Many a year is in its grave Since I crossed this restless wave. And the evening, fair as ever. Shines on rum, rock and river.

Then in this same boat beside Sat two comrades, old and tried: One with all a rather's much. One with all the fire of youth.

One on earth in silence wrought, And his grave in silence consult: But the younger, brighter form, Passed in battle and in storm. Thus, when in happy hours I dare Turn my thoughts to days that were,

Turn my thoughts to days that were, I must always dear ones mourn. Whom from me pale death bath torn. Yet that is friendship's holiest union, When soul with soul is in communion; In spirit passed those hours desighted. In spirit are we still united.

Take, O boatman, thrice thy fee; Take, I give it willingly; For, invisible to thee, Spirits twain have crossed with me.

New Orleans Market.

NEW ORLEANS, April 10.—Corron.—To-day being a holiday, and no telegraphic r ports received either trom New York or Liverpool, there has been only a little looking sround, resulting in no sales, so far as we could learn. The sales yesterslay were about 1800 bales, on the basis of '99 for good ordinary, 30 for low middling, and 31c for middling, outside figures, the market closing very firm.

After business hours, the 5 P. M. Liverpool dispatches were received, noting sales of 15,000 bales at 12½ for uplands, and 12½ for Orleans middling. The telegram provoked some comment, as it states the market to be firm, whereas earlier accounts estimated sales of 20,000 bales at 12½ al2% respectively for uplands and Orleans, 54d above the evening figures. Of course both buyers and sellers are uncertain as to what they should do, with such constantly fluctuating accounts.

We retain vester lay's quotations for reference.

efficacy in producing large and early crops of Cotton, Corn, Wheat and Vegetables, while, the same time, it enriches the soil. We subjoin the following: WALTERBORO', S. C., July 22, 1867. GENTLEMEN: In reply to your inquiry relative to the merits of WHANN'S SUPER-PHOS-PHATE, which, at your recommendation, I empoyed this season upon my Cotton lands, I would state that it has fully equalled, and indeed surpassed my expectations, and its applica-

regard as being (next to Peruvian Guano) the most valuable Fertilizer for Cotton that has been offered to the public. Ver, respectfully, Terms, \$65 per ton of 200 pounds. Times sales can be arranged for. BELLAMY & ROBINSON.

MANURE! MANURE! MANURE!

TO THE PLANTERS OF SOUTH CAROLINA.

USE RHODES' SUPER-PHOSPHATE,

THE OLD AND LONG ESTABLISHED STANDARD

FERTILIZER.

THIS MANURE, IN ITS PREPARATION, IS MADE EQUALLY ADAPTED FOR FORCING large crops of cotton, corn, wheat, tobacco, potatoes and other root crops.

The manufacturing depot is conducted by one of the most skilful chemists and manufacturers

It is endorsed, approved and recommended by all the most prominent chemists and agriculturists in the Southern States.

It can be relied on as uniform in quality—always reliable—productive of large crops—and un excelled by any in the market in the high per centage of TRUE FERTILIZING PRINCIPLE. Witness innumerable endorsements, among which we quote from Prof. JOSEPH JONES. Chemist to Cotton Planters' Convention, 1860, whose Report, page 7, says:

"It is but just that I should state to the convention that both the manufacturers and venders of this Fertilizer have thrown open everything to my examination, and have manifested a determination to conduct all their operations in an open and strictly HONEST manner."

We have established a CENTRAL DEPOT at Charleston, and will be represented by

Messrs. B. S. RHETT & SON,

AGENTS, EROWN'S WHARF,

To whom Factors and Planters will please apply.

RODRIGUES'

PULMONIO ELIXIR SPECIFIC Has rapidly distinguished itself for its wonderful restorative and curative qualities. Under its stimulative influence, and by its penetrative agency, this health invigorating cordial excites a general beneficial reaction, and disperses the impermeable obstructions which prevent access to other remedies. While gracually reducing the accompanying constriction which attends the malady, it reproduces the essential warmth and elastic vigor of the respiratory vessels, which, by this remedial combination, promotes the healing process by which relief and cure is effected.

Hemorrhages are arrested and cured, with everyother concurrent disorder.

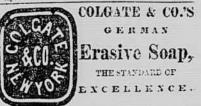

As neither narcotic nor emetic properties of any
