A HOME COMPANY, Organized under the Laws of South Carolina!

What means that angry cloud? It betokens the approach of a violent storm. Are you prepared for it? If you are not you may be by having your growing crops insured by the Farmers' State Mutual Hail Insurance Company of South Carolina, against loss or damage by hail storms. This Company, which is composed by the leading farmers of our State, insures your crop against total or partial loss by hail, and no planter, trucker, or farmer should be without it. The cost of this insurance is small in comparison with the investment that you have at risk. This is an assurance age and experience teaches us that the remote possibility of losing a considerable amount should be provided for if it can be done at a reasonable cost. The small cost of a policy will not be missed, while the destruction of a crop may upset the business calculation of a lifetime. Would you, as a merchant, hesitate for a moment to close your eyes in sleep with a storehouse full of goods without taking out a policy of insurance? No, although fire might start and be put out; but the farmer can do nothing towards protecting his crop against hail, save by insurance.

All adjustments are made by a regularly appointed adjuster of the Company and in the event of any disagreement between the adjuster and the members may be submitted to arbitration, thus avoiding the expense of any lawsuits. Our membership is limited in each locality and only the best and most desirable of risks will be accepted. Policies issued for only one year. You pay the premium after you realize upon the crops that you have insured. We hope that our representative may be able to interest you in behalf of this very laudable enterprise. We remain,

Yours most respectfully,

Farmers' State Mutual Hail Insurance Co. of S. C.
