ONE LITTLE CURL

I have a little curl of hair, As golden as the sunnlest ray; No treasure with it can compare, Its beauty cannot pass away.

Close to my lips I press the prize; It may be weakness so to do, But something me ting in my eyes Is the excuse I offer you.

This little curl of golden hair Speaks to my heart of one who died-A blue eyed boy, as sweet and fair As o'er invoked a father's pride.

One summer's flowers above his bed as sweetly bloomed and gone to last I held his little head dust my sad and cching breast.

Above his sleep the snowy white Has sortly gathered, like a crow-Has sortly gathered, like a crown, nd hilden from my eyes' dim sight The winter grass blades sere and brown

But whether with the roses red, Or with the winter's rapery, His littlegrate be garlanded, It is a lovely spot to me.

There, when the shadows of the night Arise and drive the day afar, I see him with his crown of light, Look down from Heaven like a star.

I see his beauteous smile enshrined And well Dewith a pure realm of bliss, the d come, and round my forchead weave The beauty of an angel's kine.

You may pronounce my sorrow vain, And counsel me with kindred breath; But do you know a lather's pain When his first born lies cold in death?

To hear the last toner of a voice, The sweetest music to his our; To feel the rarest of all joys— The richest gladness of sappear.

This is the pain the father feels
When death ras made his hearthstone drear,
When o'er the silent form he kneels
To weep about his loved one's bur.

A REMARKADLE CLIPPER RICE.—The San Francisco Times says: "This city is the terminus of one of the most remarkable nautical events on record." I we first class ships, the Governor Morton on record. Two first salied together from the port of New York rims Doma, salied together from the port of New York rims Doma, salied together from the port of New York rims Doma, salied together from the port of New York rims Doma, salied together from the port of rist conversation was maintained by the two commanders. Large sums were wagered by the friends of these ships, on their respective favorite reaching this port first. The racing vessels crossed the equator in the Alantie on the same day, although not in the same longitude. They entered the Straite of Le Maire the same longitude. Both ships arrived at this port on the same day, within three hours of each other, for a race of sixteen thousand uffes. These facts demonstrate the accuracy that has been sitaned in the science of navigation, and also prove the reliance which may be placed upon the wind and curront charts prepared under the direction of Mr. Matury."

Merre. Ohiosenson & Bones denis I 1899.

Lomous, July 25, 1857.

Merre. Ohiosenson & Bones denis: I have cruch pleasure in enclosing a document squared by the first composers, musicians and professors in Europe. I held your Pianos in seich high restination (rede my certificate) that I felt it my duly to take one of them with me to Europe, to secretain the opinion of my pre-feedonal brethren. The enclosed certificate will prove how manimous they have been on the subject. I beg to forward, at the same time, a letter I received from my friend, Jir. Collard, which I am sure must be gratifying to you. bug to you.

I have the honor to be, gentlemen, yours very truly,
JAMES M. WEHLL.

James M. WeMi, Etq.:

Mr Dean Star: I have great pleasure in saking youto convey to Messars. Chickering the expression of my highest approval of their instrument. It let, I consider, not mixely the best instrument of American manufacture that I have tried, but one of the figures Grand Planeforkes that has ever come under my theoretical natural that has ever come under my theoretical in the Mossas. Chickering may well be proud of having the Mossas. Chickering may well be proud of having which, for buich, the manufactory an instrument which, for buich, quality, power and workmanship, it would be very difficult to surpass in any part of the wide world.

Among the chief-polute of excellence of the Chickering Planos, of which speak the renowned artists in their congratulatory testimonials to the Mesers. Chickering, are the greatest possible depth; richness and volume of tone, combined with a rare brilliancy, clearness and perfect evenness throughout the entire scale; and, above all, a surprising duration of sound, the pure and symiathetic quality of which never changes under the most delicate or powerful touch.

s consider Chickering & Sons' Pisnos, beyond com arison, the boat I have ever seen in America.

I consider Chickering & Bons' Flanoz superior to any in the world.
They are unrivalled for their singing qualities and for the harmonious roundness of their, tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearabase and purity that is any other instrument, while the base is distinguished as power without harshnoss, and for a magnificent sometry.

Tour Planes are superior to any I have ever seen in this country or in Europe.

I have never heard a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, claric and well balanced touch.

It may be satisfactory to our patrons and friends among the public at large to state that testimonials have been received from all the leading artists who have visited or are now residing in the United States, a few of whose names, besides those above, we append:
