TUESDAY MORNING, FEBRUARY 12, 1867. LOCAL MATTERS.

To PRINTERS.—A good compositor—a steady, reliable man-can secure employment by applicatio

cupied in hearing motions having reference to reports made to masters. The case of MAGRATH TS and argued until the time of adjournment. BY STEAM TO LIVERPOOL.—The British steam

ship *Pioneer*, Captain Shackford, was cleared for Liverpool yesterday by Messrs. W. B. Smtth & Co. with 493 bales of Sea Island, 1123 bales of Upland Cotton, and 11 packages Merchandise—the whole valued at \$269,943.

This vessel carries the bulk of about 1800 bale ed Cotton, on a light draft of water, and compressed Cotton, on a ngue drait of water, and with a fair opportunity she will probably make a

THE NATIONAL BANK OF SOUTH CAROLINA. - WO ould call the attention of our citizens to the open ing of the books of subscription to the capital stock of this institution, at the store of Mr. S. G. COURTENAY, No. 9 Broad street. Only \$5 per share will be required on subscribing, \$45 per share when the Bank is organized, to make up half he capital required by the act, to be paid in before commencing business. The balance will be paya ble in future instalments, spread over a period of several months, which will make the payment of the shares easy.

It is only necessary to raise a subscription of \$50,000 in Charleston to secure a subscription of 250,000 elsewhere.

BISHOP LYNCH'S LECTURE.-Despite the unpropitious weather, says the Augusta Constitu-tionalist of the 10th, Masonic Hall was filled last night with intelligent ladies and gentlemen, who, for more than hour, were attentive listeners to the Right Rev. Dr. LYNCH, as he unfolded to them, step by step, evidence after evidence, gathered from the stores of his deep research, of the fact that years before the so-called discovery of try had been sought and found by navigators of the East. It is impossible, and would be unju to attempt, to give an abstract of the learned gentleman's lecture. There is a probability that se may have an opportunity to hear the Bishop gain, and we feel safe in saying that those who ad the pleasure of hearing him last night would be gratified to hear further discussion of the same ic, especially the latter portion.
The Bishop was presented to the audience by

JOSEPH GANAHL, Esq., of the Committee of Invita-tion, who performed his pleasing task in a brief and graceful manner. In behalf of the Library Association we bespeel

the "aid and comfort" of the reverend gentleman who addressed our citizens last night.

New Organ.—The old organ of St. Mary's Church having been completely destroyed by the shells during the siege, a new instrument was orlered by the congregation from the North, which arrived on the Moneka yesterday. This organ is from the celebrated factory of Messrs. H. Erben & guarantee of its superiority. It is much large than the one formerly in use, being fifteen feet high, ten wide and seven deep, and having thirteen stops. It is warranted by the maker to be a per fect instrument, possessing all the modern im-provements, and capable of any modulation of und. Mr. Erren, Jr., was a passenger on the Moneka, and will superintend the reconstruction of the organ. As these instruments are always hipped in sections, it will require some little tim to put the different parts together, and arrange the structure of the whole; but it is anticipated that this can be accomplished during the week, and in a few Sabbaths the choir (whose musical abilities are well known) will be able to furnish a ation of sweet sounds that will put their former efforts in the shade. We congratulate our friends of St. Mary's upon their new acquisition, and hore that it may never meet the sad fate of its predecessor, but always sound the notes of "peace

COLD vs. COAL.—The late freeze, although not severely felt in the Sunny South, has, nevertheless, had a disastrous effect upon us. The ice blockade was rigidly enforced at the North; a few had the temerity to essay a passage. Vessels of every de-scription were laid up in an icy chancery, many of them being freighted with valuable cargoes, the non-receipt of which occasioned great disappointment to the consignees. One result of this embargo was a sudden increase in the price of all scarcity in the market was only relieved by the arrival of a few steamers, whose freights wer fortunately composed of the desired commodities. But the principal outery has been the want of coal, and, as this is usually brought in sailing ver d. The price has rapidly risen from \$10 to \$16, and, unless relief speedily comes, it will soon reach a figure that will be beyond the limit

Telegraphic advices inform us that the ice is ferent schooners, barks, &c., that are now long over due at this port. These are freighted generally with the cargoes most in demand, such as corn, bacon, coal, &c., and the wants, not only of the city, but of the large section of country dependent upon it, demand that their coming may be hastened.

MAYOR'S COURT, February 11.—Ben Palmer, s very yellow "gemman," with his hair cut in the fashion called "fighting trim," and who belongs to that class of the population, 'vot vont vurk," was up for swindling a country darkey out of a watch by means of the "drop game," but the countryman had the sense to apply to the Detective office, and the virtuous Ben was nabbed and had to disgorge. Upon his person was found some counterfeit money, and a couple of iron rings and sticks, which are used also for turning an honest penny, and, as he had several times before graced the Court-room with his countenance, the Mayor gently let i m off with a fine of \$10.

William Mitchell, a colored man, who had been receiving the polite attentions of a whiskey bottle. and who riotonaly entered the house of a woman and checked her, and then complimented another female occupant by knocking her down, and con-cluded the performance with a display of brick bats, after the style of an exhibition of fireworks,

John Glover, a colored fancier of groceries, and who obtained what he wanted "without money and without price," was sent to a magistrate, who will give him some idea of the enormity of attempting to help himself to people's goods without leave. A man who had got drunk and gone to hed in s

gentleman's yard, but left the gate open, thereby gentleman's yard, but left the gate open, thereby rendering himself liable to a severe cold, was re-moved to the Guard House and put in one of the comfortable guest-chambers of that institution, where, in company with a bucket of ice water, he pleasantly passed the balance of the night, and paid \$5 in the morning for the attention that had been extended to him.

THE WINTER.—Although with us the season has been rather a pleasent one, with days—nay, weeks—resembling spring,—still we have had times like the present, so cold and toy that they seemed to come from the very heart of winter, and made many of us feel as if we of the South were to be many of us ree: as it we or the sound were to doomed, with other punishments, to the freezing weather of the North. But the lively spirits of those who were reared under the balmy influences of a summer sun were not to be cast down by a of a stimmer survey where the South-breath of Boreas, and with an energy in the South-ern character that a few years ago surprised and astounded more than one portion of the world, we looked about in our abnost impoverished state for some plan of resistance to an oppressive at mosphere, and determined upon a system of en-joyment, which, while it would exhibit a disreslight, and at once adopted the agreeable design of a reunion in the ball-room. This plan naving been entered into with a spirit truly Southern, some of the finest entertainments of this kind have been given within the last two or three months that our city has ever boasted of, and al-though extravagance of dress and prodigality of of a reunion in the ball-room. This plan having means has not characterized these parties as in days of yore, the grace and beauty of our women in modest attire, and the bearing of heroes that were but youths a short time ago, have rendered es of more than common impor these assemblies of more than common in tance. That they may continue for the balar tance. That they may conclude to the salars to the season to enjoy themselves to the fullest extent, and that a thousand pleasures may surround them for the pains, anxieties and privations they have suffered during the past six years is on

Thus, it will be seen, that even although an oc

COURT OF CHANGERY-Chancollor LESSERNE Pre siding. The Court met at 11 A. M., and was oc-

The Chamber celebrated its 44th Anniversary yes terday. In accordance with a time-honored custom, it was intended to commemorate the occasion with a dinner, but in consequence of the non-arrival of the Moneka in sufficient time, it was post-poned until Wednesday. The Chamber met in the gentlemen's parlor at the Mills House, the President. A. O. Andrews, Esc., being in the Chair.
After the preliminary business had been transacted, the following officers were elected for the ensuing year : A. O. ANDREWS, President.

WM. RAVENEL, Ist Vice-President.
WM. C. BEE, 2d Vice-President.
P. J. BARBOT, Secretary and Treasurer.

Committee of Appeals.—George A. Trenholm, T. Lowndes, Henry Gourdin, Theo. Huchet,

S. Y. Tupper.

Commillee of Charity.—S. Y. Tupper, Chairman
F. J. Porcher, Theo. D. Wagner, A. F. Ravenel, F.
J. Pelzer. The Charity Fund which had accumulated du

ring the past year, amounting to \$543, was turned over to the Commmittee on Charity. The newly elected officers having taken their seats, the following resolutions were offered:

seats, the following resolutions were offered:

Resolved, That the thanks of this Chamber are duo, and are hereby tendered, to the President, A. O. Andrews, Esq., for the impartial and dignified manner with which he has conducted the business of the Chamber for the past year, and that we, the members, hail with pleasure his acceptance of the office for the next term.

Resolved, That in addition to the compensation now allowed to the Treasurer, P. J. Barbot, Esq., the sum of fifty dellars be allowed him for the efficient manner in which he has discharged his duties during the past year.

The Chamber of Commerce is now in its prime, and presents the rare instance of a corporation and presents the rare instance of a corporation

and presents the rare instance of a corporation numbering some one hundred and fitty members, not one of whom is in arrears to the Society. This evidence of vitality is enough to insure it a green old age, and the ability with which it is managed, and the amount of good that has been performed through its means, have strongly recor to the community. A sure evidence of this is that notwithstanding the losses by war and other disasters, its membership is steadily increasing, thir-teen new members having been elected at the re-cent meeting; and the time is not far distant when it will flourish with more than its former pros

After the regular business had been tra the Chamber, with several invited guests, discussed a collation which had been furnished by minhost of the Mills House, Mr. PURCELL, merely as a foretasts of all the good things to be looked for on Wednesday next. He showed that he is well ersed in mystical lore, and "coming events cast heir shadows before."

Numsmarios.—A friend yesterday showed us great curiosity in the shape of an Austrian copper cent United States coinage. The Kreuzer is the unit of value in many of the German States: sixty Krenzer make a florin, guiden or guider, and two-and-a-half of these are equal in value to an American silver dollar. This coin was found in diggin a well in this city. Although the surface was con-siderably abraded, the inscription is still quite egible. With Pope we may exclaim : "Not that the thing is either rich or rare, but the wonder is how the d—— it got there."

THE STREET RATIONAL MOSSYS I S Brook o. have acquired more popularity in a short space f time than any public corporation in the city. and they deserve not only the hearty well-done but should be addressed as was custom of the astern courtiers when speaking to their sover eigns-"Oh! King, reign forever." The reign of it was born a man, and has since taken giant strides. Additions and improvements have been made, and others have been completed that will nake the road what it approximates closely at y the Moneka, on her last trip, was a new car for is road. This is the first of four that have been ordered for the Rutledge street route. They are somewhat larger than those now in use, and are intended for two horses, the increased travel on hat line necessitating the change.

THE BURNT DISTRICT.—This unfortunate blot on the community has been so often alluded to that the subject is nearly threadbare, and but for the shelter it affords to scoundrels of every stamp would not be again commented upon. We have been told that those whose deeds are evil love not the light, and it is on this account, we presume, that they inhabit this section, for a darker spot, so-cially and morally, it would be difficult to find. That portion of this district that is intersected

by Meeting street is illumined by the rays of only by sleeting street is humined by the rays of only two lamps, and these are so far apart as to be of scarcely any use. The ruined buildings are admi-rable hiding-places for any plunderers, and the solitary traveller, who, deluded with the idea that he is about to make a short cut, tries one of these blind paths, frequently comes to grief and suffers from the harpies who assail him.

The outrages are so daring and occur so often

that the public have become alarmed and look to the authorities to put a stop to such crimes. It is true that our police force is admirably managed, and, notwithstanding its small size, is very vigilant in apprehending all transgressors, but the breaking in the different rivers, and we hope soon police are not immaculate, and not possessing to see this substantiated by the arrival of the diflight is essential, and unless it is soon obtain this section will become a by-word and a reprose

> During the late rainy spell a gentleman of this city, in his desire to take the nearest road home, branched off into the burnt district but he had scarcely entered it when he was assaulted with brickbats, and finally assailed by three freedmen. He was, fortunately, able to elude their friendly clutches, and succeeded in making his escape, the only damage sustained being a slight contusion from the blow of a brick. This is only one of the numerous instances, many of which do not come to the public air, and, in the unsettled state of the community, it is absolutely necessary that some means should be taken to either capture or

disperse these maranders.

There are several lamp posts in the burnt district that are now useless, but which might be easily put in repair and made available for public purposes. This would require only a small outlay, and the amount of good resulting from it would be incalculable. Their rays would carry more terror with them than a watchman's club, and the combined influence would be such as to make the district uninhabitable except by honest men.

MARSDEN'S PECTORAL BALM for all Bronchial dis-

DOWIE & MOISE, Agents. GOODRICH, WINEMAN & CO., Agents.

TESTED BY TIME.—For Throat Diseases, Colds, and Coughs, "Brown's Bronchial Troches" have proved their efficacy by a test of many years. The good effects resulting from the use of the Troches have brought out many worthless imitations. Obtain only "Brown's Bronchial Troches."

If you want cheap Blank Books; If you want cheap Stationery, Envelopes, Pa-

per, &c.; If you want Printing executed neatly;

If you want Books bound in any style, or Account Books made to order, with any desired pattern of ruling, go to Hibam Harbis, No. 59 Broad street.

HABITUAL CONSTIPATION. HOW TO EFFECT A CERTAIN AND PERMANENT CURE.

ne occupations of life predispose to Costiver

who contract this unfortunate habit of body, under suc who contract this unfortunate habit of body, under such circumstances, might possibly be relieved by changing their sedentary employments for others of a more active kind; but this is by no means certain. Habitual constipation is a very obstinate disorder. All the ordinary so-called remedies invariably aggravate it. Nothing can be more injurious than the continued use of strong aperionts. They at first irritate, and finally almost parelyze the hoveles—readquirter them, as torrick that care lyze the bowels—rendering them so torpid that enormous doses of cathartic medicines have no effect upon them. A mild aperical, combined with a gentle stimulant, is the true remedy; and a combination in the happiest proportion of these ingredients, is found in HOSTERIER'S STOMACH BUTTERS. This famous Stomachic invigorates the whole intestinal count, while of a free passage through them. No mere purgative has this double operation. No ordinary stimulant effects the desired object. Cases of Constipation shandoned as hopeless by distinguished medical men have been cured in a few weeks by the Bitters. To those who have tried all the medicines of the dispensary in vain, we street this irresistible stimulant and aperiant. There is no sufficient reason why Constipation should be the conse-quence of sedentary habits. HOSTETTER'S BIFFERS, by supplying the vigor which would otherwise t rived from exercise, will in all cases enable the syst perform its excretory functions regularly and h fully.

6 Pebruar. February 11 THE TIME TO ADVERTISE IN THE

COUNTRY.

The Daily South Carolinian at Columb's, is now sent to every Postoffice in the State. Being the afficiel paper of the State, it will be found at the present time especially valuable to merchants and others destring to avail themselves of a very large circulation.

GUANO IS A RICH COMPOUND OF THE BEST

PERUVIAN AND BAKER'S ISLAND

GUANO COMBINING A LARGE PER CENTAGE OF PHOS PHORIC ACID AND BONE PHOSPHATE, made soluble with sufficient Ammonia (Peruvian Guano), making an excellent and profitable fertilizor, adapted to al climates, soils and crops.

I uppend the following letter as to its value. Others of similar tenur can be seen at my office.

J. N. ROBSON.

SUSTEE DISTRICT, January 7, 18.7.

GENTLEMEN: I tried SARDY'S SOLUBLE PROSERIO
PERRIVIAN GUANO and cotten using 140 pounds to the
acre, and made 600 pounds Seed than 250 to 350 pounds to
the acre. I manured land adjung, and of the sem
quality, with 110 pounds Peruvian and the yield was no
botter than from that manured with Sardy's Soluble
Phospho-Peruvian Guano. I think it cheaper and mor
profitable than the Peruvian.

Yours, very truly,
February 12 tuths: WM. R. DIXON.

BAUGH'S

RAW-BONE PHOSPHATE 200 TONS DAILY EXPECTED.

S THE AGENT FOR THE ABOVE MANURE, It also year submitted to Professor Shepard, of the south Carolina Medical College, a sample for analysis and, with his endorsement, recommended it to my planting friends. I am now pleased to say that their practice are recommended in the professor's opinion of its value as a manuscript. fue as a manure.
The best evidence that the results of its use on cot
a last year were satisfactory lies in the fact that those
to then used it are this year buying it again, and in in creased amounts.

A carge of BAUGH'S RAW-BONE PEOSPHATE is now in transit for this port, and, in conformity with my uniform rule, if will be sampled and analyzed by Professor Shepard upon arrival. The manufacturers have, however, placed in my hands an analysis of the cargo, made by the rolessor williams, of Philadelphia, which shows the season of the MANURE to be fully up to that of last season of the MANURE to be fully up to that of last

ason.
The following is the report of Prefessor Williams, regred to above: erred to above:

PHILADELPHIA, January 22, 1867.

Messrs. Baugh & Sons:

GENTLEMEN: I have analyzed the sample of your Sue-Phosphate handed me some days since, and find it to be composed as follows: St-Priospinace Islanda as follows:
e composed as follows:
loisture at 212 degrees Fahrenheit. 4.69 per cent.
loisture at 212 degrees Fahrenheit. 23.14 per cent.
felding Ammonia 3.62 per cent.
felding Ammonia 4.283 per cent.
loiding Phosphoric Acid. 19,62 per cent.

Cerned.

JEFFORDS & CO.

Will sell THIS DAY, before their Store, No. 27 Vendr Mer ingredients not estimated.)
The per contage amount of Ammonia is very much The per contage amount of Ammonia is very much have examined, and this, in connection with the readi-above examined, and this, in connection with the readi-above examined and the Bone Phosphate when acted the period of the period o

CHARLES P. WILLIAMS, Analytical and Consulting Chemis J. N. ROBSON. AGENT FOR THE MANUFACTURERS, No. 62 East Bay, Charleston thatu MAPES' NITROGENIZED

SUPER-PHOSPHATE OF LIME INTRODUCED 1851.

FOR COTTON, CORN, WHEAT AND OTHER GRAIN CROPS, TOBACCO, VEGETABLE CROPS, &c.

CONTAINS SUFFICIENT STIMULATING AMMOMACAL Animal Matter to produce rapid growth,
and to insure the complete appropriation by the plant of
the phosphates and plate ingredients in the fartilizer
without echaneting the sufficient burn the crope during drought like Peruvian Graco, or lose its strength
by the rolatilization of the Am romis.
All its constituents, excerting the Sulphuric Acid,
deing from Bones, Blood, Fiesh, and other animal
sources, and not from Mineral Phosphates or Mineral
Phosphatic Guancs, as in the case with most of the Super-Phosphates, are in a condition to become quickly
soluble in the soil, and svallable as food for plants.

Warranted free from adulterations and of uniform
quality.

KINSMAN & HOWELL, SOLE AGENTS, No. 183 East Bay Terms of sale—\$65 per ton cash; a limited amou sold for half cash, balance payable November. 18 with approved Factors' acceptance, bearing its rates of interest at time of purchase.

Bangh's Phosphate of Lime, \$60 cash; \$55 lst November, with interest, approved city acceptance.

sugh's Phosphate of Lime, 850 cash; 855 Ist November, with interest, approved city acceptance, heanix Guano, \$55 cash. lower of Bone, unadulterated and unburst. armers: Plaster or Gypsum, warranted pure. It offering the above manures to planters, I do so with very confidence, not only having testimonials from the confidence, not only having testimonials from the guarantee that every cargo, as it arrives from the city, is analyzed by Prof. Shepard, of the South arolling Medical College, and the high reputation of nee manures fully kept up. J. N. EOBSON,

anuary 1 tuthsomos No. 62 East Bey.

SOLUBLE PACIFIC GUANO.

THE COMPOSITION OF THIS GUANOIS IDEN TICAL WITH PERUVIAN. FF DIFFERS ONLY IN THE PROPORTIONS OF THE SAME ELEMENTS.

WHILE IT CONTAINS LESS AMMONIA, IT HAS
We meanly twice the quantity of Phosphate of Lime,
to per cent of which is immediately soluble. He effects
to per cent of which is immediately soluble. He effects
to per cent of which is immediately soluble. It effects
to per cent of which is immediately soluble. It effects
to perform the soluble of the soluble per cell of Peruvian disasses, extive in the early growth of the form of drought intervenes the crop does not suffer from the drought incases with Peruvian Guano. By reason of the presence in
it of so large a per cent of Phosphate of Lime its use improves the soil to an extent that cannot be realized from
Deservian Guano. Peruvian Guano.

Every cargo of this Guano is subjected to rigid inspection snalysis, and is sold on a basis of actual value.

The undersigned, Agent, is prepared to furnish the testimony of well known South Carolina planters in evidence of the superior excellence of this Guano. No. 1 SEGARS.

J. N. ROBSON, Agent, December 4 tuthseu mo. NO 62 EAST BAY.

E. FRANK COE'S SUPER PHOSPHATE OF LIME

OB BONE DUST MANURE

Sulphate of Lime and traces of Sulphate of Ammonia, Potesh, Soda and Magnesia, with some free Sulphuric Acid, about.

Hygrometic Water supelled at 212 degrees.

Combined water as perion of this belongs to the Phosphate of Lime, which was estimated after its ignition; the greater part of balance is doubtless associated with the Animal Matter, and Animal Matter.

Silica (Sand). 100.00

The Animal Matter, as might be supposed in a fertilizer so largely derived from fish, is less highly nitrogenized than that in the Perurian Guano. Still it will silved, dering the process of decomposition, about three per centering the process of decomposition, about three per centering the process of decomposition and the process of decomposition and finitely the process of decomposition is remarkably abundant though not symmetry recknowled monog Manures, being here associated with our re-less stable arimal principles cannot fall of adding to the written, especially on light soft. The insoluble Phosphate being theroughly organized suff, at it is same time, minutely divided, is also wall adapted to a grainal appropriation by the plant. the plant.

According to the present sample, COE'S SUPERPROSPHATE is a judiciously and faithfully manufactured Manure, and will not disappoint those who will
give it a trial. Even if employed alone, I should expectipily remarkation crushes. ghly remuneration results.
(Signed) CHARLES UPHAM SHEPARD.
