CHARLESTON.

TUESDAY MORNING, MAY 28, 1867.

Jon Wonk .- We have now completed our ffice so as to execute, in the shortest possible ime, ALL KINDS OF JOB WORK, and we nost respectfully ask the patronage of our

NORTHERN MISREPRESENTATION.

It would be very idle to attempt a correct of the thousand and one rumors that general and special correspondents furnish the Radical oress. It is the trade of these men to write letters that will be read, and fike other equivcal professions which are tolerated in great cities, if they must be permitted "to ply their vocation," it is very foolish to be virtuously adignant at the vicious perfection which the professors attain. Mr. GRELEY is, indeed, a hilosopher, but he is also the editor of a New ork newspaper, and we suppose he thinks h strikes a fair balance by natitaining his indi-vidual character by his personal speeches and cts, while he secures the profit of his news columns by a judicious investment in sensa tional correspondence. We would not, there ore, give particular consideration to a letter dated Charleston, which appeared in the Tri une of the 23d, were it not that this letter cems to be part of a general system adopted not only by the Radical, but by the Democratic press-a system which consists in a studi isrepresentation of the conduct of the mill tary administration of this District. Now, We have no love for military government. If asked why, we can only say we were born free and, God willing, we would rather die so. But, then a military government is created over us we not only intend to render under Owsen th things which are CEBAR's, but we think it right o recognize the wisdom and justice with which that government is administered whenever it is administered; and we protest against this outside interference which, on the part of b Democrats and Radicals, has not the slightes reference to our good, but is meant to terry

party purposes. The Democratic press abuses General St LES, without the slightest reference to the practical character of his orders, but because wants " a cry," to rally the Democracy, and resistance to military authority, "a mild' riot, a few insignificant lives lost, a moderate shedding of blood, would furnish material fo clever paragraph, a flourish about the Constitution, and, perhaps, secure the election of a doubtful member of Congress, or a war-Demcratic Governor in some Northern State. The Radical press does the same thing use military rule is quite too practical ant quite too impartial for the procelyting spirit of the Republicans. They want agitation for gilation's sake; they want excitement at The letter to which we have referred is very good specimen of this latter sort of

The writer has travelled through the State and he has not found the agitation, the anagonism he desired. Black and white alike com to be minding their own business. Plant ters and laborers alike seem to be thinking nore of their crops than of universal suffrag and what is worse still, the Military Govern ment seems to have been trying in carnest to comprehend the real condition of the State ad to adopt its action to better it. Of course omes rather an easy: matter. I Therefore. have the following paragraph:

"I wish it were in my power to give "as "avorable an account of the other portion of the military administration." Gen. Sickies desires, undoubted by, to do right. One difficulty with him seems to be that he is anxious to stand well with the Governor and the whites generally. He like a social position, which is only thus attained. The other position, which is only thus attained. If no other and subordinate officers very, generally "put, on airs"—they rather ignore the colored 'troops and their officers' and units in content, not silent by any means, for the negroest affecting the regulars, "rank and file," many sols of cruelty and oppression, are constantly, perpetrated. Wherever they can or dare they maltrest and abuse the freehem. Several instances of this feeling have come under my own observation since I have been here." And this followed by a collection of marvellous rumors and the statement, that according to Gen. Scorr, there are 500 murderers of freedmen at large in the State "unwhip of uatica.", Of course nobody here believes that Gen. Scorr is responsible for any ridiculous exaggeration, the conclusive reply being, that for a long period, during the abi sence of Gen. Sickles, Gen. Scorr was no only Commissioner of the Bureau, but Commander of the District, and that he is not the man to permit any such violation of justice within the sphere of his authority.

The whole object of the letter is to pro he impression at the North, that the Military Government is entirely in too perfect a sym-pathy with the white population, and that the reedmen look for protection to the Burean alone, and especially to "Chaplain Fazzon, the shrewdest and most sagacious planner that the freedmen have ever had on their side." Indeed the writer says, "the best" instrumentall ty in aid of reconstruction is found in the reedman's Bureau."

Now of General Scott we have nothing to say which is not kind. In all that we have en of him, we think we have evidence of a desire to do right, and indeed it is difficult not to exaggerate his merits, when we compare him with his predecessor General Saxton, whose career was one of unmitigated mischief In fact to him and to Judgo Brisnans, that head of the Tax Commission, may fairly be credited whatever demoralization and confusion has gojurred in the labor of the State, and it is a infinite credit to our colored population, that with such perverse encour gement to do wrong, bey have behaved so well. But the Freedmen's Bureau, ss. a piece of administrative machinery is an utter failure. The only way. in which it could have worked judiciously, was as a part of the military administration and the only reason that it has not worked more mischief here than it has done is because pracically it has been subordinated to the milita-

y command of the District trage mainter Of the Rev. Chaplain PRENCH we wish to say no harm. We have no doubt that he carns his salary by diligent prayer, and we know that the earnest prayer of a righteous man avail-eth much. Indeed we have no doubt that the prays as "shrewdly!" as he plans, for the exhortations of the Rev. Gentleman have charged latterly very much for the botter. In the days when he lifted up his hands under the shadow of General Saxron's authority, there assistance of the teacher. An indignation meeting of citizens was called for the purpose of denouncing the school management, and after considerable according to the purpose of denouncing the school management, and after considerable according to the removal of the principal mid the assistant teacher. The meeting was about in the assistant teacher. The meeting was a great cry of wrath to come in his prophesying, but-of late, whether his inspiration has come from the same sort of companionable, will do not know, he certainly like according to the companion of the will fall to effect much of the atance, that while the teacher erred in judgment the boy descryed all he got, and refused to dismits the teacher.

reau, a political missionary establishment. In leed we fear that already in forming the shrewd and sagacious plans, which the corres pondent commends, he has been neglectful o weightier matters. We see that General How and has published a very sad report, stating that intemperance is increasing at a very Carolina and we would urge upon the Chap lain renewed zeal, for it is a strange fact bu true, that a love for whiskey and universal suffrage have a very appreciable effect on each

The truth is that reconstruction can be of celed thoroughly and peacefully only by the cordial co-operation of the white population and the military authorities; the one administher adapting its habits, and thoughts to required changes promptly and kindly. If the reedmen will simply abstain from agitation, f they will believe that on the one side there is both the power and the will to protect them from injustice; and that on the other there is iot the slightest desire or intention to do thom any injustice, a few months will see our chief difficulties overcome. The registration will be completed, the elections ordered, and the system of universal suffrage will go into operation without a disturbance. That co-operation so far has fortunately existed between the Military Government and the white population of this State, and what has been the result ? We have none of the strife, and anger, and bloodshed that have tormented other communities Questions of conflicting right that have producca serious disturbance elsewhere have bequietly settled here, and there is less conflict of authority and less antagonism of feeling to-

day in this State than anywhere in the South. Any effort to disturb this condition of things an only spring from a malicious desire to de mischief, and is not attempted in the interes of either white or black, but to serve party purposes or to gratify some personal vanity maller personal spite.

CLOTHING

## FURNISHING

Adapted to this market, than we have ever offered. We have given particular attention in getting up this Stock to lightness of fabric, strength of material and durability of color. Much the larger portion of our Stock is made in our own workshop, and we warrant it in every respect equal to custom work. We have Goods not of our own manufacture, such as are usually sold ready-made, the difference we shall be glad to show our customers,

In fixing our prices, from which we make no deviation, we have taken into consideration the depressed state of the market, and the universal desire to buy goods cheap.

We give below some of our lead-

FURNISHING GOODS.

In addition to our usual assortment of GENTLEMEN'S FURNISH-ING GOODS, we wish to call particular attention to our

SHIRT DEPARTMENT.

We have made arrangements to have our SHIRTS made by our own Pattern, and we think they will compare favorably in style and fit with any Shirt on the market. THEY COMPRISE FOUR QUAL-

ITIES, \$2 50, \$3 00, \$3 50, and 84 00. We invite the attention of COUN-TRY MERCHANTS and PLANT-
