## MOST PEOPLE

Look upon advertisements as mere schemes to pull money out of the public.

It is the general impression that ads. are not printed to tell the exact truth—a certain amount of exaggeration, it seems, is expected, and the public has been educated in this way of thinking, we are sorry to say, by some otherwise good merchants.

Not so in this Store's ads. We print the exact facts about our Goods and our business without any exaggeration.

What we print in this space we stand back of. Every word is put here to tell you the exact truth. If at times you think we are talking too strong it's because we have good cause.

Sometimes nothing but very strong talk will represent the value of some special bargains, but you can depend upon it being just as advertised.

We have a reputation that we are proud of. A reputation for selling reliable Goods that has taken us a good while to build up. Do you think we would jeopardize it by not printing the exact truth in our ads?

As good CLOTHES, SHOES, HATS and FURNISHINGS as money and brains can buy, with prices as low as Goods can be sold.

### TRUTHS ABOUT COFFEES.

HAVING trouble with your Coffee, are you? Can't find the sort to your taste? Can't get it uniformly good? Try BOLT and your Coffee trouble will cease. Once I know the kind your palate approves I can give you just what you want.

With White Star Coffee, and right Coffee-making, you are bound to have satisfaction. The Coffees are unobtainable, pure, genuine, and sold under right names. No substitutes allowed here. White Star Coffees are put in four grades from 25c to 40c a pound. I am exclusive agent for these hereabouts.

A. A. Grade, 40c a pound, an extra fine blend of rare, rich and costly Coffees of the very highest grade, fine flavor, delicious in the cup, and suits the coffee critic. The Coffees in it are never sold by some dealers because of their name. Those who want a No. 1 Coffee recognize its bitterness at once.

No. 1 Grade, Mocha and Java, 35c a pound. Another palate pleaser, both, rich, fragrant, with drinking qualities hard to surpass. "Can't be passed," many folks obtain. Genuine Mocha and Java, and not Rio or other sorts masquerading under assumed names for profit's sake.

No. 2 Grade 30c—No. 3, 25c. Both good and popular where medium Coffees are desired. Honest Coffees at honest prices. Blends of high-grade sorts and please most palates. Money saved if you like them.
