Savannah Market.

SAVANNAH, I ecember 5.—Corron—For the first three days following our last issue the market was distinguished for a steady decline, in consequence of the depressing news from Liverpool. Suyers, however, found it difficult to fill orders as holders withdrew their stock from the market in the hope of b tter prices. On Wednesday more activity and a better feeling prevailed, and the hopes of an improvement were realized by an advance of Mc. o-day. We quote: Ordinary....
Low Middling.... Middling...... Strict Middling..

The receipts have con 'qued to fall off, which we attri-bute, in addition to the reasons advanced last week, to the desire of plan ers to hold back for better prices, as they have been selling recently for less than the cost of production. We hope they will now send on their stocks on hand, to avoid arrivals of large quantities at any one time, which is likely to produce an erroneous idea or the extent of the crop, and consequent depression of prices in Laverpool. in Liverpool.

The exports have not been so large this week as last, as may be seen by the annexed table:

New Orleans Market.

NEW ORLEANS, December 3.—Cotton—The market opened this morning with only a moderate inquiry, many buyers having their orders cancelled, while those who came forward ofered inside rates for strict classifications; but later in the day, inctors meeting the demand freely, the demand became no active, and the sales summed up 550 bales, at irregular prices, but on the whole showing a farther decline of \$\frac{1}{2}\$C. We now quote Ordinary at 13:13\$\frac{1}{2}\$C, Good Ordinary at 13\frac{1}{2}\$Al4c Low Middling at 15\frac{1}{2}\$Al4c, Middling at —a15\frac{1}{2}\$C, and Strict Middling at 15\frac{1}{2}\$Al4c, at the opining of business here seemed to be no prospect of so larges a business—considerably the largest this ecasion—as be the moderate supply offering and reduced views of but each appeared to indicate only an average movement; but the uniavorable tenor of the New Yerk and Liverpool accounts and the course of the cr. lange market compelling motors to submit to the concisions caim of led to the active demand which subseque thy occurred. In regard to the irresularity of prices we state that Good Ordinary sold at 13\frac{1}{2}\$C. Low Middling at 14c, and Middling at 15c, or \$\frac{1}{2}\$C less than our instite figures. On the other hand, there were also show the outside rates particularly for good staple, which commanded extra prices. The sales of the past three days sum up 13,250 balos. The receipts proper, excluding the arrivals from Mobile, Florida and Texas, amount to 11,415 bales, against 14,179 during the corresponding period list week, is owing a decrease of 2734 bales. The exports come se 15,009 bales, including 11,067 to Liverpool, 1244 to Have, 650 to Barcelona, 322 to Vera Cruz, 47s to 1 eston, 1208 to New York.

Passengers.

Stock on hand.

Star Islands—The Sea Island market has been dull the pas week, owing doubtless to the degression in uplands. The demand has been principally for lower grades. Prices range from 25 to 65 cents. An article well handled with firmness of staple will command as high as 75 cent.

Broz—The receipts during the past week have been taken for 102,663 bushels. There is but little doing, a die to dency doanward. We quote clean Carolina at 7368%c; prime rough \$1 7562.

Salt—There is a i rice supply on hand, and a good demand, with an upward tenece y. The last cargo sale reported was at \$1 55; by car oad we quote \$ 7531 80.

Timber and Limber.—A large diffi of timber has arrived from Carolina sin. e cur. last, which was taken with a tormer prices. The mills are generally at work. Demand limited. Freights are unchanged coastwise. A charter has been taken for Cienfuegos at \$2.50. One vessel is loading coastwise. We quote mill timber at \$8 \$311 per M. Shiping timber ranges from \$12 to \$20, secording to size and manufacture. Orders have been more treely offered the past week; some have been more treely offered the past week; some have been more treely offered the past week; some have been more treely offered the past week; some have been more treely offered the past week; some have been more treely offered the past week; some have been taken for clearnary sizes \$20823; difficult sizes \$25 to \$30. Narrow flooring \$21823.

Freights.—The advantage this week is in favor of the shippers, and rates are somewhat less than our last quotations. We quote: To Liverpool, by sail, dull at ½d for upland; ¾ and ¼d for ser island; through by steamer, ½c ior Uplands: to Philadelphia, ½c; to Baltimore, ½c; to Boston, ½c per steamer, and ½c per sall. Thinber ir ights are nominal. Lumber ireights coastwise, \$200 and \$20 colors. A second process of the past week is the favor of the shippers, and rates are somewhat less than our last quotations. Memoranda. The New York papers, of Wednesday, state that the schr Moses B Rramhalt (3 masted). Hussey, from Savannah for New York, with cotton, ran on the wreck of the sunken steamer Scotland at Sandy Hook yesterday at 7 A.M. The Coast Wrecking Company sent their steamer A Winants to her assistance, and at 11.45 A.M she was pulled off, with seven feet of water in her held, and towed to their stor-house at Jersey City. A steam pump was put on board, and the company are engaged in keeping her free, and discharging the cargo, which is more or less damaged.

The Savannah Republican, of Friday last, makes the following report: The scht Ora Moneta, Captain Bryan, left Hilton Head last Friday, with a cargo of lumber, bound for Savannah. There were about a dozen negroes on board of her, as deck passengers, who were bringing with them a lot of sea island cotton and provisions. Just after leaving the head she mis-stayed, and went ashore on the point. All on board succeeded in reaching the shore, although there was a heavy sea running at the time. During the night the schooner broke into four pieces, which drifted ashore. Her cargo was also washed upon the beach, and was nearly all stolen before daylight. The Savannah Republican, of Friday last, makes the

SHEFFIELD SCIENTIFIC SCHOOL,
ENGINEERING DEPARTMENT,
YALE COLLEGE, November 16, 1866.
I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a thorough
trial of the American Polygrade Lead Pencils, manfactured by the American Lead Pencil Company, New
York, I find them superior to any pencil in use, even to
the Faber or the old English Cumberland Lead Pencil
being a superior pencil for sketching, ornamental and
mechanical drawing, and all the ordinary uses of a lead
pencil.

pencil.

These pencils are very finely graded and have a very smooth lead; even the softest pencils hold the point well; they are all that can be desired in a pencil. It gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or ny other foreign market for peneils. LOUIS BAIL, Professor of Dr. ling, Ac.

C. DUCREUX'S PATENT For Instantaneous Detachment of

Horses from Carriages. THIS INGENIOUS AND VERY USEFUL INVENTION, which has been patented in the United States, France and England, is now offered by the subscriber to the public, feeling assured they will find it, upon examination, one of the greatest inventions of the age. Railroad and Steamboat Printing. Prominent among its advantages are:
First—The facility with which horses may be harnessed to or unharnessed from a Carriage, also rendering it

ed to or unnarnessed from a Carriage, also renow a fit unnecessary for the person unharnessing to pass between or behind the horses as is customary, thus avoiding any liability of being kicked.

SECOND—In case of a horse falling, he may be loosed from the carriage in one second, without the driver leaving his seat. It is so simple in its operation that a child can work it.

can work it.

THIRD AND GREATEST—In cases of horses taking fright, becoming unmanagable or running away, the terrible consequences which so frequently follow may be all avoided by this simple application to carriages, as the horses can be loosed from the carriage "in a twinkling," and the carriage is quickly and safely stopped.
