THE CHARLESTON DAILY NEWS, MONDAY MORNING, MAY 4, 1868.

THE DAILY NEWS.

On Guard.

So you think that the play is acted out-That your eyes have seen the end; And you pride yourself on a conquered doubt;-Ab. well, be it so, my friend!

"Only a little wiser," you think, And you smile at the pleasant jest, And wrap yourself in your cold content, And pass on your, way with the rest;

And say to yourself, with a biffer smile, "I blame her not I; She is merely acting Woman In the drama of A Lie!"

It is only the old, old story Of ramity, folly and woe; You could not see that my heart was free, And I-could I tell you so?

How could I tail that your words were true? Men's vows-men's caths-ah. me! They are lighter than foam-feathers blown by the wind Over a summer sea!

You break a lance in the mimic joust And doff a lordly plume, And talk soft nothings and breathe the spell Of flattery's rich perfume;

And if, perhaps, the comedy slips Some day from bright to dark, And life's long traged, opens at last, You scoff-God save the mark!

You point the gibe and shoot the dart, And smile the bitter smile, And soothe your poor untutored heart With talk of woman's guile!

What matters it after all—Life's thorns Life's roses best defend. You have thrown the gauntlet down ?—Ab, well, I take it up, my friend !

We have but little to remark on the cotton market during the past week, except that prices have con-tinued firm and have slightly advanced since our last review, in con-equence of the continued favora-ble advices from the North and Europe, the light stock and small receipts. Holders, in most cases, have been rather stiff, and buyers were unwilling to operate to any extend at the prices asked. Middling has ruled at about 32 cents, at which price most of the sales have been made, and the tendency of prices is still upward.

Two city mills are running, with orders enough ahead to run through the summer. The country mills are generally at work on orders. We resume quotations: Mill Stall; shipping \$11a20. Lumber-Much trouble has been experienced for two weeks past in getting lumber down from the country, owing to the heavy freshets, and some mills have been stopped on that account. We quote easy sizes at \$20a22; difficult \$24a28; narrow flooring \$21a20.

altc, gold; 225 bags St. Domingo at 95c 9 io, gold. in bond, and Mocha at 40c 9 B, currency, in small lots. COTTON-The advices from Great Britain have been quite favorable most of the week, and prices have advanced about 13/a2c 9 B, but at the close there is again a quiet feeling, although the principal holders are firm in their views and look for a still higher range of prices. We quote sales of 5000a6600 bales, and closing prices range from 28a28c for ordi-nary; 30a31c for good ordinary; 31½a32c for low middling, and 32/4331/c for middling, including uplands and gulf. Advices from the South indicate email receipts for the balance of the season. DOMENTICS-There has been rather a quiet tone to the cotton goods market, the advance in raw mate-rial failing to impart any life to the urade. Manu-facturers confidently look for a favorable reaction, as goods cannot now be profitably produced at current prices, and buyers are expected to take hold with a rush in a short time. Woollens remain pretty much as previously reported. Cloakinga, fancy cassimeres, shirting fammels and other destrable goods have been in fair demand at stea.y prices. AT SARSAPARILLIAN .- PAREIRA .- NEW-LY discovered Virtues-Hidden for over 300 yearsthe discovery of the True Virtues of the Roots-Brought to light and made manifest in DR. RADWAT'S SARSAPARILLIAN RESOLVENT. by a new process recently discovered by Dr. Radway, for obtaining the active properties from vege table substances.

SARSAPARILLIAN, PAREIRA BRAVA,

Associated with other newly discovered roots, er ters into the composition of RADWAY'S RENOVA-TING RESOLVENT; secures a remedial agent, that cures all forms of Chronic, Scrofulous, Skin, Glandular, Kidney, Bladder and Uterine Diseases, by communicating its curative, reparative and iruitful efficacy, through the Blood, Sweat and Urine.

The ordinary Sarsaparillian decoctions and Syrups are mere washes, compared with the Sarsaparillian of the Resolvent. It is a well known fact that Sarsaparilla as ordinarily prepared either as offic nally or as a proprietary remedy, never possessed the confidence of medical men, and all the reputation it enjoyed was deemed by well informed Chemists, Physicians and medical writers to be due to other remedial agents associated with it.

The true curative virtues of Sarsaparilla for three hundred years has laid hidden in the crystaline principle of the root. Under Dr. Radway's new process SARSAPARITIAN is secured and brought to light and associated with other ingredients, it fulfils the nost extravagant expectations and views of men One ounce of Dr. Radway's Sarsaparillian contains more of the curative principle than ten pounds of the extracts from the crude roots, as prepared officinally or in the popular advertised Sarsaparillas.

PAREIRA BRAVA-Another of the ingredients of the Radway's Resolvent, held in high estimation by the most eminent medical men of Europe, South America and United States, as the best nedial agent for the diseases of the Kidneys. Bladder, Uterus, and as a lithontriptic for dissolving Calculi, as a curative for Jaundice, Rheumatism, Leucorrhos, &c. since 1688 has never been properly prepared. Under Dr. Radway's process the cisampaline principle o this valuable root is secured, and, associated with Sarsaparillian and other ingredients in the Resolvent, makes it a perfect cure in every form of dis ease of the Kidneys, Bladder and Urinary Organs-Dropsy, Gravel, Incontinence, or Stoppage of Water. Diabetes, or Urinary Diarrhous, and every kind of weakening, irritating or purulent discharges, not proper to mention in an advertisement, is rapidly cured by this remedy.

So quick does the Resolvent enter into the circu lation, that it may be detected in the urine in ter minutes after it has been taken. In many cases i has secured a free discharge of water-in cases where catheters were formerly used. Is not this a blessing ?

BUCHU, Turpentine Junipers, Gin, Copaiba, Cuebs, and other distinct Diuretics, are in many cases hurtful. In Diabetes, Urinary Diarrhoas, Catarrh of the Bladder, Drepsy, and in weakness or ulceration of the Kidneys, are unsafe to use as a continued remedy, and should never be given unless under the supervision of a physician, as the strain these direct emedies may produce on the Kidneys may, in the course of a few hours, require opiates, to change of modify their action; this fact is self-evident to medical man. A compensating remedy like the SAR-SAPARILLIAN RESOLVENT, is the true remedy to use in these cases-even as a diuretic.

dients of the Resolvent, is as superior to all forms of Buchu, &c., as rich cream is to watered milk.

the system-caused either by self-abuse, depraved habit of body, bad blood, impure association, weakness of the genital organs, or Skin Diseases, Scroiula uncured Secondary Disease, Syphiloid Ulcers, Chronic Disease, or from Consumption of the Lungs as well as degeneration of the Kidneys, or Chronic Disease of the Liver, Spleen, &c., commence at once the use of the SARSAPARILLIAN RESOLVENT. It commences its work of purification at once; it re pairs the waste of the body with new and healthful material. It restores functional harmony to every organ in the system, and secures the natural secreions of the proper constituents of each. "Persons have been cured, and have children now living that were deemed incapacitated, by self-abuse, &c., through the use of this remedy. Ask for Dr. RAD-WAT'S SARSAPARILLIAN, or RENOVATING RE-

SOLVENT. Price: \$1 per bottle, or six bottles for \$5. DáC May 2

from the Userus and Ureitars, Leucorthos, Bloody Urme, and other unhealthy and weakening dis-charges, and inquire wherein the SARSAPABIL-LIAN used in the Renovating Recolvent differs from ordinary Saragarilla! Sarsparillia in the only principle in Sarasparilla that possesses curative properties; all other parts of the root are inertand. useless. One ounce of the extract obtained under Dr. Radway's new process for extracting the curative properties from vegetable substances, contains more of the true principle of cure than twenty pounds of the ordinary roots. SARSAPABILLIAN is only one of the ingredients that forms this truly wonderful medicine, and it is that forms this truly wonderful medicine, and it is the only compensating remedy that communicates. its purifying, cleansing and reinvigorating proper-ties through the BLOOD, SWEAT, UBINE, and other secretions, scouring a harmonious functional action of every depraved organ and gland in the sys-tem. If the blood is corrupt, the Resolvent will make it pure. If the Lungs are ulcerated and sore, secreting thick phiegem and prurelent matter, the wasting lung with sound and healthy material. If the skin is covered with pinples, spoit, pastulee, sores, ulcers, &c., the Resolvent will quickly remors these annoyances. If mercury is deposited in the bones and has accumulated in the system, the Re-solvent will drive it out. If the Throat or Bronchial Glands are ulcerated, the Resolvent will cure these signs of an early wasfe. Direct remedies, posseet-ing only exclusive properties, are hurful, as they increase the functional sacretions of onthers; hence, a componasting remedies do not organ by suspending the constituent secretions of others; hence, a componasting remedy like the Resolvent is the only means of a permanent cure. tantly abandon, unless we derive aid from some source. The plan of a Festival or Fair, during the season of flowers, has suggested itself to our minds, and we feel assured that it only requires your assistance to make it a complete success. We propose that the ladies of each church prepare one table or booth, supplying the same with such articles for sale as their own good judgment may suggest, believing that a generous emulation thus en-

gendered, as to which shall best succeed, will, when all are combined in one collection, present a most elegant and complete display; and, furthermore, that each table remain under the control of the ladies who prepared it, in order that at the close of the Fair it may be seen which has succeeded best in the enter-

prise, and thereby contributed the largest amount towards the cause in which we are all so interested We, therefore, respectfully call upon the ladies

composing the various congregations of all evangeltcal denominations in this city, to combine among themselves, and commence at once the preparatio of such articles as their own fancy and judgment may dictate. Let all assist, the humblest as well as the wealthiest, and with united energies carry ou this work.

The members of the Association will, one and all cheerfully perform all and every labor that may be required of them, and will hold themselves always in readiness to obey every reques .

Those ladies who are willing to assist us are re quested to meet every Friday Afternoon at Five o'clock, in the rooms of the Association (in King, street, over Messrs. FOGARTIE & STILLMAN'S Store), to confer with each other and the officers of the Association, and perfect such arrangements as may be come necessary in carrying out the plan suggested to a successful termination.

successful termination. By order of the Association. J. E. FOGARTIE, Secretary Y. M. C. A. April 21 AT BITTERS .- THE HUMAN STOMACH eems to require a tonic stimulant. From the time whereof the memory of man runneth not to the contrary, tonic bitiers have been used. Formerly men made their own bitters, and few thought of eating breakfast without first taking their "tansy." Those were days, however, when prohibitory laws were unknown, and, in consequence, liquors were pure. Dealers could then afford to be honest and sell nothing but the unadulterated. Now, however, what with government tax and court fines, pokeberry juice and alcohol must pass muster for "old rye and "pure bourbon." People have come to fear poisoning more than malarial diseases and dropped their "tansy." Right here is where HOSTETTER & MITH, of Pittsburg, have proven benefactors. Years ago they commenced the manufacture of HOS-TETTERS STOMACH BITTERS, laying it down as a rule that has since been conscientiously followed, to use nothing but the purest liquors, manufactured expressly for them. By strict adherence to this rule they have won public confidence and reaped their reward in a large, profitab.e and steady business Their BITTERS is known all over the country They are pioneers of the business, and have the largest manufactory in the world. Nor has success in their case, as in too many instances, readered them careless; their Bitters is as pure and good to-day as was the first distillation. We heartily recommend them as a tonic As a specific for dyspepsia, biliousness, consti-

pation, nervousness, general debility, and remittent and intermittent fevers, its efficacy has nev.r been questioned. There are many worthless imitations; we earnestly

caution the public against them. May 2
