It is estimated by well known farmers that the condition of the cotton crop at present is not more than 50 per cent. of an average. Of course there are some places where the prospect is good, but as a whole the outlook for a good cotton crop in Anderson County is very poor at this time. The reports as to the grain crop and early corn are generally favorable.

Mrs. Elizabeth Breazeale, widow of the late Wm. Breazeale, died at the home of her sen-in-law, Robert A. Lewis, in Belton, last Monday morning after an illness of several weeks, aged 71 years. It seems that the page.

It seems that the negroes, big, little, old and young, employed hereabouts as nurses, cooks, etc., have quietly formed a "combine" and are demanding from 25 to 75 cents a week more than they have been getting, and are "walking out" where they do not get a raise. This is partly due to the abundant crops of plums and blackberries, and partly to the scarcity of farm laborers. Some of them prefer to feast upon the blackberries, etc.. and the others ask 75 cents per day for hoeing cotton.

A number of small cases of no interest to the public were disposed of during the day. Late in the afternoon the case of A. F. Martin vs. Mrs. Elizabeth Burgess was entered upon. This case has been before the Court two or three times and has been to the Supreme Court.
