LIVER COMPLAINT AND DYSPEPSIA.
It is estimated that seven-tenths of all adult allments proceed from a deceased and torpid liver. The biliary secretions of the liver overflowing into the stomach poison the entire system and exhibit the above symptoms.
After long research, we are able to present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over all hundred and forty thousand persons have taken the PLANTATION BITTERS, and not an instance of complaint has come to our knowledge!
It is a most effectuel tonic and agreeable stimulant, suited to all conditions of life.

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The reports that it rolles upon mineral substances for its active properties, are wholly fasse. For the satistaction of the public, and that purients may consult their physicians, we append a list of its components.

Calisaya Bark.—Colobrated for over two hundred years in the treatment of Fever and Ague, Dyspepsia, Wealness, etc. It was introduced into Europe by the Countress, wife of the Viceroy of Peru, in 1640, and afterwards sold by the Jesuits for the enormous prace of its own weight in silver, under the name of Jesuit's Pouders, and was finally made public by Louis XVI. King of France. If umboild makes especial reference to its febrifuge qualities during his South American travels.

CASCARLIA BARK.—For diarrheas, colic and diseases of the stomach and bowels. the stomach and bowels.

DANDELION—For inflammation of the loins and dropcical affections.

CHAMOMILE FLOWERS—For enfeebled digestion.

LAVENDER FLOWERS—Aromatic, stimulant and tonio-highly invigorating in nervous debility. WINTERGREEN—For scrofula, rheumatism, etc. ANIBE—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.
Also, clove-buds, orange, carraway, coriander, snake-S. T .-- 1860 .-- X.

Another wonderful ingredient, of great use among the Spanie's ladies of South America, imparting beauty to the complexion and brilliancy to the mind, is yet un-known to the commerce of the world, and we withhold ts name for the present. IMPORTANT CERTIFICATES.

Testimonials from the most distinguished Artists in Europs
"to Messrs. Chickering & Sons: LONDON, July 25, 1866.

Having played upon a Piano-forte made by Messra. Chickering & Sons, of Boston and New York, I have much pleasure in testifying to its general excellence.

For sweetness and brilliancy of tone, delicacy of touch and magnificent power for concert purposes, I consider it a really Geand Piano-Forte, and Decided-Ly The Best I have seen of American Manufacture, ARAEELIA GUDDARD.

Among the chief points of excellence of the Chickering Pianos, of which speak the renowned artists in their congratulatory testimonials to the Messers Chickering, are the greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and perfect evenness throughout the entire scale; and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.

During the past forty-three years this firm has manuactured

80,000 PIANOS, In the construction of which they have introduced every known and valuable improvement. They have invaria-bly been selected and used by all of the world's zo-knowledged great artists who have visited this country nally, both for private and public use. THALBERG. I consider Chickering & Sons' Pianos, beyond com-parison, the best I have ever seen in America.

GOTTSCHALK.

I consider Chickering & Sons' Pianos superior to any in the world.

They are unrivalled for their singing qualities and for the harmonious roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the

base is distinguished for power without harshness, and for a magnificent sonority. Your Planos are superior to any I have ever seen in

It is country or in Europe.

I have never heard a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of e, together with its sympathetic, elastic and well POZNANSKI.

During the past eight years I have constantly played upon the justly celebrated Erard Planos; yours are the only instruments that I have found, either here or in Europe, to equal them in all their points of excellence. It may be satisfactory to our patrons and friends among the public at large to state that testimonials have been received from all the leading artists who have visited or are now residing in the United States, a few of whose names, besides those above, we append:
