## LOCAL MATTERS.

To Correspondents. We are continually receiving communications on political and other matters from persons who do not attach their proper name; to the articles sent; and we take this occasion of repeating that nothing can be published in The Daily News without helps in the party of the party of the property of the party o ing indorsed by some responsible individual.

give a musical and dramatic entertainment, which, from what we have learned concerning the same we doubt not will surpass even the interest an excellence of its predecessors.

LARGE SALE OF REAL ESTATE. - J. W. GBAY, Master in Equity, will sell at the Exchange, at 11 o'clock to-day, all the real es ate of the late J. T. MARSHALL, consisting of eligible residences, bakery and rice plantations. This property is in good order; the plantations are in successful operation, and paying handsome dividends. The sale will be positive, and the terms are easy.

CORONER'S INQUEST.—Yesterday morning ab daybreak a raisin box was discovered on the side-walk of Calhoun street, near Pitt, containing the body of an infant about ten or twelve days old. The child was dressed in fine clothes, but was so discolored that the color was doubtful. Coroner Whitting, on being notified, promptly empannelled a jury, who returned a verdict of death from

tisement, in our issue of to-day, of the ...-opening of an old drug store. Mr. E. S. NEAR ancounces that he has opened at his father's old stand, and that he will be pleased to see his friends and the public. His father was well known as have ing done business at the present place for upwards of twenty-five years, and we trust the so

THE BOSTON TRADE.—The steamship Geo. B. Upton, Captain Chowell, arrived last night from Boston, after the admirable run of ninety hours from wharf to wharf. This ship is growing rapidly in the public favor—both in consequence of her excellent sea-going qualities and the efficiency of her officers. She brings a full freight consigned to merchants here and the interior, and her enter-prising agent, Mr. A. J. Salikas, is working with success to increase the rapidly growing trade between Boston and this point. The Geo B. Upton was built by Donald McKay, who, our know, is without a superior as a ship

RECOVERY OF STOLEN PROPERTY. - Some weeks ago a raid was made upon certain hou Aiken's Row and the force pumps carried off. The detectives were notified of the seizure, and went to work with their usual alacrity to trace th thieves. In this, as in nearly every instance, they were successful, and Officer Levy found the remnants of the pump in a junk shop. The keeper gave the names of the freedman from whom he gave the names of the freedman from whom he had purchased the copper, and they were soon secured and lodged in jail. The pump was so battered and broken that its identity was nearly destroyed, and was bought as old copper. Thefts of this description will become more frequent if the thieves can always find such ready disposal of their villainous profits as the junk shops afford. These shops are a central nuisance, and are connected shops are a general nuisance, and are connected indirectly with nearly every robbery of metals the

Maron's Count, March 6 .- Kit Butler, a wideawake darkey, who was detected in purloining greenbacks from the back shelf of a store, by the process of reaching them with a stick with tar cn the end, was sent to a magistrate, who will cause him for a while to tarry in jail. Abby Smith, a young female of color, who had

stolon clothes from a lady, was ordered to be closed up for 10 days.

Two individuals, who had been very drunk, but

quite orderly, showing that they had partaken of only 'pure Nectar," were fined \$2 each, as an evi-dence of the appreciation of their excellent beha-

Joseph Miles a black how who had committed the following offence of stealing newspapers, was discharged, as the civil law records no punishment commensurate with this awful crime, and the authority of the commensurate with this awful crime, and the authority of the commensurate with this awful crime, and the authority of the commensurate with this awful crime, and the authority of the commensurate with this awful crime, and the authority of the commensurate with this awful crime, and the authority of the commensurate with Libertities must consequently wait until an edict is pronounced by the forthcoming military tribunal.

JAMES A. DUNCAN, of Virginia, is expected to arrive in this city to-morrow. Although a stranger in Charleston, he is well known to many of our zens, especially to such as spent any time in Richmond during the war. Mr. Dungan, all t Churches in that city, and also the editor of the Richmond Christian Advocate. He was, perhaps, the most popular preacher in Richmond, and his church (Broad street Methodist, afterwards Centenary) was always crowded. He is a man or presence, good address, remarkably fine mental endowments, and very superior cultivation. No wonder, therefore, that he is fore the Young Men's Christian Association at the Citadel Square Baptist Church.

Mr. Duncan is not unknown in the upper part of South Carolina, having delivered addresses, etc., at different times, if we are not mistaken, at Spartanburg, where his father is Professor of Ancient Languages of Wofford College.

SPRING GOODS.—A life without some excitement would not be worth having, and the calm retreats of philosophy are only read about. In the present age some little excitement is necessary to keep the system in a healthy state, and, with few excep-tions, shopping answers this purpose admirably. King street is the grand thoroughfare where those who wish to see the fashions and examine the latest styles congregate. The fair sex are there largely in the majority, and their demands for articles with unpronouncable names would puzzle any one but an experienced clerk.

There is perhaps no place on King street where there is a greater variety of goods, and where the latest patterns can be seen to better advantage, than at Mr. James B. Retts', No. 252. The store is large, light and airy, and the stock unquestion ably of the newest styles of Spring goods. An evidence of this is the crowds who daily attend to select articles for Spring wear. Mr. Berrs has had a large experience in the dry goods business, and his stock is one of the most perfect in the city, and those who have delayed making their Spring purchases should do so no longer, but call at No. 252 and be supplied.

DB. LORD'S LEGUERS.—The lecture which was postponed from last Monday night, will be positively delivered this evening, at St. Stephen's Chapel. Dr. Lord's reputation as a pulpit orator is so extended that a large andience is confidently expected. The subject chosen is one of great interest, Bunyan's Pigrim being almost a household companion, and any defence of his character will be listened to with marked attention.

It is rare that man like Bonyan, who have relead

It is rare that men like Burran, who have raised It is are that men like BONIAN, who have raised themselves by their own exertions, escape the sianders of their cotemporaries, but in every instance these fall harmlessly to the ground like the dirt thrown on Christian's robe. A comparison between "the tinker poet and the poet tinker" can

but result in proving the superiority of the former, although his antagonist may be more gifted.

Dr. Lonn is admirably suited to discuss these points, and perhaps no one could have been select-ed who would be able to give the subject such a bearing as to make it both interesting and instruc-tive. Lectures of this description are unfortunate-ly too rare in this city, and should be attended whenever an opportunity offers. St. Stephen's Chapel is in a contral location, and with Dr. Lond as the orator, the Pilgrim as the subject, and Charity as the object, a full attendance is almost a natural consequence, and all who have either the time or means at their disposal, and who have any taste for literary subjects, will lose a rare treat by absention the real-rese

enting themselves. ALLEN & NEEDLES' AMMONIATED FESTILIZES Among the number of fertilizers presented to agriculturists in the past few years those of a concentrated character have been the most highly esteemed. Messrs. Allen & Needings, the manufacturing of the second se facturers of the ammoniated fertilizer, have applied this principle extensively to their works, and the result is a manure combining all of the invigorating qualities so needed by an impoverished earth. The factory for these manures is in Philadelphia, and the Commercial, in speaking of it, says: "Among the most extensive works in the country for the manufacture of "Super-Phosphate of Isme" and

THE BALL NEWS. "Artilizer," are those of Messrs. Allen & NEEDLES, ply, said, that the mention of our home always loated on Richmond street, and extending an encilons which it is not easy to express; the square through to I beach street, below Plum, but they are associated this evening with matters. daving a storage capacity of over twenty thousand tons! Their Super-Phosphate of Lime is manufactured from the best Nevassa guane, of which they consumed last year twe've entire cargos, averaging from 450 to 800 tons each. This guano, or "Apetite," as it is known by chemists, when reis first ground to a fine powder by a powerful mill, then treated with sulphuric acid and ammonia. then treated with sulphuric acid and ammonia, after which it is again ground to dust, and then packed in bags and barrels preparatory to use. When we state that over a half million of bags and barrels are turned out annually by the establishments around our city, some idea may be formed of the extent of this immense business."

It is the best word to convey the idea intended. He concluded by giving—
"Our sister charitable associations throughout our country, illustrated by our New York friends, who have come among us in the bonds of love and good f.llowship, to acids those who we know are crippled and stand in need of their assistance."

Mr. NATHAN, the Chief, next gave a toast:

"The City of Collymbia Phonoir-like above will

of the extent of this immense business."

At this season of the year the successful farmer

always prepares his land for early and large crops by a liberal application of stimulating manures. There is none perhaps that is of greater efficacy than the ammoniating fertilizer, and all who have any desire to improve their lands would act wisely in purchasing a supply. Messrs. RAVENEL & MAGBETH, corner of East Bay and Exchange streets, are the agents for this fertilizer, and let-ters or orders addressed to them will be speedily

OUR FIREMEN GUESTS .- Early yesterday morning the disastrous tidings were received of the burning of the Andatusia, and the loss of both boat and cargo. Aside from the mournful intelligence of the loss of valued lives, the object of the mission was frustrated by the destruction of the hose reel intended as a present to the Independent Fire Company of Columbia. Although this mishal is irreparable for the present of the property of the present of the is irreparable for the present, it was not sufficed to interfere with the proposed programme, and the guests were treated with the same courtesy and attention that would have been offered them under

At 111 A. M. the Committee met at the corner of Wentworth and Meeting streets, and arranged the disposition of the day. At 12 M, the carriages were driven in front of the Charleston Hotel, and the Committee, with their guests, were ' en to the City Hall, where they were severally introduc ent Fire Companies were present, and united with the Committee in tendering a welcome to their visitors. The reception took place in the Mayor's Office, and as the guests entered the room they were each introduced to the Mayor by Mr. Na THAN. When this ceremony was performed and the guests had seated themselves, the Mayor welcomed taem in a short but cordial speech, express-ing his sympathy with their calling and mission, and regret that the result was frustrated. He said:

Gentlemen: I welcome you with pleasure to the city of Charleston; and although I regret the sad occurrence that has prevented you from making the present which you intended, I am glad that it has not been of such a nature as to interrupt the hospitable festivities in which it is our pleasure to indulge on this rare occasion.

Mr. Wnson, the President of the New York Fire Mr. Wh.son, the President of the New York Fire Association, in response said:

In behalf of the New York Volunteer Firemen's Association, I thank you very much for the cordial reception, so much beyond our expectations, which you have accorded us. We are but a few simple remen, on a mission to our brother firemen of Colimbia, to show them a little attention in testimony of our admiration and brotherly tore. We had, however, a higher and nobler object than the mere presentation of a testimonial. It was to extend to them and to you the right hand of fellowship and fraternal regard. I hope that in the future we shall be able to give them even a more substantial ovidence of our love from our brother firemen and fellow-countrymen than if our present intention had been carried out. Allow me, again, to tender you our insufficient but sincere thanks for the grateful welcome which we have received.

The company then adjourned to the Council Chamber and examined the different paintings and decorations, but a tray with goblets soon drew decorations, but a tray with gobles soon drew their attention to spiritual subjects, and the pop-ping of champagne cocks almost dryward the sound of conversation. The opening tost was given by the Mayor, who offered as his sonti-

"Firemen-whether from North or South-Fremen."
Mr. Turren, President of the Vigilant, in response said that, as one of the oldest firemen pres-

ent; he could with propriety answer and reiterate the Mayor's toast with the additional words—"and

Mr. Partesson gave—
"The present bonds of union between the North and South—may they never be disunited."

on The Recuetary of the New York Fire Associa Mr. Wright blanked the Charleston firemen for the grateful manner of their reception and the kind treatment they had met with, and assured them of a good report at their Northern homes. Mr. Hillion called on the representative of the New York press, Mr. Evenerr, who thanked him for the compliment, and hoped that the bonds now uniting New York, Charleston and Columbia.

would never be severed.

Mr. Durred proposed, as a closing sentiment— The unity of the firemen of America—A new feature in a new country, which has established so bond of brotherhood never to be again broken.

On leaving the Council Chamber the visitors On leaving the Connect Charleston and Spinose proceeded to the residence of Mr. M. H. NATRAN, the Chief of the Charleston Fire Department, where a generous collation had been prepared, and

the feast of reason and the flow of soul." the favorite of young and old at every place where his ministrations may call him. We are glad that Mr. Chapin, the indefaugable President of the friends gathered in one of the parlors of the Charlest on Hotel wh on Mr. Duncan to spend some time with us. He beguiled the hours till dinuer was announced, is expected to prach in Trinity Church on Sunday when the assembled company marched to the elementary and on Sunday night to deliver a gant dining hall on the first floor, to the music of

Mr. MULLEA'S powerful band, which discoursed vigorously during the entire evening.

We had heard that the extras destined for this dinner had been purchased at New York, and gone down in the unfortunate Anadusia, and we were prepared therefore to see an ordinary banquet uch as Messrs White & Mixen are in the daily habit of setting before their guests—(not so very ordinary either, as those of us know who have cul-tivated the acquaintance of the harleston cuisine)—

but we were disappointed; the dinner was by no means of an ordinary character.

The bill of fare was in overy respect all that could have been rished in substantials and delicacies, in fish, fiesh and fowl,—in boiled, reast, entrees and game,—in ice cream and all the other etceteras; in the useful and the ornamental. The pyramids were grand, and the engines, hose car-riage and firemen, all made of confectionery, did credit to the cunning artificer who devised them.

The wines were excellent, as indeed they always are at the Charleston; and the company did ample institute or mean and display.

are at the Charlescon; and the company the ample justice to meat and drink.

After this part of the performance had been concluded, the Chairman of the evening, R. S. DURKEA, a great fireman, arose, and, with appro-priate prefatory remarks, offered the first regular

toast:

"The Volunteer Firemen's Association of New York—The true exponents of the spirit of the American Fireman, and our guests, their Committee, a body of gentlemen who well represent and sustain the spirit and character of Firemen." Replied to by Mr. Wilson, of New York, who ex-pressed the thanks of himself, and colleagues for the handsome and cordial manner in which they had been received and entertained by their Charleston friends. He said that, although an in-scrutable Providence had prevented their carrying out the intention of their visit, yet the destruc-tion of the Andatusia, after all, could affect them-but little. The memory of this visit would still live, and could never pass into oblivion; and that this episode would ever be remembered as among the most pleasing in their lives.

But, before we proceed in our report of toaste and speeches, we must say something about the guests. A fortunate accident brought Mr. Jour E. Grezker, Clerk of the New York Board of Comcilmen, and Mr. CHARLES KOSTER, a New York ex-Councilman, to our city at this time, and they were invited to be present, and were introduced to the company. His Honor the Mayor, and five or six Aldérmen, were among the distinguished six Aldermen, were among the distinguished guests; also, the Presidents of all the Engine Comguests; and the residents of an anomalous panies of the circ. Owing to some misunder-standing the delegation expected from Columbia did not reach charleston in time for the dinner. which, of course, was a diss pointment to all. The entire delegation from New York were present, and, to all appearances, enjoyed themselves very

Mr. S. Y. Tupper, in his usual happy and brilliant, but entirely unreportable style, spoke next, and gave the following sentiment:

"The City of New York. The metropolis of America—the pulsations of its mighty heart is fels throughout the extent of our wide spread country."
Responded to by Mr. LAKD, of New York, who modestly remarked that he was no speech-maker, but that he would drink to the health and pros-

perity of the City of Charleston.

Mr. Hiller, who occupied the and of the table opposite the Chair, offered the next toast:

"The City of Charleston—Always the friend and protector of the firemen, from whatever source they may come?"

The Chair offered as the next regular toast:

"The Mayor of the City of Charleston."

Lyck i show

Which was loudly cheered. The Mayor, in re-

but they are associated this evening with matters of less immediate concern to ourselves. We have met this evening to welcome those who have come amongst us on a mission of charity; charity in its fullest sense; not in its ordinary and merely pecu-niary meaning, but that charity of feeling which always meets with a hearty welcome. I know t meaning of the word is usually confined to the o sense, and for that reason it is often omitted when it is the best word to convey the idea intended.

\* "The City of Columbia—Phomix-like, she will rise from her ashes, and, aided by kind friends, may she soon again bloom as the Gardon City of the Sorth."

Responded to by Alderman E. W. MARSHALL who, in a most feeling manner, spoke of Columbia the place of his birth and the home of his child ood, around whose hearthstones though over thrown and devastated, still clung the fondest re-collections of the past—his heart's holiest affec-tions. He closed by giving the following toast: "The New York Firemen-Brothers

Mr. Sweegan gave the next regular toast: "The Volunteer Firemen of America—Actuated by motives of benevolence and philanthropy hey repudiate the consideration of recompense or the dictates of mercy and humanity."

Responded to by Mr. EVERETT, of New York. B. S. DURYEA, Esq., then offered the 6th and ist regular toast :

iast regular toast:

"Our Country—Our common country, and the
Constitution of our patriot fathers, the emanation
of pure patriotism, cemented by the blood of the
mark; so of the Revolution; though assailed by
faction and shaken by civil war, it must ever survive
in the learnt so fall true American citizens."

in the hearts of all true American citizens."
Responded to by Mr. Burst, of the Stonewall
Fire Engine Company of Charleston, in a very eloquent manner, who, in conclusion, gave:
"The Constitution of our Fathers. When the
voice of such men as our honored quests become
impotent in the conneils of our country, may God
protect and defend it."

The next teach the Research

The next toast was to the Press, which was inswered to by Captain Dawson, of the Mercury, who made the most telling speech of the evening.

Ten o'clock having arrived, the hour when it is
all important for reporters to be at "the office,"
and commence writing out their notes, this deponent left; sorry to part from so goodly a crowd, so pleasant a company. The doors were hospita-bly barred, and it was by no means easy to gain ogress at so early at hour.

On the whole we are glad we assisted at this Firemen's Pestival, where all passed off pleasantly, and politics was not so much as named.

A word of consolation to all who suffer from disease of the Lungs. Marspen's Pectoral Balm has been tried in nearly a million cases always giving relief, and in the majority of in-stances effecting a cure. As each bottle is accom-panied with a guarantee, sufferers may rest assured of the results. For sale by all druggists.

A New York Farmer, of practical experience in vineyard culture, will engage in the business with a party
having the necessary capital, with an ulterior view to
the manufacture of wine. The capital required may be
graduated to correspond with the extent to which it
would be advisable to go, and used at intervals. If the
business be conducted with due regard to the conditions
essential to success, it will pay soon and well.

The disorganization of labor demands a change in
agricultural pursuits, and probably in no direction does
if point with better prospects thin it wine growing.
Grape culture in the Northern States is attended with so
much uncertainty, in consequence of the severe winters, that it is yet doubital if it can be made an interest
of any considerable importance beyond speculating on

tors, that it is yet doubtful if it can be made an interest of any considerable importance beyond speculating in hardy varieties. In the light of this experience, South Carolina may estize the prize, as some compensation for the wrongs inflicted on her by fanatician in the cause of a false humanity. In the change demanded, the upland planters or iarmers will find grape outture a substitute for that chief steple, which, requires but triffing labor, and, vasity more profitable. This is no patent way to get rich, nor yet is it a temptation to speculate in illusions with a promise of fabulous results; but as the "early bird catchies the worm," so the first to enter this unbounded field of labor will be the first to participate with justice in the largest measure of whatever is valuable in the legitimate pursuits of life.

Inquiries, may be made to the Editors of this paper, and to Birthard Dalidi "carries" of John W. CALDWELL, No. 68 Beaver street, New York.

BAUGH'S

RAW-BONE PHOSPHATE

200 TONS DAILY EXPECTED.

AGO TONS DAILT EXPECTED.

AS THE AGENT FOR THE ABOVE MANUEL I

A last year shiftled to Prote seer therpart, of the
South Carolina Medical College, a sample for analysis,
and, with his administrant, recommanded it for my planing friends. I am now pleased to say that their practical
experience fully confirms the Protesact's opinion, of its
value as a manuel.

This best evidence that the results of its une- on colton isst year ware axisfactory lies in the fact that those
who then used it are this year buying it again, and in increased amounts.

A cargo of BAUGHTS RAW-BONE PHORPHATE is now
in trinsit for this port, and, in conformity with my unform rule, it will be sampled and analyzed by Protessor
Shepard upon arrival. The manufacturers have, however, placed in my hands an analyzed to eago, made
by Protessor Williams of Falladeights, which shows the
standard of the KANUER to be fully up to that of lag;
season.

The following is the remoted of Lendessor Williams, we

The following is the report of Professor Williams, referred to above:
