NAVAL SIORES.—There have been received during the week about 350 bbls. spirits turpentine. 800
bbls. rosin, and 500 bbls. crude turpentine. Spirits
has been dull in consequence of the want of shipping
facilities for Northern ports, but we learn of the sale
of 100 bbls. at 43 cents 3 gallon. Sales of rosin have of 100 bbls. at 43 cents 🕏 gallon. Sales of rosin have taken place at \$2 40 for No. 2, \$344 for No. 1, and \$5 a6 for pale. Crude turpentine found buyers at \$4 % bbl. for virgin, \$3 % bbl. for yellow dip, and \$1 750 2 % bbl. for hard.

HAY.—There have been no arrivals of this article during the week, and no wholesale transactions have taken place. The demand is confined to the wants of the local trade.

CORN.-The market continues to be fairly supplied with Tennessee qualities, for which a better demand has sprung up during the week, and prices have improved. We note sales at \$1 18@1 19, and \$1 20@1 22 and 123 \$2 bushel, weight, sacks included, by the car load from the depot, with holders asking still higher rates. This advance in price is said to be caused by an improved demand for Tennessee corn in Louisville and other Western markets.

OATS .- There have been no supplies of this grain received since our last report, and the transactions are entirely in a limited retail way. FLOUR.—The stock of this article is moderate,

consisting almost entirely of Northern and Western qualities, the prices of which have generally been quite steady during the week, and we quote Northquite steady during the week, and we quote Northern and Western super at \$11 \(\pi \) barrel; Northern and Western extra at \$12\(\pi \) 12 50 \(\pi \) barrel; and Northern and Western family at \$13 50\(\pi \) \$14 \(\pi \) barrel.

New Southern flour is expected in a few weeks, and our dealers are looking for a good supply at an early day. The reports generally in reference to the new wheat crop are quite favorable, with an occasional mention of rust, which, however, so far as we are informed, has not yet proved very important.

BACON—Continues in moderate stock with a very light demand; prices have, however, been fairly supported, and quotations have not varied to any im-

time, no doubt generally correctly estimated both by British and American manufacturers, without its producing the further upward movement looked for \$10@12 % M.; timber of shipping and good mill
