Gainesville, Ga., June 15, 1903.
To our many sympathizing friends:
Like Niobe of old. Gainesville, Georgia's Queen City, sits weeping for her children. Clouds of sorrow, scenes of desolation, hearts burdened with grief. desolation, hearts burdened with grief, are everywhere about us. As though sorrowful for the destruction they have wrought, the elements seem to weep with us. Scarcely a ray of sunshine has pierced the leaden skies since that fateful Monday, June 1, and our beautiful city is constantly drenched with "tears from the skies." Out of the clouds of gloom and sadness with which we are surrounded, however, a voice has come, bidding us be of good cheer. Georgia's great heart has responded nobly to our call for aid and from city and hamlet letters of sympathy, bearing evidences of the brotherfrom city and hamlet letters of sympathy, bearing evidences of the brother-hood of man, in the shape of checks and drafts have come to feed the hungry, relieve the suffering and bury the dead. To every one who has contributed of money, stores or provisions, sympathy or words of encouragement, Gainesville returns her heartfelt thanks and prays God's richest blessings upon the giver thereof.

### Normal School.

The fifth session of the Anderson County Normal will begin on Monday. June 22nd. The large attendance of teachers at the former sessions and the almost universal satisfaction the work has given indicate that the summer school has come to stay. This normal is no mere assembly of teachers where the hours are spent in social conversation, but a school in which the teachers can spend one month of the long vacation in agreeable and profitable intercourse with their fellow teachers, acquiring professional skill and a broader and deeper knowledge of the subjects contained in the course. Teachers who have a proper professional spirit should enroll themselves on the grat day and remain to the end of the ers who have a proper professional spirit should enroll themselves on the grst day and remain to the end of the session. The wide awake, progressive teachers will not miss this opportunity of showing their interest in improving themselves, thus demonstrating to the public their determination to give their employers the best service of which they are capable. The instructors and school officers are preud of the fact that the Anderson County Normal has achieved some reputation, and has each year been among the largest schools held in the State. The city and county are forging to the front in commercial and industrial development and the necessities of the time demand improved educational facilities. Whatever improves the teacher improves the school. Can a teacher spend four weeks in earnest study without much permanent benefit? Can a hundred or more intelligent persons associate with one another for four weeks without receiving great and lasting profit therefrom?

### Letter to Dr. W. H. Nardin. Anderson, S. C.

Dear Sir: You can put \$100 in your pocket if you can put us in the wrong.

Devoe Lead and Zinc is all paint. It takes fewer gallons to paint a house than with mixed paints. It wears longer than lead and oil—mixed paints, too. The State chemists, of Malne, New Hampshire, Vermont, Massachusetts, New York and Pennsylvania have analyzed it and say it is pure.

If you can prove that any of these things aren'tso, we've a hundred dollars waiting for you.

If these things are true, what paint will you use next time to paint your house? What will you say to the people that sak you?—for doctors get asked queer questions.

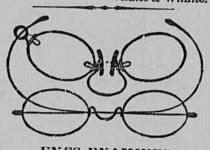

If you know of an honest young painter who isn't getting the grip on life that be ought to have, give him this hint: Devoe lead and zinc—that'll do it, if he does his work as well as the paint does its.

P. S.-W. L. Brissey sells our paint.
