New Orleans Markets.

New Orleans August 11.—The market opened this morning with only a moderate inquiry, and notwithstanding factors showed increased willingness to realize and a disposition to make further concessions, still the sales were confined to about 900 bales, including a list of 160 purchased late in the evining. We have no material change to notice in prices, but, on the whole, the advantage was on the side of buyers, particularly with regard to Low Middling, the outside figures for which we reduce to, while the inferior grades were attended with continued irregularity. Referring to the above remarks, we repeat our quotations, as follows: Ordinary, 25 to 280; Good Ordinary, 29 to 300; Low Middling, 82 to 830, and Middling nominal at 35 to 860.

Memphis Market.

MEMPHIS, August 14.—Certon.—The market yesterday opened dull and heavy, with no domand and little offering. A few buyers were on the market, but in most cases they were unwilling to concede to holders' priges, and consequently few or no sales transpired ourling the day. The New York dispatches still quote the market dull and unchanged, at 94:0 36c.

Liverdool dates, per cable of the 11th, report sales of Cotton for the week 52,000 bales. Prices declined 1/2 on the week. Middling Upland 19/2d. To-day's sales 10,009 bales.

The decline in the Liverpool market and the continued depression in the New York market has affected our market to a great extent, and prices are tending down wards; in fact, the unfavorable news from Europe has brought the market to a stand, and there will be little doing until the market in a stand, and there will be little doing until the market to a great standing the past week. We continue our quotations as nominal:
