"Not so, my little Mabel, Not so, wilt win him back; Men nover need the harsts that bleed, And die u. on the r track. Let s orn repay for scorning; Let smiles cuwreath thy lips; The fickle one, ere als is done, Shall Miss thy fl., ger-tips."

Har weary open grow bright: Her spirit's pain abo did disaln; Her spirit's pain abo did disaln; Her songs were blithe and light, Sho athered up Hisa heautty, And bound it wit her cares, And some sweet thought, with duty fraught, light bravely still sho bears.

Th n Mabel's step was buoyant;

And sooth the day grow fairer;
The levely sapphire sky
Lay like a see, where dreamicesly
Went fairies sailing by;
They while price of the each other,
Tossed siray from crew to crew;
Each airy b ast, each cloud-like float,
Went recking o'er the blue.

The forest trees did whisper,
A d shake beir fastliery seeds,
And at the reet the wild flowers sweet
Began to sell the freeder.
The muses clung to ether,
And shut the Ir hun rad eyes,
And like a fute, no longer mute,
The sort South wind did riss.

Testimonials from the most distinguished Artists in Europe to Messrs. Chickering & Sons: to Mears. Chickering & Sout:

Having played upon a Flanotorte made by Meastra, Ohickering & Sons, of Boston and New York, I have much pleasure in testifying to its general oxcellence. For sweetness and brilliancy of tone, deliceoy of touch and magnificent power for concert purposes, I counted at a really GRAND PLANOTORIX AND DEGINAL CHARGES OF AMERICAN MANOFACTURE. ADMINISTRATION OF THE CONTRIBUTION OF

Among the chief points of excellence of the Chickering Planos, of which speak the renowned artusts in their congratuatory testimonials to the Mocare. Chickering, are the greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and perfect eveniness throughout the entire scale; and, above ait, a surprising duration of sound, the pure and sym, athetic quantity or which never changes under the most delicate or powerful touch.

During the past furty-three years this firm has mand-actured

80,000 PLANOS,

in the construction of which they have introduced every known and valuable improvement. They have invaria-bly been selected and need by all of the world's ac-knowledged great artists who have valled this country professionally, both for private and public use.

I consider Chickering & Sons' Pianes, beyond com-parison, the best I have ever seen in America.

GOTTECHALK.

I consider Chickering & Sons' Pianos superior to any in the world.

They are unrivalled for their singing qualities and for the harmonious roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the base is distinguished for power without harshness, and for a magnificent sonority.

Four Pianos are superior to any I have ever seen in this country or in Europe.

I have sever hierd a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, elastic and well balanced touch.
