VOLUME XXXVIII--NO. 32.

JANUARY CLEARANCE SALE!

The evidence of your own eyes is all that is necessary to prove the splendid values in this Clearance Sale. Just as you know a gentleman from a rogue, you can distinguish true clothing from trash. There is character on the face of every article in this Clearance Sale. No matter how little the price you pay you are absolutely safe on a purchase made here. This Store's reputation is guarded as zealously in these Clearance Sales as when we get regular prices. A Clearance makes no difference in the quality of our merchandise—all the difference is the price.

This Sale includes all of our New Fall and Winter Clothing. This season's best and most popular Suits, Odd Trousers and Overcoats, all go at these reductions—nothing reserved.

\$5.25

Is the phenomenal low price we place on all of our \$7.50 Men's and Young Men's Suits. Blue and Black Serges, also Worsteds and Cassimeres, in Checks, Plaids and Mixtures—every one of them excellent value at their former price.

\$7.85

Is the small price we place upon any of our \$10.00 Suits. These Suits were the very best values shown in this Town at \$10.00. Now, you will only have to see the Suits to appreciate their value.

\$9.45

For any \$12.50 Suit we have in stock. These Suits have an air of elegance that cannot be found in any \$12.50 Suits elsewhere.

\$11.75

Buy any of our \$15.00 Suits. \$12.90 buys any of our \$16.50 Suits. \$14.50 buys any of our \$18.00 Suits. These are the Suits which are so much like your high-priced tailor's best ones, the kind he will charge you at least one-half more than our regular prices.

TROUSERS.

Now is the time you should need an extra pair of Trousers. You are in luck if you do. Every pair of Trousers in this house is included in this sale. Better hurry. Here is what we do for them—

\$1.55 for Trousers that we have been selling for \$2.00.
\$1.95 for Trousers that are regular-priced \$2.50, \$2.25, for any of our \$3.00 Trousers.

\$2.75 for any of our \$3.50 and \$4.00 Trousers.
\$3.75 each is the price we place on our fine line of \$4.50 and \$5.00 Trousers.

OVERCOATS!

You remember how cold it was last year about this time. The weather-people say this month will be cold, and the way it's starting out seems as if they're right. Here's some interesting prices for the man who wants an Overcoat:

\$3.75 for any of our \$5.00 Overcoats.
\$5.25 for any of our \$7.50 Overcoats.
\$7.85 for any of our \$10.00 Overcoats.

The cuts on the above Goods are deep, but they are genuine reductions. No fake business here. We have always stood square up to our ads in the past, and we will not this late day misrepresent Goods to make sales. So you can come here knowing beforehand that what you see in this ad will be more than substantiated when you see the Goods. You had better hurry, though, as you know the best things always go first.
First come, first served, is the rule here.

Gov. Heyward's Inaugural Address.

Miles B. McSweeney laid aside the cares of office yesterday and was succeeded as Governor of South Carolina by Duncan C. Heyward. While congratulating the retiring Chief Magistrate upon his successful administration of the high trust imposed in him we wish to congratulate his successor upon the splendid opportunity opening before him, and to express our confidence in his courage and impartiality in the discharge of the duties of his office.

It was not to be expected that the new Governor would go into an elaborate discussion of the affairs of the State in his inaugural address. It is a very well balanced public paper, and distinguished by a conservatism of statement and suggestion which must make favorable impression upon the people and the representatives of the people in the General Assembly, who will share with Governor Heyward the responsibilities of conducting the Government of this State during the next two years.

Among the more important of the recommendations in the Governor's first official utterance may be enumerated:

1. Encouragement to broader and more diversified work among the farmers by providing larger means for scientific instruction in agriculture.

2. The establishment of an immigration commission or bureau to give official and accurate information to those seeking homes in this part of the country, and the opportunity of advertising the resources of South Carolina at the great World's Fair in St. Louis.

3. Ample provision for the establishment of the best common schools so that in every community and district there shall be well built school houses, longer school terms, more competent and better paid teachers.

4. Encouragement to capital to seek investment in this State by providing capital so invested with ample protection under the law.

5. While providing for the protection of capital the Legislature should also provide for the defense of the people against the abuses of combined capital.

6. The enactment of a law prohibiting the employment of children in the cotton mills of the State, sufficient time being given "for both manufacturers and operators to adjust themselves to changed conditions."

7. The enforcement of all the laws of the State, and particularly of the Dispensary Law, it being, in the opinion of the Governor, "the duty of all law-abiding citizens to give that same obedience to this law which they give to all others."

8. The thorough drainage of the swamp and lowlands of the State, such lands, which are now wholly unproductive, comprising "fully one-fifth of the area of our State."

9. The enactment of laws which will prevent "the importation and sale of adulterated and impure food products." There could be no more important work for the Legislature to perform than this.

10. The submission of a constitutional amendment to the people at the next election, providing for biennial sessions of the General Assembly. "In my judgment," says the Governor, "were such an amendment submitted it would be adopted, which I cannot but believe would be to the interest of the State."

11. The administration of all the affairs of the State Government without parsimony, but with true economy and provision in some way, either by reducing the appropriations for the support of the public institutions, if that can be done without impairing their usefulness, or such increase of taxation as may be required to place the finances of the State on a strictly business basis, the necessity under which the State has been placed of borrowing money to conduct its affairs not being approved by sound business sense.

The most important and significant thing about Governor Heyward's inaugural address, however, is not to be found in the suggestions which he makes to the members of the General Assembly as to appropriate legislation upon pressing public questions, but in the emphasis which he places upon the restoration of good feeling among the people of the State in this new era when none is for a party, but all are for the State. The campaign last year developed the fact as Governor Heyward said, that "upon all fundamental principles our people are agreed," and it is because he enters upon the discharge of the duties of his high office as Governor of the whole people of South Carolina that this new man, without experience in public affairs, without political debts to settle or factional issues to confound his better and patriotic judgment, will have the united support of the conservative forces of society in South Carolina. It is the duty of all good men to hold up his hands. There can be no question of his devotion to the State; it is worthy the service of all its true sons.—News and Courier, Jan. 22.
