SATURDAY MORNING, NOVEMBER 2, 1867. LOCAL MATTERS

AUCTION SALES THIS DAY. LOWNDES & GRIMBALL will sell, at 104 o'clock,

COURT OF EQUITY. -We are requested to call the attention of the Members of the Bar to the fact that the call of the Dockets in the Court of o'clock, M., and to request a full and punctual

PERSONAL. - Major-General L. THOMAS, Adjutant-General of the United States, arrived in this city yesterday, and is stopping at the Mills House. General Thomas is on a tour through the Southern States for the purpose of inspecting and reporting on the condition of the Union cemeteries.

THE COURT OF EQUITY-CHANCELLOR W. D. DAR-GAN PRESIDING .- The argument in the case of the Savings Institution was continued by Mr. McCrea-DY, who occupied the time of the Court until its close. Judge A. P. Aldrich was present during a portion of the morning, and occupied a seat on

ANOTHER ARREST.-The Columbia Chronicle of yesterday says that a white man named CARTER HARRIS was arrested on Thursday upon the charge of complicity in throwing the cars from the track of the South Carolina Railroad, near Hopkins', about two weeks since. He is in the custody of the military authorities.

" DASH THY FOOT AGAINST A STONE. "-Any of our readers desirous of obeying this injuction will find every facility, if they will take a walk after dark on the North side of Broad street, between Church and Meeting streets, where the cobbles are piled up promiscuously, not leaving room even for the most peaceable male pedestrain to pass unharmed. A little "light" on the subject, even if it were only a tallow "dip," might obviate pain-

DISTRICT COURT-HON, GEORGE W. LOGAN PRE-SIDING .- The State vs. Thomas Sasportus-Larceny. R. W. SEYMOUR, Esq., for the defence. Guilty.

The State vs. John Washington-Larceny. Guilty. The State vs. Henry Washington and John Green-Larceny. Guilty of Petit Larceny. The State vs. Richard Johnson-Larcenv.

The State vs. Jordan Lee-Larceny. R. W. Szy-MOUR, Esq., for the defence. Not guilty.

HOTEL ARRIVALS .- Among the arrivals at the Hotels are the tollowing: Parition Holel .- Geo. Morrison, Augusta, Ga. C. B. Deyer, Augusta, Ga.; J. T. Meader, Ga.; R. C. Kirkland, and L. Harley, Barnwell District.

Charleston Hotel .- W. U. Ulrich, Atlanta; R. Johnson, New York; Wm. E. Tanner, Richmond, Va.; M. Heckinger, New York; Dr. T. Miles, Marion; W. G. Baldwin, S. C. Mills House .- Major-General L. Thomas : N. G.

Osteen, Sumter News; Wm. Patten, Christ Church; Abram Huguenin, Mrs. Huguenin and servant, S. C.; R. Joyner, Columbia, S. C. THE POET'S MEMORY-GENEROUS OFFER.-We

are gratified to learn (says the Columbia Phœnix), that the well-known publishing house of Messrs. C. B. RICHARDSON & Co., of New York, have voluntarily offered to publish a volume, embracing the poems of HENRY TIMBOD, for the sole benefit of his surviving family. This is indeed a generous offer, and we trust that a competent friend will undertake the compilation of Mr. Tranco's poems, and preface it with a fitting biographical sketch. His friend and brother poet, PAUL H. HAYNE, would confer a favor upon all who admired the writings of poor HARBY TIMROD. We hope he will undertake the work.

ALL Souls' Days .- This festival is celebrated by the Roman Catholic Church on behalf of souls in Purgetory, for whose release prayers are offered and masses performed. It was first introduced in the ninth century, but was not generally observed until the sixteenth. Its observance was esteemed of such importance that, in event of its falling on Sunday, it was observed on the previous Saturday, in order that the souls of the departed might suffer no detriment from the want of the prayers of the Church. In former times it was customary for persons dressed in black to traverse the streets ringing a dismal-toned bell at every corner, and calling upon all to join in prayers for the dead. At present the observances of the day are confined to the religious services in the churches.

Mayon's Count.-The old story was repeated how the elbow was first bent accidentally, and then the crook became permanent. Advice was thrown away on such a croaked subject, and all temptation was removed by taking his last V.

Three colored wranglers, who came from words to blows, were arrested in the market, charged with disturbing the peace and obstructing the highway. They were put out of the way.

Three colored disputants forgot all about parliamentary rules, and taking the market as their forum, proceeded to enforce their arguments by blows. This proceeding was quietly stopped, and they were allowed to cool off in saparate cells. An old darkey, who thought it time to arm for

the conflict, stole a gun, which was traced to him, Constitution and Ten Commandments.

THE CITADEL.—Those who remember the dingy brown color of the Citadel will be surprised to note the magical effect produced by the artistic handling of the white wash brush. It is now of a pure our country or city friends. white color, but we understand that, in a few days, another coating will be applied, which will change the hue to a rich cresm and make the exterior somewhat like the Mills House. This cream color is produced by the use of the Ravenel lime, which has become extremely popular since it was introduced in this city. The glare produced by the sun's rays is avoided, and the color resists the action of the weather far better ! an the darker shades that were once in vogue. The improvements on the Citadel have not been confined to the exterior, but the whole building has received the same attention, and the ominous sign of "paint" is to be seen in every room. The appropriation made for this work has been well expended, and will render the Citadel one of the most attractive buildings in the

CHEAP STAMPED ENVELOPES .- We see it stated that the principal postoffices have been, or shortly will be furnished with a large number of specimens of the stamped envelopes now furnished by the Department. These are all made of thick, strong, smooth paper, and are sold at the mere cost of manufacture with postage added. The stamps range in value from two (2) to forty (40) cents, embracing all denominations needed for domestic or foreign postage. The envelopes are of all sizes from small letter to large official. When ordered in quantities of five hundred and upward of any specific denomination, the Department will print on the outside, "free of charge," the address of the sender, with the request that it be returned if not delivered within a specified number of days. No extra postage is now charged for return letters. Stamped envelopes of any required size and denomination can be ordered through the postmaster. These are the cheapest and best envelopes that can be used, no profit on them being made by

Dust. There are few evils more annoying than dust, and it is a poor consolation to know that it is the common fate of humanity. It scorns the puny efforts of a watering cart, and the heaviest rain only keeps it down for a few days. With the first gleam of sunshine it renews its active existence, and is carried by every breeze to the eyes, ears and noses of offended humans. All efforts to eradicate it seems useless. Though it is swept up and carted off, it soon reappears, and the nuisance is as great as ever. A thorough system of sprinkling might keep it under in the business streets, but the watering carts now in use are either too small or do not possess sufficient power to effect the desired end. In Broad street the artesian wells recently sunk have proved a great blessing and very efficacious, and dust is almost unknown in that section; t the other thoroughfares, which do not enjoy this privilege, are in a terribly dusty condition. Notwithstanding the apparent hopelessness of their task, the street brigade are still engaged in removing the dust. It is carted off to other sections of the city and is used to fill up low] places. A good sidewalk has been recently formed in Washington street of this material. It was thoroughly drenched by the rain, and while in this state was moulded into shape. It is quite an improvement to the street, and is a proof tast there is nothing too despicable to be made useful.

In this seat. It is so simple in its operation that a child can work it.

THERD AND GREATEST—In cases of horses taking fright, becoming unmanagable or running away, the terrible consequences which so frequently follow may be all avoided by this simple application to carriages, as the horses can be loosed from the carriage is quickly and safely stopped.

Mr. C. DUCREUX gave several public exhibitions. The great favor and praise manifested by the public on these carriage is one of the evidences of a popular appreciation of its merits.

Terms may be known and orders received for applying the patent to carriages, or purchase of State Rights, by addressing to

C. DUCREUX, Patentee,

No. 93 Elizabeth street, New York. this privilege, are in a terribly dusty condition.

is nothing too despicable to be made useful.

THE DAILY NEWS. VERDANCY. - It is not often that strangers from ally they are betrayed into an expression of their feelings, which at once make them known. One BEING THE NEWSPAPER OFFICIALLY RECOG- of the unsophisticated recently landed in this NISED AS HAVING THE LARGEST CIRCULATION town from the South Carolina Railroad, and, proceeding to a street car, sought the conductor and requested to be taken to some point in Meeting street. He was answered in the affirmative, but appeared to be uneasy, and not knowing that street cars never deviated from their beaten track, he repeated his request several times. While passing down King street he was very uneasy, and his composure was not restored until the car turned into Meeting street, when he gave a sigh of relief and subsided into a corner.

CHALLENGES IN REGISTRATION LISTS.—General CANBY has issued an order declaring what challenges alleged in the registration lists are sufficient causes are, having been coroner, captain of ductive, and would repay the planter for his patrol, or acting constable; but holding the office labor. Equity will be commenced on Monday next, at 12 of Assistant Postmaster, aid on Governor's staff, or overseer of the poor, was insufficient. Among acts establishing the charge of aiding and abetting the rebellion, and furnishing horses, encouraging men to enlist, selling provisions to Confederate service, encouraging war by speeches, and being in company with raiders when a man was shot. Among insufficient causes were, aiding son in Confederate service, and being "bad rebel, regarded as disloyal to the United States;" but a sufficient cause was being "born in Africa."

THE PICKET GUARD HOUSE .- This old building was at one time used by the city as a picket guard house, and subsequently as an armory for the military, but during the past few years it has been without any permanent occupants. The military authorities have recently commenced repairing the damages caused by time and neglect, and will restore the building to something of its former appearance. We learn that it is their intention to make it a military prison, where parties who are to be tried by a military commission, or courtmartial, may be confined, thus avoiding the necessity of immediately communicating with Castle Pinckney. A high feuce has already been erected on King street, between the guard house and the Barrett House, at the corner of Calhoun, and the interior of the building is to be devided into prison cells and quarters for the guards. This prison will be quite convenient to the Citadel, and will obviate the necessity of marching white men through the streets. The change will be agreeable to all parties, prisoners as well as citizens.

DEATH OF AN OLD CITIZEN.-Mr. JOHN SEIGLING for many years a resident of this city, died yes terday at his residence in King street, corner of Beaufain. Mr. SEIGLING was a native of Germany. but came to this country about 1822 and engaged in the music business, which he followed success fully during life. He was first located in Broad street, next door to the Guard Heuse, but subsequently noved to King street, near Horlbeck's alley, then to the corner of the alley and Meeting street, and, after the great fire of '38, to the corner of King and Beaufain streets, which stand he occupied at the time of his death. Mr. SEIGLING was remarkable for his indomitable industry and the energy of The surgeon and the barber have parted company. his character; and though his business was seri- The barber now delights to please his customers convulsions, he succeeded, in each instance, in restoring it to its former basis. There are few residents of this State who have not heard of SEIG-LING'S Music Store, as it was for many years the only establishment of its kind in the city. There are few adopted citizens who are more thoroughly associated with their new homes than was Mr. SEIGLING. He was, for forty-three years, a member of the German Friendly Society, and at the time of his death President of the Freundschafts

He held many positions of trust both as a civilian and a military man, being an old member, and for some time Captain, of the German Fusiliers. Mr. Skigling was in the seventy-seventh year of his age, but bid fair to become an Octogenarian, having preserved all his faculties until his last illness. He was the father of a large family, who have proved themselves worthy of the care bestowed upon them. His eldest son, Mr. John SEIGLING, was a prominent lawyer of this city, and his suddon death about the time of the Mouphis ration was a great blow to both famil, and friends.

The funeral services will take place to-day. A HOME FOR THE DESTITUTE MOTHERS, WIDOWS AND DAUGHTERS OF OUR CONFEDERATE SOLDIERS. -A number of ladies of this city have formed an ssociation with the above title for the purpose of furnishing homes to the destitute. They have secured the Carolina House, in Broad street, and are now arranging it for this purpose. Several applications have been made and five families are now supplied with rooms. At present the Association propose only furnishing applicants with rooms at a mere nominal sum, but if their project proves successful they will make arrangements to have the inmates supplied with meals. The Carolina House has extensive accommodations and is adnirably adapted for this purpose, but the Association rely, in a great measure, on the contribuions of the charitable to sustain them in their undertaking. The rent is about \$1800, only a moiety of which will be furnished by the inmates of the Home, and the ladies have been compelled to appeal to the public to aid them in the good work. Some contributions have already been received, others would doubtless extend their aid were the facts more generally known. It has been suggested that if circulars, stating the object of the Home, and showing that it was not of a sectional character, were distributed throughout the country-one being sent to every business man in the State-that the sum of \$1 could be willingly contributed by each individual and a fund raised that would tend to make the institution self-supporting. One dollar makes a person an annual subscriber, and there are surely a large number in and he was sent up for fifteen days to study the the State who can spare this sum to aid those whose fortunes were swept away with the lost cause. The appeal is made equally to the city and the country, as both sections will be benefitted by the Home. A list has been placed in our office and

C. DUCREUX'S PATENT For Instantaneous Detachment

Horses from Carriages. THIS INGENIOUS AND VERY USEFUL INVENTION, which has been patented in the United States, France and England, is now offered by the subscriber to the public, feeling assured they will find it, upon examination, one of the greatest inventions of the age.

Prominent among its advantages are:
Prominent among its advantages are:
First—The facility with which horses may be harnessed to or unharnessed from a Carriage, also rendering it unnecessary for the person unharnessing to pass between or behind the horses as is customary, thus avoiding any liability of being kicked.

SECOND—In case of a horse falling, he may be loosed from the carriage in one second, without the driver leaving his seat. It is so simple in its operation that a child can work it.

BUSINESS NOTICES.

DILLON'S TIE. - This tie is daily becoming more popular. It is light, strong, simple and cheap. Iron ties are running rope out of the market, and for the "Dillon" tie, WILLIAM ROACH is the agent. See his advertisement.

Dr. Draines .- As will be seen by his announcement. Dr. DRAINES has recovered from his long illness, and resumed the practice of his profession in this city. It is understood that he has in preparation a medical essay, to be entitled Feuillitons from the Autobiography of an Ex-U. S. A.

PLANTATIONS FOR SALE OR TO LEASE .- R. M. MARSHALL & BRO., Real Estate Agents, Broad street, offer to capitalists and others a fine investment. They have a number of the best plantations in the State, which will be disposed of as ficient, and what are insufficient. Among suf- above mentioned. The lands are extremely pro-

FIRES FOR THE WINTER.-It is time to make ready for cold weather, and the best way of so doing is by purchasing one of the cheap, economical, and convenient stoves of which Cameron, BARKLEY & Co. have an almost endless variety Look at their advertisement of "Stoves! Stoves! Stoves!" and call at No. 150 Meeting street before you make any purchase to take away the sting of cold mornings and cheerless nights.

FANCY MILLINER'S AND DRESS GOODS .- With the 1st of November Winter may be said to open, and the milliners, with commendable judgment, have chosen this time for opening their Winter goods. We are daily convinced that the fashion of this world passes away, for each season brings a change, and the colors, shapes and styles of goods, rotate with the same regularity. Mrs. M. . ZERNOW has obtained all of the latest fashionable importations from Paris, and offers to her customers a choice selection of millinery goods.

CAMERON, BARKLEY & Co.—The establishment of his firm, at No. 150 Meeting street, is one of the argest of its kind in the South. In it may be found every description of machinery, tools, oils, paints, banding, iron and steel, stoves, and every other thing necessary for the railroad engineer mechanic, or millwright. The house has so wide a reputation that its name is a sufficient guarantee that its tusiness is conducted upon the strictest principles, and it is well known that the experience of the partners enables them to buy well, and sell at the lowest cash prices. Their advertisement, in another column, gives a fair idea of the nature of their business; but, in general terms, it may be said, that they deal in everything between a tin tack and a steam engine.

SOMETHING ABOUT BARBERS.—In ye ancient time the professors of the tonsorial art received their incivilized appellative, because they connected with shaving, hair-cutting, etc., also the more setious operations of "bone setting," dressing of wounds, teeth pulling, etc., and as these functions not unfrequently were performed in a "barbarous" manner, they came to be called "barbers." In our own day, division of labor has changed all this. ously affected at different periods by financial in shaving them and trimming their whiskers and nustachios, according to their several fancies; and not unfrequently makes his living by dyeing the capillary attractions of both young Lotharios and ancient swaies. Those of our friends who desire to see a handsome establishment of this character and to have their noses pulled gently and delicately, should pay Mr. L. HEUER a visit, at his new saloon in Market street, South side, between Meeting and King streets.

DR. HUMPHREY-Dear Sir :- Your Specific Remedies have cured me of two different diseases, one of which was of three years standing, which was contracted by vice and exposure (Scrofula). The other was a disease of the generative organs. I have taken different remedies for them, but they did not seem to perform any cure, so I took five boxes of your medicine, and feel quite well, and stronger by seven degrees. I have recommended your remedies o a friend of mine and they have worked well, as he himself says. Your medicines have wrought a grea change in me, and I shall be forever thankful to you Yours gratefully, and with respect.

Try Them.

Many persons have within this summer experiences the benefits to be derived from the use of PANKNIN's HEPATIC BITTERS. We would recommend them who stand in need of a tonic. For sale by all Druggists.

What is TARRANT'S EFFERVESCENT SELTZER APERIENT, and what are its effects? These are ques tions which the great American public has a right to ask, and it also has a right to expect a candid and satis factory reply. The preparation is a mild and gentle saline cathartic, alterative and tonic, and is most carefully prepared in the form of a snow white powder, containing all the wonderful medical properties of the farfamed Seltzer Springs of Germany.

Of its effects we would say that those who have tested

the preparation are the best judges, and they declare over their own signatures that the preparation will promptly relieve indigestion. Regulate the flow of the bile. Cure every species of headache. Tranquilize the nervous system. Refresh and invigorate the weak. Mitigate the pangs of Rheumatism. Neutralize acid in the Stomach. Cleanse and tone the bowels. Assist the falling appetite. Cure the heartburn. If you are a sufferer give this Remedy one trial, and it will convince you of the above facts.

TARRANT & CO., Sole Proprietors, New York. September 12 Sold by all Druggists. 3mos

Malaria Everywhere.

Rarely has there been a season as fruitful a this of malarious diseases. Not only n the prairies and in the valleys of the West; not merely in all the old haunts of Fever and Ague and Bilious Remittent Fever have these prostrating diseases been unusually virulent; but they have extended to towns and cities never before infested with them, and have even ascended the mountains and attacked thousands of people supposed to have been placed, by laws of Nature, above their reach. Hence we are compelled to admit that a fatal element pervades the Universal Air this secson, and should at once resort to the only approved preventive of its consequences, HOSTETTER'S STOMACH BITTERS, a tonic so potent, an anti-septic so perfect, an alterative so irresistible, and a stimulant so pure that it enables the human system to resist and baffle all the predisposing causes of disease. With the confidence that one clothed in incombustible garments might move among blazing buildings, the man who arms himself against malaria with this powerful defensive medicine may walk a fever-scourged district fearless of its insalubrious atmosphere. The intermittents and remittents at present so general 10 all parts of the country may be but the torerunners of a deadlier scourge now on its way Westward from the far East. Prepare the system with HOS-TETTER'S BITTERS for a successful battle with the mephitic causes of all epidemics. Be wise in time.

October 28 6

Know thy Destiny. MADAME E. F. THORNTON, the great English Astrolo gist, Clairvoyant and Psychometrician, who has aston ished the scientific classes of the Old World, has now lo cated herself at Hudson, N. Y. Madame THORNTON posesses such wonderful powers of second sight as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a life-like picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no hum leng, as thousand of testimonials can assert. She will send, when desired, a certified certificate, or written guarantee, that the picture is what it purports to be. Ps enclosing a small lock of hair, and giving place of birth, age, disposition and complexion, and enclosing fifty centa and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail All communications sacredly confidential. Address, it confidence, Madame E. F. THORNTON, P. O. Box 223

ASTROLOGY.

THE WORLD ASTONISHED

AT THE WONDERFUL REVELATIONS MADE BY THE GREAT ASTROLOGIST, Madame H. A. PERRIGO.

SHE REVALS SECRETS NO MORTAL EVER KNEW. SHE REVALS SECRETS NO MORTAL EVER KNEW.

She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages, and tells you the very day you will marry, gives you the names, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers, unvails the dark and hidden mysteries of the nature. From the stars we see in the armainent—the malefic stars that overcome or pre-dominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Full not to consult the greatest Astrologist on earth. It costs you but a triffe, and you may never again have so tavorable an opportunity, Consultation fee, with likeness and all desired information, \$1. LITTLE GIANT HORSE POWER. THE LITTLE GIANT, THE BEST, MOST COMPLETE AND CHEAPEST

HORSE POWER MANUFACTURED. In introducing this new Power into the market, we would state that the following are some of the advantages possessed by the "LITTLE GIANT" over all other Horse powers:

1. Its great strength on account of being double-geared, which not only doubles the strength by dividing the strain on twice the number of testh, but by gearing on both sides of the wheels it equalizes the wear on the shafts, and materially lessens the friction, enabling the horses to do much more work than with any other Power.

HORACE L. EMERY'S PATENT ENDLESS RAILWAY

NISHWITZ'S MOWING AND REAPING MACHINES. WASHING MACHINES.

and Steel. "LOW CASTINGS, in every variety; Cultivators; Horse Hoes; Harrows; Cast Iron Field and Garden Edlers; Fan Mills; Corn Mills; Corn Shellers; Corn and Cob Crushers; Hay, Straw and Corn Stalk Cutters; Flantation Carls and Wagons; Canal and Garden Barrows; Sugar Mills; Grindstones; Road Scrapers; Churas; Stovels; Spades; Rakes; Forks; Hoes, &c., &c. Garden Seols, of all Kinds, warranted pure and Freah.

Dealers in all kinds of Agricultural Implements, SAW AND ROLLER GINS

horses to do much more work than she prowers.

2. Its compactness and extreme portability, it weighing about one-half as much as other Horse Powers, and occupying but one-third the space, it can be packed in small boxes, thus saving much expense. It is so simple that the most ignorant person would have no difficulty in putting it together.

3. The facility with which it can be adjusted to any kind of machinery at any angle, either on the ground or over head, without moving it from its foundation, will be appreciated by farmers and planters as specially adapted for driving Cotton Gins.
