SERIOUS AFFAIR IN UNIONVILLE .- On Sunday night last, several colored men clubbed together and endeavored to release a freedman, who was confined in jail for mortally stabbing a white man named nis, residing near Colonel Beaty's place. The attacking party was finally driven off, and one or two of the ringlesders captured. Much excitement pre-vailed in the village during the night.

IMPROVEMENTS ON WENTWORTH-STREET.-For some time past the city laborers have been engaged in the work of reconstructing the sidewalks in this Where the break is slight, new bricks are laid, but at other points the asphaltum pavement is ituted for the broken walks. Wentworth-street is one of the main arteries of the city, and the new sidewalks will be a great blessing.

THE NEW ENGINE HOUSES .- The work on the engine houses of the Phoenix, Etna and Hook and Ladder No. I, is rapidly approaching completion. The Phoenix house is nearly ready to be covered, and the others are past the second story. Though it has been rumored that much of the city work will be stopped during the coming month, tiese contracts will be completed so as to enable the different companies to take possession at an early

"PLESTE OF MOREY"-That's what the browher's say-and it may be had on easy terms. Considerable property is changing hands. The price, in many histances, is still low, but there is an evident improvement. Idle money is seeking an in-vestment in the bonds of the State, and within two months some of them, especially the old bonds, have considerably enhanced in value. City stock, uso far, has not been materially affected by the recent municipal changes. One or two shrewd fire have tried to work it down, for the purpose of buying low, but the effort, as we learn, was unavailing. On the whole, the financial barometer indicates fair

THE SUBURBS OF CHARLESTON are unlike those et is the real boundary of rieston, for though the city limits extend further, the houses are few and far between. The various m points of interest are some distance from the city proper, but are accessible through the om-nibuses which ply between the railroad terminus and olis. These are extensively patronized. Every magnitude the company's office at the head of the King-street route is made the rendezvous of picnic parties and others who wish to take a breath of unadulterated country air. A refreshment stand has been recently opened in the office, and sods water, cakes and comfits are dispensed to hungry and tired travellers at less than city prices.

Hor, Horres, Horrestormst.-What got into the thermometer yesterday we don't know, but it went suddenly clean up smong the "nineties." It is one of the cardinal rules of the journalistic professon to be people under all circumstances, but the circumstances yesterday may take our hat—yea, verily, our cost, vest and shirt-collar. The thing couldn't be done. The News office was like a bakeoven. The streets were even worse. People broiled. Even that well known Salamander, the Chief of the Fire Department, melted away so awfully that some of his triends were half an hour trying to find out what part of his clothes he lived in. On King-street we noticed a crowd gathered around a curious object on the pavement, and, inquiring the cause, were told that a fat lady had just dissolved, and "there wasn't withing left of her but that wa'erfall." It was, in truth, very much hot, and it is not a consoling probability that to-day will be superlatively so.

FAIR OF THE TOUNG MEN'S CHRISTIAN ASSOdoubt that their enterprise is a success. The attendance last night was very large, and the long promised tableaux were presented, much to the gratification of those who were preent. The tableaux MR be repeated to night. At 3 o'clock this afternoon the children of the mission school will attend, and at 5 P. M. the brohan children. It is understood that they will meet with a -cool reception, as the soda water will be furnished free gratis. The Board of Managers of the Fair have decided to have a grand suction of fancy things to-night, and devote Saturday evening to a social petitions in bankruptcy were read, and, on motion promenade entertainment, and a universal discus aion of refreshments, ice cream, cakes, and other

THE CELEBRATION of the three hundred and if lieth anniversary of the Protestant Reformation by Luther, will come off this afternoon at Dr. Bach. man's Church, Archdale-street, at half-past four Jones, of Kershaw, W. L. DePass, solicitor; Seaborn o'clock. This is intended so the seventh semi-centennial celebration, and at different periods during the present year will be observed by Lutherans in al. parts of Christendom. Great preparations have been made, and the celebration will be quite a feature in our city. The three Lutheran Sunday schools have united in this affair, and the exercises will consist of singing both in English and German. There will also be a number of addresses by several of the male scholars—those connected with the school attached to Dr. Muller's church speaking in German. There will be present, also, several Lutheran clergymen from some of the adjoining States, who have just returned from a meeting or the Southern General Synod, at Newberry, S. C., and who are expected to address the children. A collection will be taken up in aid of the Lutheran Theological Seminary, of this State. A general invitation has been extended to the public. THE MAN ABOUT TOWN. -The city yesterday was prolific in rumors. We have not known the like since April, 1861, when everybody received it LARGEST CIRCULATION.—THE DAILY directfrom Beauregard's own lips three times a day. was going to "open fire on Fort Sumter" immediately after dinner. So almost every in lividua, who met and buttonholed us yesterday, had something strange and striking to say about the situation.

> next twenty-five of the city police will be removed and a corresponding number of negroes be appointed It was declared beyond peradventure that all or the Southern ladies who have been employed as

> clerks at the Citadel for several months past will be dismissed on Monday next. Another man said he heard a Councilman, who re-

ceived it direct from a friend of a gentleman who dined at the same table with Colone! Cogswell, say that the Mayor was piping mad because Gen. Canby wished to have him preside over colore I men, and would unquestionably ask to be relieved. Two distinguished firemen are alleged to have

stood fifteen minutes on the corner of B.oad-street and the Bay, and "cussed" audibly, because a Mr. Goldsmith had been appointed Fngineer of the Fire Department, and Sam Dickerson, a very much colored negro, was made Clark of the Board of Firemasters. It is by no means certain that Sam can write but he is prepared to vote as early and as often as "any other man," which pethaps accounts for the milk in the cocoanut.

It was stated upon undoubted authority that sever I members of the new Council have determined to rescind all the tax ordinances and remove the tax on everything. It was suggested, too, that a committee wou'd probably be appointed as a perambulating choir to go around the city, sing that touching psalm "Do you belong to Gideon's band," and take up a collection to pay off the ci y debt.

It is also expected that the officials appointed under the new administration will serve without pay and for the honor of the place.

Also, that the courtroom in the City Hall will be turned into another kind of "bar" room, where who ever is a "man and a brother" may get a free lunch and liquid accompaniments.

It was stated that somebody had postel a paper in a public place, whereon several impolite things were said about General Canby anonymously. After tracing the rumor through thirteen men and a little boy, we abandoned further search. If it be true, the author ought to be ashamed of him-eif. No person has a right to abuse another person personally without being personally responsible therefor.

Several children were seen crying in the streets. On being questioned the reason assigned was that little colored girls and boys were about to be taken into the High School and Orphan House.

The general wish expressed on the streets was that General Canby would pack up his trunks and go to some hot country—say Hayti or San Domingo—and for once people really did seem to appreciate Gene ral Sickles and regret his departure. Nobody doubts that the object of all these strange and sud den changes is to help the Radical party, not only in the local elections of Charleston, but in the approaching Presidential contest. The congressional moguls want excitement in some Southern city. Their stock in trade is now nearly exhausted. They want more capital, and if a healthy row could be crested, it might be worth a million of votes. Notwithstanding all the excitement that prevails with reference to city affairs, however, we ar glad to know that there is an invincible determination on the part of our people to keep the peace. Time is a great healing plaster. Public opinion is a good physician, and in prescribing for poor afflicted South Carolina, the military eruption on her body politic will not be forgotten.

A Good Hotel.-All citizens of Charleston who visit Columbia should not fail to go to Nickerson's Hotel, now and for several wonths past under the management of Mr. William A. Wright. This gentleman during the war was the proprietor of the American Hotel in Richmond, and from A to izzard is familiar with the art of making men happy. No man more appreciates

"That all-softening, overpow'ring knell The tocsin of the soul—the dinner-bell

And in his house it rings the guests to a roya feast. An omnibus convey passengers from the depot to the hotel free of charge; and once there, the ourist will say it is a place almost too tempting to be left. Cool rooms, breezy nights, attentive servants, and the politest of clerks, are not among the east of its claims to public favor.

Mr. T. S. Nickerson has been singularly fortunate in maintaining three hotels—one in Columbia, one in Augusta, and one in Savannah—all first class and in making for himself both reputation and moof most cities, where the town gradually merges into ney. Under his personal supervision, the Screven to Boston, the Clarendon is to New York, or the Girard is to Philadelphia—the type of a great home, in which a man or his family may live, if desirable-"the world forgetting, and by the world forgot;" or on the other hand, he may enjoy the attractions and excitements of the crowd. "The Sch ven" is very beautifully situated, in the very heart of the city, and in all its apartments unexcelled by any hotel in the Southern country.

Among those carried from South Carolina by Mr. Nickerson to make his Georgia caravangary complete is Wm. Inglis, the old, we'l known and respected barber of this city. Inglis is making money under the Screven House, and his reminiscen :es of the pub lie men he has shaved and shampoosd for the last thirty years, are a feature in themsolvas.

A Better Scheme than the City Freight & Clothing and Jurnishing Goods. Railroad.

To the Editors of the News : While we regret to see city and business im provements made political questions, we shall To illustrate: It was rumored that on Saturday

not gri-ve if the opposition of the draymen and their friends shoul? prevent the building of the street freight railroad. We believe that railways in our streets, however useful to the public, do not improve property in the streets they pass through, and we are confident that a street railway along East Bay-street and the narrow entrances to our wharves would be an absolute nuisance.

What, then, is the proper remedy for the beavy drayages on produce going from the railroad depots to the wharves? A remedy is required, or our railroads and wharves will lose their ousiness, for there is Savannah on one side, and Morfolk on the other competing for the produce that belongs to Charles-

The remedy, in our opinion, is both plain and sim ple. Let the South Carolina, Northeastern and Savan nah and Charleston Rullroads deliver their freights on wharves in deep water on CooperRiver. The col ton for the North can then be taken on board direct from the cars. But how is cotton to be delivered a the wharves? Easily, in this manner: let the rai: road build a good, plain and substantial steamer which can take on her decks from fifteen hundred to wo thousand bales of cotton. This boat can be loaded at the depot and deliver her freight to the factor at the head of the wharves. It may be objected that this would obstruct the unloading and loading of vessels lying at the wharves. This could be obviated by laying a narrow railroad in the centre of the whar upon which a truck could easily be hauled from the head of the wharf to the warehouses.

The freight steamer referred to could make two or three trips a day from the railroad wharf to the other wharves, and deliver 4000 to 5000 bales per day, at a cost to the railroad of not over five cents per bale. All goods for the interior could be taken by her on the return trip from the various steamers to the rail road cars.

In this easy and simple manner could we get rid o a vexed question, and at the same time give our old city all the advantages to which her position entitles her. It is useless to fight for public privileges when corporations can do the work without asking any one's leave. It is unwise to haul through the street when we can secure water carri

AN OLD MERCHANT. "A Word or Two before You go."

To the Editors of the News : I have been a silent observer of much politi cal legerdemain in the guise of union and unanimi ty. Any warning, however modest, is denounced as disunion, and the old tricksters ply their trade more successfully than ever. Some days ago "about two hundred and fifty" individuals met, passed resolutions authorizing, interalia, their chairman to appoint a committee of fifteen, with power to select orty men to represent the four thousand Dem votes of this city in the Columbia Convention. Of course these forty were elected by an adjourned meeting of "about three bundred," and claim thei credentials under the great seal of the Charleston Democracy. It is the manner of this thing, not the men, to which I would call attention.

"Brutus is an honorable man, So are they all, all honorable men,"

ome of whom, during the late "unpleasant difficulty," remembered the uses of philosophy and snuffed the battle from afar, recognizing the saving truth as well as the poetry of the line:

"'Tis distance lends enchantment to the view." At both these cut-and-dried meetings, cut-anddried speeches were dished out to the company. Cenfederate phalanxes, whose indomitable from speculation had broken, and battle flags, which gentemen had been content to read about, were conripted, despite their honorable scars, to dance i netaphorical confusion to the melancholy tune of the old Broad-street fiddle. But bowev.r this may be, however the unburied Broad-street carcase may affront the sight and offend the nostrils of the people what bong fide claim have these gentlemen to repr ent the four thousand Democratic votes of this city? The very meeting that engineered this gratuitous onstituted Columbia Convention. Have we fallen upon military politics as well as government? Is the fital precedent established that a so-called mass meeting of three hundred men can dominate and omise an entire party? Are not the organized wards the proper primary assemblies of the people, where each voice can be heard; and yet in the important matter of representation in the State Democratic Convention, are not these wards utterly and deliberately ignored? Why was it not left to the eight men, the working men, the mechanics, the poor men-in other words, the people-have too much influence in these ward meetings, too n-uch hard common sense, know their power too well, and would scorn to be manipulated as in the "happy days of yore." Is the autocracy, oligarchy and aristocracy of the past to trample us again? We have g obstted it in irons, and its unhallowed ghost cannot endur-

the morning star of Democracy. All Baba had to climb a tree to learn the secret of the oriental forty; but the "open sesame" of politics is the disciplined power of the people in their ward meetings. There the people can do as they please with hackneyed politicians. Let these ward meetings be called at once; let them protest against this partial action, and claim their right to be heard. A mass meeting may be called to approve the ward delegations; but if the wards, where alone the immediate pulse of the people can be felt and their alienable rights be secured, are overslan hed in this barefaced way, why, then, break up the ward clubs, pind our hands and feet, and welcome the degrada. tion and chicanery of our old political masters. Let the poor white man seek his former leve', without a cent to call his own, and shout in utter sub-

ITS POWERFUL CURATIVE ASSOCIATES. PREPARED UNDER A NEWLY DISCOVERED PROCES FOR EXTRACTING THE CURATIVE PROPERTIES FROM VEGETABLE SUBSTANCES, EN-

DR. BADWAY'S RENOVATING

TERS INTO THE COMPOSITION OF

A NEW PRINCIPLE DISCOVERED.

One Bottle of Resolvent is Better Than Ten Large Bottles of the Advertised Sarsaparillas, or Direct Diuretic Rem-

PHYSICIANS wonder at the extraordinary power of RADWAY'S RENOVATING RESOLVENT in curing the worst forms of Scrofulous, Syphiloid, Chronic Skin Diseases, and its marvelous power in resolving calculous congrations, affording immediate relief and Skin Diseases, and its ma-velous power in resolving calculous corrections, affording immediate relief and consequent cure of Diseases of the Kidney, Bladder, Liver, Lungs, Pancreas, Spleen. Its rapid influence in the cure of Disbetes, Incontinence or scanty, turbid, albuminous, cloudy urine; its almost instant efficacy in stopping itching and painful discharge of urine, and its singular power in curing discharges from the Uterus and Urethus, L'ucorrheas, Bloody Urine, and other unhealthy and weakening discharges;—and inquire wherein the SARSAPARIL-LIAN used in the Renovating Resolvent differs from ordinary Sarsaparillas! Sarsaparillan is the only principle in Sarsaparilla that possesses curative properties; all other parts of the root are inert and useless. One ounce of the extract obtained under Dr. Radway's new process for extracting the curative properties from vegetable substances, contains more of the true principle of cure than twenty pounds of the ordinary roots.

the ordinary roots.

SARSAPARILLIAN is only one of the ingredients that forms this truly wonderful medicine; and it is the only compensating remedy that communicates its purifying, cleansing and reinvigorating properties through the BLOOD, SWEAT, URINE, and ties through the BLOOD, SWEAT, URINE, and other secretions, securing a harmonious functional action of every depraved organ and gland in the system. If the blood is corrupt, the Resolvent will make it pure. If the Lungs are ulcerated and sore, secreting thick phlegm and prurelent matter, the Resolvent will loosen this deposit and repair the wasting lung with sound and healthy material. If the Skin is covered with pimples, spots, pustulee, sores, ulcers, &c., the Resolvent will quickly remove these antoyances. If mercury is deposited in the bones and has accumulated in the system, the Recolvent will drive it out. If the Throat or Bronchial Glands are ulcerated, the Resolvent will cure these signs of an early waste. Direct remedies, possessing only exclusive properties, are huriful, as they signs of an early waste. Direct remedies, possessing only exclusive properties, are hurtful, as they increase the functional secretions of on-organ by suspending the constituent secretions of others; hence, a compensating remedy like the Resolvent is the only means of a permanent cure.

BEAR IN MIND THAT EVERY DROP OF BLOOD impregnated with the Resolvent and absorbed to supply the waste of the body, will make pure, sound and healthy flesh and fibre. The first dose that is taken commences its work of purification and in-creasing the appetite and flesh.

R. A GREAT SENSATION !- A GOOD SENSA-

TION

PAIN CURED IN AN INSTANT! In 1847 the great grand principle of stopping the

most excruciating pain in an instant, without emploving such dangerous agents as Chloroform, Opium, Morphine, Acontine, Ether, &c., was first made known in RADWAY'S READY RELIEF.

This remedy accomplished this wonderful and de-lightful desideratum in all cases of external and in-ternal pain. In an instant it afforded relief, the moment it was applied to the parts of the body where inflammation or pain existed—it at once re-lieved the patient of the most violent and exeruciat-ing pangs and throbs of pain, and imparted the de-lightful sensation of ease and comfort.

Every kind of pain, whether Rheumatism, Neuralgia Toothache, Pai a in the Chest, side, Lungs, Stomach. Bowels, Kidneys, Spine, Legs. Arms, Feet, one application was sufficient to kill and extern inate

one application was sumerial to an and extert state the pain.

Taken internally, twenty drops to a teaspoonful would cure, and will cure; Asiatic Cholera, Fever and Ague, Chilis and Fever. Bilious Colic, Inflammation of the Bowels, Cramps, Spasms, Diarrhea, Dysentery, and every pain that may exist in the inside of man, woman or child; this was RADWAY'S READY RELIEF of 1847, and it is RADWAY'S RE-TIEF greatly improved, in 1895.

READY RELIEF of 1847, and it is RADWAY'S RE-LIEF, greatly improved, in 1895.
We then started it in its mission of relieving the infirm, pain-stricken, sick, discressed and crippled or all nations throughout the world, and now to-day it is used, patronized and revered as a household necessity, in the palaces of Sultans, Emperors, Kaimos, Kings, High Priests, Nobles, as well as in the cottages of the laboring classes of every nation on the face of the earth.

CONGESTION OF THE LUNGS CURED IN THIRTY MINUTES!

Important to Know how to Use "Radway's Ready Relief" in Acute and Dangerous Attacks!

MY OWN CASE.

MY OWN CASE.

On Saturday night, the 19th, I was violently seized with Congestion of the Lungs. For a few days previous I felt a dull pain over my left lung, with occasional coughs, but being actively engaged, paid no attention to it. When seized, the pain was so plercing, cutting and excruciating, that every breath drawn was like a red hot knize cutting my lung. Being absent from home, I sent out for three bottles of RADWAY'S RELIFF, applied the entire lot to my lungs, back, shoulders, &c., and in a few momenta got up counce-irritation. Respirations were easy, and, as the skin because reddened, all pain ceased in half an hour I was free from pain, and all sigus of Congestion, Inf. mmation, &c., gone. This is an important cure. It is well that every one should know how to use this remedy in severe attacks. The same rule holds good in cases of Inflammation of the Loins, Bowels, Kinneys and Stomach. Apply the RELIF freely; soak the skin with it. It will instantly secure the withdrawal of the inflammation to the surface, and persons now suffering may, in THIRIY MINUTES, be free from pain.

CBRONIC INFLAMMATION. CBRONIC INFLAMMATICS.

In cases where inflammation has existed for a length of time, in addition to the RFLIEF, take six of RADWAY'S PILLS. Powder them. In half an hour, in most cases, they will operate. If not, repeat the dose. In one or two hours at the furthest they will operate, and the patient soon get well. In Billious, Typhoid, Fever and Ague, this treatment is sure to cure. Let it be tried.
