New Orleans Market

New Orleans Market.

New Orleans, November 27.—Corros,—The market opened under the same influences that provailed yesterday and continued quite active throughout the day. The improved tone which has characterized the movement in Gold and Exchange, has imparted additional confidence to holders, few of them being disposed to sell unless at comparatively full prices, notwithstanding which buyers came forward with unabated spirit, and sales to the amount of 6000 bales were effected, ten brokers participating in the business. Prices evilosed no material variation, although it must be admitted that a firmer tone pervaded the market from the opening to the close of business. Referring to the above remarks we repeat as follows: Ordinary 27x395; Good Ordinary 30x316; Low Middling 32x33c, and Middling 34x35c. The receipts proper since Friday evening excluding the arrivals from Mobile, Florida and Toxas, which are included in their respective statements), comprise 15,517 bales, against 12,449 during the corresponding period last week, showing an increase of 3008 bales. The exports embrace 7565 bales, 370 of which were to foreign ports, and 3854 coastwise.

> New York Market. MONEY MARKET.

The New York Evening Post of Friday, November

30, says:

Gold opened dull at 140%, falling to 140%, and recovering to 141. The rates for leaus varies from 164 to flat. The loan market is inert and abundantly supplied at six, with exceptions at five. The discount business continues light, rartly from suspense and distrust on the part of capitalists but chiefly because very tow first-class bills are making. The current rates for very choice and very short paper are six per cent, and seven to seven and one-half for choice names. Thereturn flow of green-backs from the West and from other points exceeds at present the drain to the South. As there is thus an increasing amount of currency here with which to do business, and as the reserve of the banks is no longer being impaired, it is regarded as probable that we shall have a continuous ease in the money market for some time to come; and this opinion is rendered the more probable by the plethers of disengaged capital seeking investment on call.

Matanzas Markets.

MATANIZAS, November 23.—Clayer Sugar—At the day Fure of our last circular of the 9th Inst, the market was left inactive, owing to the unusual pretensions of holders for their ron a aling stocks, consisting mostly of middling and inferior descriptions. In consideration of the advanced season and uniavorable situation of monetary matters, lower offers have been, however, accepted since by some planters, and transections have again shown rather more importance, estimated at about 4000 boxes, of from No 8 to 10, on the basis of 7\(\frac{1}{2}\)1/2 rs arrobe D S No 11, and 2300 boxes browns, comprising a parcel of 1100 boxes of prime dry quality, full No 12, at 7\(\frac{1}{2}\) rs arrobe all round.

cel of 1100 boxes of prime dry quality, full No 12, at 7% is acrobe all round.

The stock is now reduced to near 2000 boxes. Stocks at Havana and here new reach 106,000 boxes, against 59,000 boxes last year and 160,000 the year preceding. Musbovano Suoan.—The inquiry for this article has continued paralyzed. Of the panel mentioned in our provious report about 200 bhds fair growry have been dispused of Star arrobe for immediate shipment to Charleston. The bilance of about 500 hids good refining not fetching the price asked, will also be shipped for New York on owner's account. Of the new crop some triding parcels have already come to town.

Mollassis Sugal..—Market has been cavier, and several lots of mid-lling quality, in boxes, have been disposed of from 525 k re arrobe, only mere trides are still left for

at the late prices of 4 4n4 4 rs keg for clayed. Thus far about 100 hhds of the new crop may have been received.

Franchers.—The demand for Europe is limited, but vessels of moderate capacity being scarce, masters hold firmly to former rates. Large vessels are obtainable at lower figures.

EXCHANGE—Sterling and france have become rather more scarce, and under a fair request are improving. Bills on the United States are better sestained.
