LONDON, JANUARY 14, 1866. James M. Wehli, Etg.: Mr DEAR Str.: I have great pleasure in asking youto convey to Meesre. Chlokering the expre sion of my highest approval of their instrument. It is, I con-ider, not merely the best instrument of American manufacnot merely the best instrument of American manufac-ture that I have tried, but one of the figest Grand Piano-fortes that has ever come under my observation; and the Messrs. Chickering may well be proud of having turned out from their manufactory an instrument which, for touch, quality, power and workmanship, it would be very difficult to surpass in any part of the wide world. Among the chief points of excellence of the Chicker-Among the chief points of excellence of the Chicker-ing Planos, of which speak the renowned artists in their congratulatory testimonials to the Messrs. Obickering, are the greatest possible depth, richness and volume of tone, combined with a rare brillingory, clearness and perfect evenness throughout the entire scale; and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch. During the past forty-three years this firm has manu-

80,000 PLANOS,

In the construction of which they have introduced every known and valuable improvement. They have invaria-bly bean selected and used by all of the world's ac-knowledged great artists who have visited this country professionally, both for private and public use.

THALBERG.

I consider Chickering & Sons' Pianos, beyond com-parison, the best I have ever seen in America.

GOTTSCHALK.

I consider Ohickering & Sons' Pianos superior to any

in the world. They are unrivalled for their singing qualities and for the harmonicus roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the base is distinguished for power without harshness, and for a magnificent sonority. n the world.

WEHLI,

Your Pianos are superior to any I have ever seen in this country or in Europe. I have never heard a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, elastic and well balanced touch.

POZNANSKI.

During the past eight years I have constantly played upon the justly celebrated Erard Plance; yours are the only instruments that I have found, either here or in Europe, to equal them in all their points of excellence.

It may be satisfactory to our patrons and friends among the publicat large to state that testimonials have been received from all the leading artists who have visited or are now residing in the United States, a few of whose names, besides these above, we append: THE UNDERSIGNED, MEMBERS OF THE FIRM OF KRAUSHAAR & CO., are practical Piano makers and as such have had a large experience in connection with some of the best Establishments in this countr-and Europe.
