson. The Times says: "He is certainly a most very clever thing, and it is one thing that his true name should be known, and particularly in view of the fact that longer concealment might result in distressful consequences to the Editor. His name is Sullivan, just the same as Mr. Dooley's name is Dunne.—News and Courier. Yes, his name is J. Augustus Sullivan, the eldest son of our fellow-townsmen, John P. It will be a \$300,000 mill and Mr. Brown will invest in it \$20,000 of the genuine simoleons. This smells like business—and the odor is seductive. Mr. Brown is now in Charleston mingling with the money kings here about and endeavoring to interest them in the enterprise. Pears like there's something doing in Anderson.—News and Courier, 20th ult.

The approach of cold weather has developed the fact that in one particular, at least, the work on the Court House was not carried out exactly in accordance with the specifications. The specifications called for a flue from the rooms of the Probate Judge, Auditor and County Superintendent of Education, so that stoves could be used. When openings to the flue were made a few days ago it was found that the flue stopped after being carried up one story, and investigation showed that had it been carried further it would have come in contact with one of the main beams of the gallery. This discovery makes plain the reason for stopping it. It becomes necessary now to put in iron piping with off-sets to miss this beam and reach the roof, entailing a considerable cost. The temporary use of fire pipes and stoves by the officials on cold mornings obviates the necessity of putting in heating apparatus in operation at a cost of \$4.00 per day.
