SPRING. BY MRS. C. A. BALL.

Gloomy Winter has past and gone,
And Spring with gladsome face
Is putting her robes of beauty on,
And cheering the hearts of the sad and worn, We hear her voice in the balmy breeze.

In the wild birds gleeful song; We see her smile in the budding trees, In the housed flowers where sports the bees, In the streams as they glide along. We hear her step on the carpet green Which she spreads in her onward way;
And the daisies spring up to greet theh queen,
And the snowdrops on every side are seen,
And the butterflies round us play.

All nature is glowing with joy and pride,
In the light of her beaming glance;
While she scatters her blessings far and wide,
From the lowly vale to green hill-side,
And where flashing waters dance.

Sad eyes grow bright 'neath her sunny smile, Bowed spirits forget their pain, For she tells a tale which may well beguile, The mourning heart from its grief awhile, That the dead shall live again. And that hope's bright flowers which withered

lie
On many a broken shrine,
Shall bud again 'neath a fairer sky,
And blossom in beauty no more to die,
Where Heaven's own sunbeams shine.

A mantle of glory o'er earth she flings,
Dispersing each cloud of gloom,
We hall thee Spring with thy precious things,
With the glorious hope which thy presen
brings
Of a lie beyond the tomb. CHARLESTON, April 12th, 1867.

Mr. Davis. A Fortress Monroe dispatch, dated April 6th, contains the following:

Prof. Thomas Chenoweth, of Baltimore, has been giving lessons in painting to Mr. Davis, and his sister-in-law, Miss Howell, in Fortress Monroc. his sister-in-law, Miss Howell, in Fortress Monroc.
During the progress of his lessons Professor Chenoweth had an excellent opportunity of conversing with the ex-President. In the conversations Mr.
Davis remarked that he had no reason for complaint in what appeared to be the unjustly strict measures adopted by the Government to prevent his escape from confinement, and that he entertained towards the officers of the fort the kindest tealings of respect. They had ever been ready and teelings of respect. They had ever been ready and willing to promote his comfort, and had always exhibited due sympathy and esteem for him-

way exhibited due sympathy and esteem for him-self and family.

He spoke of Baltimore, and felt deeply obliged to many of her citizens for favors and assistance which he had received from them at various times. Baltimoreans had acted nobly during the war, and in them he reposed the mest implicit confidence. As to his trial, he expressed no opinion; he was in the hands of the Government, and patiently await-ed that decision which would either place him in release or before the court of justice.

ed that decision which would either place him in release or before the court of justice.

His continued imprisonment he characterized as unjust, and brutal, and a stain on the Northern Government, in thus singling out from so many others equally as guilty, a man who, by the will of the Southern people, had been elected to the chief office of the Confederacy. The Connecticut election was one, he said, which that State could well be proud of, as it appeared to him to be the turning point in that political struggle which was causing so much suffering in the land. It would have a great effect or the political balance of power and on succeeding elections; its influence would doubtless be energetically exercised and proportionately perceived. perceived. He appeared in good spirits and health, and

He appeared in good spirits and health, and evinced a keen perception and interest in Professor Chenoweth's instructions and improvements in oil and water color painting. Mr. Davis conversed on various other topics, and showed a perfect acquaintance with all the great questions which are agitating the different portions of the globe. Although he considered the immediate prospects of his release or trial not definitely settled, yet he was not without hope that his counsel would be able to force the Government to use definite measures when the next term of the District Court was held in May. This is the subject of the conversation which occurred, and which the Professor related to friends after his instructions to Mr. Davis had been completed.

THE MISSISSIPPI APPEAL TO THE SUPREME COURT. The New York Times of yesterday says in reference to this case:

The point raised before the Supreme Court involves all that has been done since the surrender of Lee's army. Messrs. Sharkey and Walker ffirm in substance that the whole of it is unconstitutional, since both the Executive and Congress, by their respective proceedings, have imposed tests and exacted conditions at variance with the Southern theory of State rights. It is hardly necessary to say that the question is political, not legal. It is a question of national policy, not of judicial interpretation. It is a question which the country took into its own hands when it commenced the war to put down disunion, and which it will refuse to surrender, though Sharkey and al since both the Executive and Congress menced the war to put down distinuon, and which it will refuse to surrender, though Sharkey and Walker argue never so acutely. Having vanquished the rebel armies, and crushed the physical elements of rebellion, the people are not prepared to leave the advantages of their triumph contingent upon the chances of a forensic contest. We have no apprehension that the Supreme Court will give aid or countenance to the affair. But whether in this case an injunction be granted or refused, the final determination of the status of the South will continue to rest with Congress.

Ladies have taken to ask for admissions to the sittings at Paris; and in the zalleries may now be seen many elegantly dressed female politicians.

THE CHARLESTON MARKET. FOR THE WEEK ENDING THURSDAY, APRIL 11, 1867. COTTON.-The staple here continues its downward tendency under the declining condition of the Liverpool market, prices having fallen about one cent per pound during the week, Middling Cotton opening at 27c per lb and closing at 26c per lb. Cotton has been very limited since our last week's report, and the market has been flat, with a declining tendency. Factors, to make sales, are compelled to transact business at a decline. New Orleans, April: 6.—Corron—Another day of inactivity, occasioned principally by the increased depreciation reported at New-York and Liverpool, to which may be superadded the downward movement in gold and exchange. The offerings were limited throughout, most factors still refusing to uncover their tables, and those, who offered, being indisposed to submit to the heavy reduction confended for by-abuyers, the latter generally withdrew in the hope of being able to execute their orders on more advantageous terms next week. Hence the day's sales were unusually light, footing up at the close barely 1600 bales, six, blokers participating in the business. Prices exhibited further weakness; most of the limited business transacted being at figures a fraction below yesteriay's rates, the market closing too unsattled to admit of regular quotations, which are accordingly omitted. LIVER COMPLAINT AND DYSPEPSIA.

It is estimated that seven-tentils of all adult allments proceed from a descared and torpid liver. The billary secretions of the liver overflowing into the stomach poison the satire system and exhibit the above aymptoma.

After long research, we are able to present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Platration Brittens, and not an instance of complaint has some to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The reports that it relies upon interal substances for its active properties, are wholly false. For the satisfaction of the public, and that patients may consult their physicians, we append a list of its components.

LIBAYA BARK.—Celebrated for over two hundred years in the treatment of Fever and Ague; Dyspepsia, Weakness, etc. It was introduced into Europe by the Countess, wife of the Vicercy of Peru, in 1640, and afterwards sold by the Jesuits for the enormous price of its own weight is silver, under the name of Jesuit's Powders, and was finally made public by Louis XVI, Ring of France. Humboldt makes especial reference to its febrifage qualities during his South American travela. CASCABLIAB BARK—For discribes, colic and diseases of the stomach and bowels.

DANDELION—For inflammation of the loins and dropical affections.

CHANOMILE FLOWERS For enfeebled digestion. LAVENDER FLOWERS—Aromatic, stimulant and tonic-highly invigorating in nervous debility. WINTERGREEN—For scrofuls, rheumatism, etc. ARISE—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also, clove-buds, orango, carraway, coriander, spake-

PHILADELPHIA, November 15, 1885.

I have been for a year or more past in the habitof taking the water of the "Excelsior" Spring of Saratoga. Accustomed during the great portion of my invalid life to use the different waters of the several fountains which boil up along that remarkable valley, dependent, sideed, upon them for much of the comfort I enjoy, I am satisfied that the Excelsion Water is as well adapted as any other among them, if not more so, to the purposes for which they are generally employed. It is very agreeable, strongly impregnated with the carbonic soid, Taley and sparking.

* * I can heartily and consciouslously recommend it to all who need a gentle cathacter and diurctic.
