### Her Body in a Well.

Charlotte, N. C., July 31.—A special dispatch to the Evening Chronicle from Statesville tonight says:

"The body of Mrs. Dolph Beaver was found dead in the well at her home in Cool Spring township last night and foul play is expected. The body was taken out after midnight. She was bruised about the neck, supposed to be the result of being choked. The lever was on the well and the bucket on top of it. Mr. Beaver and his only son came to Statesville and when they returned home late in the afternoon and missed Mrs. Beaver search revealed her body in the well. The coroner went out today to hold an inquest. An empty pistol, some tobacco and a small amount of money was missed. If she was murdered the perpetrator of the crime is not known. Mrs. Beaver was about 40 years old."

### Dead Man Returns to Wife.

Chicago, Ill., July 27.—Believed by his wife and family to be dead and buried in the family lot, with his life insurance paid and his estate settled, John C. Ludwig created consternation to-day by appearing in Chicago, bronzed and healthy.

Ludwig was sent to an insane asylum, but he managed to escape. A year ago a man was killed in a railroad wreck on whose body some papers were found containing Ludwig's name. His wife and family held funeral services over the remains and buried the body in the family lot. Then they proceeded to collect the life insurance.

There are in New York City to-day 1,320 millionaires against 294 twenty years ago and 25 in 1833. There were no millionaires 100 years ago. The first person to reach that distinction was John Jacob Astor, who became a millionaire about the year 1820.

The sure way never to get favors done is to do them for others.

While other sections of the country have been visited by fire, flood and hail, we of this immediate vicinity have seemingly been under the protecting wings of an all-wise providence.
