right side and then on the left.

Two mammoth tape worms, one 100 feet and another 75 feet in length, were taken from the person of Mrs. CATHARINE ROUAL, in South Troy New York, on Tuesday, by Drs. Lyon and STEARNS. In the absence of mails, a California paper got up an article on "the six days of creation," and the editor of a Salt Lake sheet wrote a leader on

"Southing Syrup."

The choice of black for clergymen originated with LUTHER, who, when he abandoned the dress of a monk, took what the elector of SAXONY pre-

sented him, black cloth, or the court color.

The increase of the area under cotton cultivation in the Bombay (India) presidency is about 270,000 acres, representing increased export to the value of \$5,000,000. London has nearly 8300 posicemen, divided into

eighteen divisions. A strong standing army—ready for service night or day. The expense of the department is \$3,500,000 a year. The damage to the Knoxville and Charleston Railroad by the recent floods is estimated at \$200, 000. A bridge at Bridgeport, Tenn., has been re-

built, costing \$100,000. President Johnson has ordered the return to New Orleans of the status of Washington which was taken from the Capitel at Baton Rouge in

1862, and shipped to Washington City.

That wonderful starvation case in Dayton has come to a very lame and impotent conclusion. The spirits" suddenly cut Mr. Brown's acquaintance and he has kone to eating again.

Senor Romeno has received official reports from General Benavides, commander of the Liberal forces besieging Vera Cruz, and from General Pozzielo Diaz. The reports fully corroborate the intelligence previously received of the defeat of the Imperialist General Marquez. A Mr. Browning in the Massachusetts Legislature, a member from Lee, opposed an appropriation to the Agassiz Museum as being of no "practical use to the people." Mr. B. declared he was down on a great institution for the preservation of pickled snakes, and periwinkles, and dead fish and such trash, and the old fossiis who want to keep their snakes, and fishes, and rubbish, should pay for the keeping of them out of their own pockets.

A remarkable case of windling took place. A remarkable case of swindling took place in Sidney Bar, C. B., a short time since. A man named HARBY JAMES CLEAVELAND claimed to have received a telegraphic despatch announcing that he had fallon heir to property valued at £2500 a year. He exhibited the dispatch to several merdiants, it was thought to be gennine, and they trusted him to a large amount. He tried the same game in Halitax, but was detected, and is now in constoly.

A strong story of coincidences is told by an English paper—that at Liverpool two women in different localities, each carrying a grandchild down a stairway, stambled and fell. In each instance the child was uninjured, but the worran died the same evening. The name of each woman was Eliza-bern Flexuno. We should re-ber be excused from believing the whole of that story. We are willing to admit that the two women fell down stairs.

A Yorkshireman has just been sontenced to a year's imprisonment, in England, for their. For the last twenty-three years he has supported him-self by the manufacture of spurious fossils, Ro-man remains, coins, fint instruments, and other forged relics of the Roman and ancient British pe-riods, with which he has deceived many of the most eminent antiquarians of the kingdom. In 1859, having been detected by Professor TENNART, he was induced to exhibit before various learned societies his method of manufacturing spurious year's imprisonment, in England, for theft. For

SUFFERING IN SOUTH CAROLINA.

The New York Herald of the 4th, publishes communication from Governor Our, accompanied by abstracts of letters addressed to Rev WM. MARTIN, of Columbia, who had issued circulars, calling for information in regard to the extent of the destitution prevailing in different parts of the State. These abstracts, which we publish this morning, tell a tale of wide-spread and all but hopeless destitution, such as the world has not heard of since the famine in Ireand twenty years ago. The appeal which is made to the humanity

of the country by this mere statement, is generously and heartily endorsed by the Herald. But while we acknowledge the kindness with which this has been done, and recognize the relief which in many instances has been afforded by the exercise of Northern charity, there is a truth contained in this statement which we would impress upon our Northern friends. That truth is that this destitution and suffering is the direct result of the political agitation of the last two years.

When the war closed throughout the South, there was universal preparation to go to work, and if one half of the land that could have been planted had been cultivated, if one half of the energy which could have been exercised had been employed, there would have been but comparatively little destitution, and no where any possibility of starvation.

What prevented it? The unnecessary and mischievous agitation in Congress, or if it is a Quakers, and they have never changed, but kept fairer statement, the unfortunate difference be on in the old way.

Some time ago, \$18,000 in notes of the Fincastle South wanted was capital—capital to buy mules, tween Congress and the Executive. What the to supply provisions, to pay the wages of freedmen, who had nothing but those wages to de-pend upon. There was ample security for such capital, and for large and sure returns of in-Kansas on the question of Woman's Rights. It is believed that the propositions to strike out from have come but for the constant threats of conthe Constitution the words white and male will fiscation and the uncertain political status of fiscation and the uncertain political status of the States in which such capital was needed, What wise men, seeing the influence of Mr. STEVENS, and listening to declarations of coming vengeance, "a little mild confiscation pun ishment first, and then quiet," would have ventured his capital in property which might be

A young man went to a Cathonic course in Sea Louis with two acquaintances whom he had fallen in with, and, as he was devoutly worshipping on his knees, they seized him by the nack, half choked him, and stole his pocket book. While he if the Democratic party had resolved that no if the Democratic party had resolved that no seaming the labor: that freedman should be permitted to labor; that the whole of the present generation were to be secured in the employment of a perpetual holiday.

And in this State the monstrous iniquity of the confiscation of the Sea Island lands demolished labor through one of the richest and most productive sections of the State, while inducements, the most delusive but the most attractive, were offered in other sections to persuade the laborers to emigrate.

And both of these are still at work. Violent and extreme men are still threatening confiscation, and even such a Democrat as Mr. Brooks shows his love for the South by the declaration that he would sooner trust capital in Hayti

Yale College is opulently rich, and the faculty are making the most of the money to raise it to the highest standard of excellence. They have for building purposes fifteen hundred thousand dolsurest way is to put an end to the political agitation which is consequent upon the unsettled status of the South, and to discourage and contradict the thousand wild and wicked rumors with which the Northern press teems, that per sons and capital seeking employment in the South run unusual risks. The truth is just the reverse, and, much as we have suffered Mr. Stevens' speeches and Mr. Stevens' pelicy, by creating and fostering this distrust, have deprived Northern capitalists of more certain and larger profits than have been offered to in vestments for many years in this country.

THE SITUATION IN CENTRAL AND SOUTH AMERICA.

The Panama correspondent of the New York Herald states that Isthmus politics remain in statu quo. The reports which Admiral Dank onen had heard of the difficulties along the coast were exaggerated, and his orders to Captain Paulding, of the Wateree, to make all haste in reaching Panams, as well as the daily drill of the crew, proved to be superfluous. On her arrival the Wateree found no pretext for an attack upon the city; but her presence had the effect of renewing the feeling of security which the American residents have not enjoyed since the departure of the Jamestown. According to the latest dates from Central America peac has been thoroughly re-established in the discontented States of Guatemala, and Cauz, the rebellious leader, has been exiled. The Costs Rican Congress was to be convened early in May, and certain amendments to the Constitution were to be discussed. The contradictory reports from Peru rendered it difficult to judge of the actual state of that country-some de claring it serencly quiet; others describing it as agitated by uprisings and revolutionary excite-ment. In Lima the teleration measure was defeated in Congress by a vote of 48 to 40, bu a proposition is still under discussion about reducing the Church property by one half in that city. On the 11th ult. a meeting called by the priests in the public square, in front of the hall where Congress meets, led to a row, in which paving stones were used as knock-down argunents. The police were summoned in force, and a company of cavalry was ordered out to end the row. This was accomplished after sharp little fight, in which many were wound ed, but only one was killed. Several priests

The new ten million loan, negotiated by Chile in England for carrying on the war, has been arranged just in time to pay pressing debts and to continue the war. The news from MENDOZA is unimportant. The Argentine and revolutionary forces remain inactive, and the only details we receive attest outrages on the
