A Demented Wife Commits Suicide.

The friends of Prof. William E Breazeale, of Rutgers College, N. J. who is a native of Anderson County and a brother of our townsman, John E. Breazeale, Esq., have heard with much regret the sad death of his wife, who threw herself from a steamer near Bridgeport, Conn., on Monday night, 13th inst., and was drowned.

Mrs. Breazeale went directly from her home to New York, where she took a steamer bound for Providence, R. 1. and registered her name as "Mrs. Brown, saying she lived in New York. She was assigned to a berth by the stewardess and was last seen at 9 o'clock. A woman who had talked with the stranger said that "Mrs. Brown" told her she had four children and was tired of life, and this is the only thing known as occuring on the boat so far as she is concerned.

On Tuesday morning a letter from Mrs. Breazeale was received by her sister. Mrs. Prentiss, the wife of another professor in Rutgers College, in which it was stated that she was about to take a boat from New York to Boston and that she was continued. to take a boat from New York to Boston, and that she contemplated self-destruction. This letter caused an immediate investigation, and Profs. Prentiss and Breazeale, with a large number of students from Rutgers, went directly to New York and thence to Providence, where it was learned that shortly after the steamer had passed Bridgeport the woman was missed from the dressing room, and no trace of her could be found. It is supposed that she had raised a window and leaped over the rail.

On the floor of the dressing room was a black jacket, lined with changeable silk, a collarette, a gloria cloth umbrella and a black toque, trimmed with black feathers, and these articles tallied exactly with the description of

fortunate wife.

Mrs. Brenzeale was formerly Miss Martha Hamilton Dodge, of Baltimore, and was married about ten year ago to Prof. Brenzeale, by whom she had four children. Prof. Breazeale and his family spent a year or more in the south of France, especially for the benefit of his wife's health, but it seems that the change of locality was unavailing, and her mind was never restored.

DuBose-Sullivan.

A pretty home wedding was that of Miss Harriet Elizabeth DuBose and Mr. James Mattison Su'livan, which was solemnized Wednesday morning at 11 o'clock at the home of the bride's parents on Spring Street. The parlors were beautifully decorated, green and white being the colors used. Quantities of palms and ferns, combined with lillies and dogwood blossoms and potillies and dogwood blossoms and potted plants, made the effect one of great beauty. In the front parlor, where the ceremony was performed, was arranged a bank of palms, ferns and Easter lilies, which served as a background for the bridal party. Immediately preceding the bride and groom came Mr. James Sullivan, of Anderson, S. C., and Miss Vance DuBose, a sister of the bride. Rev. Howard Crumley performed the ceremony in an impressive manner. The dark blue traveling suit of the bride set off to peculiar advantage her brunette beauty. Mr. and Mrs Sullivan left at 12 o'clock for a trip through the North, visiting New York, Canada and other places of interest before returning to their home in Anderson, S. C.

Mrs. Sullivan is the eldest daughter of Mr. and Mrs. William Vance Du-Bose and is a granddaughter of Rev. Jesse Boring, and has hosts of friends throughout Georgia and South Carolina who wish for her much happiness. She is a graduate of Wesleyan College and has held the chair of ancient languages at Anderson for the past several years.

Mr. Sullivan is a man of many stering qualities and is prominent in business circles and political affairs, having served several terms in the South Carolina Legislature, and is now Mayor of Anderson.—Atlanta Constitution, 17th inst.

Almost a Serious Fire.

Last Sanday morning bond favor o'clock the splendld residence of Mr. S. J. Duckworth, who lives on the Anderson readjust west of town, came very near being totally destroyed by fire.

Mr. Duckworth was argued from his slumber by the appearance of smoke in his bedroom and he at once began a search to ascertain the cause, when upon entering the hallway he found a dense smoke bursting from the closet door and was met by a sheet of fire which knocked him down, singed his hair and burnt his hands and face badly. He called for help but sing some distance from his nearest neighbor's house he failed to receive assistance and the task of extinguishing the flames and saving his home coive assistance and the task of extinguishing the flames and saving his home fell upon himself and a small negro boy. After fighting heroically until he was almost completely exhausted, Mr. Duckworth succeeded in subduing the fire by the application of water which the little negro boy lost no time in supplying him with.

megro boy lost no time in supplying him with.

But before the fire could be brought under centrel, the entire woodwook of the staircase was completely destroyed as well as the ceiling overhead in the hall.

The origin of the fire seems to be a mystery, and the only hypothesis is that it was the direct result of rat; and matches.—Williamston News.

Some cotton seed have been planted but if the cold wind and rain continues to come very much longer the crop will have to be planted over, for the seed will rot in the ground. Some corn is up and was looking very well until the cold spell last week, which seemed to take the life out of it, and the most of it is dead or dying. Some say if it stays wet until the last of April it will be useless to plant cotton, but some would plant cotton if it stayed wet until June.

all about it.

Mr John Hanna, grocer, of Girard, Penn., painted his house with Devoe itead and Zinc Paint. He thought it expensive, but he bought it. After finishing the job he brought back nearly half the paint and said it was the cheapeat job of painting he ever did.

Write to Mr. Burt Young and Mr. E. H. Hiler of tile same place. Also to Mr. H. H. Stephenson. Cashler of Oil City (Pa.) Savings Bank.

It is the cheapeat paint in the world because it is all paint. It cevers most surface to the gallon, and it wears longest.

There's going to be a lot of this "paint used in Anderson. When it gets a footsold, it never lets up; and the painter who uses Devoe Lead and Zine is going to save money for his patrons.
