The Ben Wikis is the vessel daily expected at this point, and will receive the emigran from this State and Georgia.

BOARDING .- As many persons are anxious leave the city during the summer months, and to breathe the fresh mountain sir, we take pleasure in referring them to the advertisement of Mrs. S C. LAVAL, of Greenville. Mrs. LAVAL has opened a boarding house in Greenville, and is fully pre pared to accommodate her Charleston friends. Ar Inferesting Document (to those who are ble to read it) was handed us a few days since by a gentleman. We have looked over it carefully d find it is a deed of conveyance, written of vellum, May 28, 1631, in French, in a very neat regular and uniform, though to us not very legible "notary" hand. Our French follow-citizens, we have no doubt, could read it without much diffi y. The vellum or parchment, though over bundred years old, is as good, as white and as smooth to-day, as it was on the day it was written, when RICHELIEU ruled the destinies of France and of Europe. Any one curious to say, or desir gratified by calling at our office.

WHITSUNTIDE, OR PENTECOST, was colebrated yesterday throughout Chistendom, always excepting the ultra Protestant churches, which discountenance ecclosiastical holidays of every species. The Christian Pentecoat this year coincided ex-actly with the Jewish Fostival. In the Hasel atreet Synagogue yesterday the Rev. Dr. Meyen

preached an able sermon, upon the cardinal tenets of Hebrew theology, to a large congregation. There was service also at the synagogue last

night, and will be again this morning at the usual In Virginia, Monday after Whitsunday has al-

MILITARY MOVEMENTS .- Companies D and F o he Sixth Regiment Infantry, now stationed at the Citadel, will leave to-morrow for the West. Four companies will leave this State, and the battalion will be commanded by General Graen, formerly Commandant at Columbia. The following are the officers of the two companies leaving this city: Co. D. Captain Montgoment BRYANT, Brevet Maor; Second Licutement, Gro. Coars; Co. F. First Conton; Adjutant, J. F. Monson; Quartermaster, STEPHEN PAKER. Dr. GIBARD, Assistant Burgeon will accompany the command to their place of destination, and then return again to the remnant

THE HARMONEONS.—This talented troupo peated their performance on Saturday night, and though the weather was unpropitious, the hall was well filled. The Harmoncons can truthfully say well filled. The Harmoneous can truthing say that "wo're a band of brothers, and natives of the soil;" and though a prophet soldem gains either credit or honor in his own country, they are a brilliant exception. We have solden seen the mimicked, while the singing and witicisms are excellent, and called for frequent encores from the

of the Sixth in this city.

The Charleston public has always been favorable to the Minstrel Troupes that in former days were accustomed to visit the city, and the anouncement that the "Campbells are coming" wa joyfully received by the community. Those who remember these troupes will find that the Harmoneons are in no ways inferior, and the knowledge that it is Charleston talent should alone ensure large attendance. There will be no performance to-night, as the company meet only to rehearse, but they promise a rich treat on Tuesday night, and we advise all who think that it is "better to grin than to growl" to attend."

Ws had the pleasure, on Saturday afternoon, of witnessing one of the finest games of base ball played by the Palmetto Club this season. The sky was slightly clouded, the ground hard, from the late rains, and the air cool enough to stimulate the players to a full exercit of their abilities. Having leaved that the "Malter" intend challenging them. carned that the "Alorts" intend challenging the to play for the championship of the State, they have immediately put their "first nine" to practicing. Eight of the nine were on the ground, and were placed in what will probably be their regular positions for the season. Their opponents consisted of ten other members of the Club. In order to equalize the game as far as possible, it was re quired that only one of the first nine should be put out to close their winnings, while they were forced to put out three of their opponents to accomplish the same purpose. In spite of these great odds, the score at the end of the ninth inings stood 46 to 18 in favor of the first nine. unnecessary for us to particularize in regard to the merits of this nine, where all the play was so good. They caught fly balls, and stopped ground balls, and our only wonder was that their oppo-nents made any runs at all. At the bat they seem-

cd equally at home, sending balls to right and left field with a swiftness that defied opposition. Some seld with a swiftness that defied opposition. Some very pretty play was made by their opponents, both in the way of batting and fielding, but it was of no avail. Altogether, we were truly gratified with the game, and are now more than over anxious to witness the contemplated match with their rivals, the "Alerts." Judging from what we have teen of the latter Club, we feel certain that they can put a very strong nine in the field, and the Palmettos require all the practice they can get if they wish to retain the laurels wen last season. they wish to retain the laurels won last s We hope the match game will come off as soon as do, as the weather gets warmer every day We will be there.

THE NEW YORK AND CHARLESTON STEAMSHIP COMPANY.—We have already mentioned the estab-ishment of this splendid line of sidewheel steam hips, and now that matters have assumed a definite shape, we refer to it again, that the friends of Charleston, particularly in the interior of cur sis-ter States of Georgia and Alabama, may be fully apprised of our great step forward, the capital for which is furnished in New York. The "Champion" and "Manhattan," we learn are to run on a weekly

inc, until the fall business opens, when other ships equally inviting, will be added to the trade.

The agency in New York is in charge of Messrs. HENRY R, Mencan & Co., No. 25 Broadway, and the business of this line is done at Pier No. 8, North River, near where Capt. Benny and other of the "old line" used to figure in the past times In Charleston Messrs. STREET BROTHERS & Co. attend to the inward freights and passeng while Messra. Countenar & Thennolm, no wel known in connection with the Baltimore line of ring outward freights. This division of labor in the agency in Charleston is intended to expedite business, by enabling each of these two firms to give their entire attention to a particular line of business, by which it is hoped a full development of each interest can be beat secured. Thus in the all important matter of outward freights, Mosses COURTENAY & TRENHOLM, as agents of lines, both to Baltimore and New York, will be in a position to acquire a large amount of information, useful to each, while Messra. STRRET BROTHERS & Co., will keep a watchful eye to having a full share of the

keep a watchful eye to having a full share of the inward freights.

Adger's South Wharf is the landing place here for steamers of this line, and is well suited to the business. Mesars. Counteray & Trennolm, we tearn, will continue their general business at Union Wharves, but have arranged for an office near Adger's Wharf for the accommodation of hippers in the New York steamer business. W would regret any change that would take them or our other friends and neighbors, Mesars. G, W. WILLIAMS & Co., and Mr. GROTING, down town; for during the past year our central location has been made lively by these shipping centres, and as a consequence, everything has had a cheerful lock, while, without them, our precinct would be more quiet, but at the same time also more dull.

We learn that the Champton was entirely filled on Saturday—the cabins with passengers, and the nold with freights. Over \$600 packages of merchandise, etc., making up her manifest, smong which over 800 bales of cotton, which, from the hugo size of the bales, we should "guess" must have come from Alabama:

A National Medicine.

One can hardly pick up a newspaper or turn s street orner news-days that he does not find, staring him in he fice, the announcement that Prof. So-and-So has ust discovered a medicine which is a panacea for all the ills that fiesh is, or may be helr to. These "won.lerful" ins that fican is, or may be helf to. These "won-lorful" discoveries usually have an existence of a few months, then disappear from puelle notice. The reason of their sudden extinguishment is apparent. They were humburgs. At the outset all modicinal preparations have an equal chance for success, as all are equally unknown; but the chaff is soon winnowed from the grain by the practical test which an unprejudiced public applies to all things. There are but now pregarations of medicine all things. There are but now pregarations of medicine all things. There are but low preparations of me which have withstood the impartial judgment of the people for any length of time. One of the few which we have now in mind, and which has been a long time familiar to nearly overy household in the land, is the celebrated HOSTETTER'S STOMACH BITTERS. Their almost universal sale and use, and their comphatic en-dorsement from all portions of the country, compel the admission that they must be a specific for the allments for which they are recommended. Letters before us attest their officacy in diseases of the threat, bowels and attest their omissoy in diseases of the threat, bowels am liver. In that truly torrible complaint, dyspopals, the are regarded as a sure cure. In Pittsburgh, where thes Britan are m unufactured, their sale for home use is im mease. This fact alone speaks volumes in their favor.— Extracts from the Muscatine Courier, Jone, 16.
