PHILADELPHIA, Desember 26, 1863.—Messrs. Jones & Evals—Gentlemen:—I have recently bees labering un der the distressing effects of indigestion, accompanie by a prestration of the nervous system. Numerou remedies were recommended by frisads and some othem tested, but wishout relief. Your Hoodand's German Bitter were recommended by persons who had tried them, and whose favorable mention of the Bitters an aversion to patent medicines, frees the "thousan and one" quack "Bitters," whose only aim seems to be pain off sweetened and drugged liquor upon the community, in a sly way; and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours wat really a medicinal preparation to took it with happy effect. Its action not only upon the stomach but upon the nervous system, was prom p and gratifying. I feel that I have derived great and pemanent benefit from the use of a few bottles. Very repectfully yours.

MANHOOD.

If the You'de And Rising Generation, the vegetative powers of life are strong, but in a few rears how often the pallid hue, the lack-instre eye and smaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing inuence is checking the development of the body. Conquiption is talked of, and perhaps the youth is removed on the school and sent into the country. This is one of the worst novements. Removed from ordinary diersions of the ever-changing scenes of the city, the owers of the body too much enfeebled to give zest to althful and rural exercise, thoughts are turned inward upon themselves.

If the patient be a female, the approach of the menses to coked for with aniety, as the first symptom in which

THE UNDERSIGNED, MEMBERS OF THE FIRM OF THE UNDERSIGNED, MEMBERS OF THE FIRM OF KRAUSHAAR & CO., are practical Plano makers, and as such have had a large experience in connection with some o the best Establishments in this country and Europe. Their issues are made not merely for hem, but ty them, at dunder their immediate personal upervision, the hey allow no instruments to leave their actory and reas into the hands of their patrons, unless hey have a power, evenuess, firmness and roundness of one, an elasticity of touch—without which no instrument ought to be satisfactory to the public—as well a hat durability in construction, which enables it to remain in tune and to withstane sudden changes of temperature and exposure to extreme heat and cold, which resometimes unavoidable.

They will at all times be happy to see the profession and the public at their Warerooms, and invite comparion between their own Planos and those of any other manufactory.
