MANHOOD.

In the Young and bising generation, the vegetative powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from the school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inward upon themselves.

If the patient be a female, the approach of the menses is looked for with anxiety, as the first symptom in which Nature is to show her saving power in diffusing the circulation, and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it fed on, and the energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonder-ul period in which body and mind underge so fascinating a change from child to woman, is looked for in vain; he parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

HELMBOLD'S EXTRACT BUCHU,

For Weakness arising from Excesses or Early Indiscre-

Attended with the following symptoms :

Attended with the following symptoms:

Indisposition to Exertion, Loss of Power, Loss of Monory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Jorror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appelite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots flying before the Eyes, with Femporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such patients than Solitude, and nothing they more dread for Fear of Themselves, no Repose of Manner, no Earnestness, no Speculation, but a hurrieu transition from one question to another.

These symptoms, if allowed to go on—which this Medicine invariably :emoves—soon follow Lott of Power, Fatuity and Epiteptic Fits, in one of which the patient

Fatuity and Epiceptic Fits, in one of which the patient may expire.

During the superintendence of Dr. Wilson, at the Bloomingdale Asylum, this sad result occurred to two patients; reason had for a time left; kam, and which is dof epilepsy. They were of both semms and which is dof epilepsy. They were of both semms and which is dof epilepsy. They were of both semms and which is doften to sage.

Who can say that these excesses: s.no: 4200th followed by those direful diseased examinations, it reamy found to the records of the Innane Asyluma, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destinte—neither mirth or grief over visits it. Should a sound of the voice occur, it is rarely articulate.

With woeful measures wan Despair Low sullen sounds his grief beguiled."

Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences—
