DESECRATION OF THE BALLOT BOX .- On Wadmalaw Island some of Mr. Mackey's negro adherents finding that their candidate was not popular, became obstreperous and made a raid on the ballot box, overthrowing it and scattering the Sigwald ballots to the winds. This high-handed outrage should be promptly examined into by the military au-

THE YACHT RACE.-Preparations for the great yacht race are progressing, and there is little doub! that the Maggie Mitchell and other small yachts will be entered with the Eleanor and Ella Anna. It is hoped that all allowances as to time will be determined clearly before hand, so that the stakes may be turned over to the winner immediately after

THE ELECTION IN COLUMBIA (as we learn from the Phoenix) passed off quiety. The plantation hands from the surrounding country voted the Radical ticket almost to a man, but it was different with the more intuitigent colored people of the city. Many of them voted the Democratic ticket. The following was the number of votes polled on Tuesday: Upper box 330; lower box 705.

GREAT ATTRACTION ON CITADEL GREEN. - OUR peaders ought not to forget that a performance will be given this afternoon, at 3 o'clock, by the great Brazilian Circus Company, and another perform this evening, for the benefit of the orphans. Aside from the worthy object of the entertainment, our circums will not fail to enjoy the unique, handsome and attractive exhibition offered. The riding, especially, is declared by connoisseurs to be unequalled.

Vorus Mucaix. Some of the Rads seemed to think that a good thing should be done wall, and they started on the principle of voting as early and as often as possible. This small game was undiscovered for some time, but one of the colored mittees at the Washington Engine House detected a "man and brother" in the act. He was arrested and taken to the Upper Guard House, where so confessed that he had just come to the city, and had already voted the Mackey ticket three times.

THE HIERWIAN SOCIETY. At the last monthly meeting of this Society, printed copies of the con-stitution and rules as amended were furnished to the members. The pamphlet contains not only the constitution and rules of the Society, but a list of the officers and members since its organization. It also has a brief description of the Society and its past career. This pamphlet is one that should be preserved by every Hibernian, and the committee have prepared a number for distribution.

THE BALTIMORE LINE. The steamship Sea Gull sailed last evening, with a very full cargo for Baltimore and Philadelphia, among which is a supply of fine new potatoes and early vegetables, the surplus Landauct of our market farms around the city. The steambhip Maryland will be here early Monday morning next and will return without delay, affording the largest deck secommodation of any steamer on the coast. Farmers will doubtless take advantage of it. Her machinery is now in fine working order, and her last passage out was made in fifty-five hours, making close connection with Philadelphia, to which city through bills lading are

THE WAR CARRIED INTO AFRICA.-The excitement around the polls was intense on Tuesday, and several of the great unwashed who had been looking through a glass became decidedly belligerent. At Ward 4 two highly colored voters allowed their feelings to get the better of them, and they argued the political qualifications of their candidates lustily. One, a Massachusetts negro, was a Conservative and a Sigwald man; the other, a South Carolina darkey, was very Republican, and strong for Mackey. Words led to blows, and the parties clinched and fought in the most approved style. Conservatism, however, carried the day, and the Mackey man was beaten until he cried peccavi.

THE ELECTION. - Contrary to the expectation both of the civil and military authorities, the elec-tion in the city yesterday was unmarked by any disturbance worthy of notice. At nine o'clock last evening not more than ten arrests were reported as the result of the day's watchfulness, and these were made on the principle that an cunce of prevention is worth a pound of cure, rather than as a punishment

for a victous disturbance of the peace. The principal localities of excitement were the Washington Engine House in Ward 6, and the Courthouse in Ward 2. In both of these places there was angry contention in the early part of the day, but by udicious management on the part of the police, the excitement was quelled before blows were passed, and our reporter was unable to record a bloody nose

or a broken head.

It was not known to the community at large, that, as a measure of precaution, Col. Bomford, the Commandant of the Post, had quietly, in squads of two's and three's, congregated a force of men in such localities as seemed likely to breed the greatest discord. With the exception of these passing detachments not a bayonet was to be seen during the day. At an early hour it was ascertained that much of the wordy contention around the polls was caused by ignorant and officious persons, who assu ned to decide for the managers upon the merils of each doubtful voter. To put a stop to this, Col. Cogswell authorized the appointment of three challengers in behalf of the respective candidates, with instructions to abide by the decisions of the managers in all cases, and instructions to the police to enforce the same without fear or favor. This arrangement very quickly quelled all symptoms of disturbance, and

quickly quelled all symptoms of disturbance, and those who were ready for a row were compelled to ignominiously subside, or accept the alternative of a bunk in the guardhouse.

The amount of whiskey consumed yesterday was wonderful. Where it came from or by whom it was dispensed are secrets known only to the initiated; but ittold in hundreds of flushed faces and bloodshot but ittold in hundreds of flushed faces and bloodshot in noisy eisemlations and wandering legs. The eyes-in noisy ejaculations and wandering legs. The foreign vote was particularly strong, and perhaps a greater endeavor was made to secure it than on any

Mr. E. W. M. Mackey visited the upper wards fro quently, but seemed particularly attached to the Eagle Engine House, where many of his constituents were gathered. His heart, no doubt, warmed at the sight of the faithful few, and, loosening his purse strings, he invested in pindars and treated the crowd. The dusky voters munched the nuts, but kept their counsel and voted as they thought best.

Towards dinner time the crowd, of voters dwindled somewhat, and the hard-worked managers were allowed time to moisten their clay and demolish the crackers and cheese furnished by the candidates, The heaviest voting was done in the morning, and few persons came forward after 2 o'clock.

The results in the city are given below. The results in the country are yet unknown, but rumors reach us from Christ Church Parish and Wadmalaw Island that a raid was made upon the ballot-bo and they were destroyed by the friends of the Badical nominee. Similar demonstrations are said to have een made and checked on John's and Edisto Isla where Captam Sigwald is understood to be ahead. A man is said to have been shot in Berkeley Distrint but of the circumstances we know nothing. On the whole, we may congratulate ourselves that an occasion of so much excitement between the races has passed without trouble, and that whoever hay be elected will not fill an office whose doorsteps have been stained with blood.

After 6 P. M. last night, the managers declared the polls closed, and proceeded to count the votes. There was no opposition to the Radical ticket in the case of any office but that of Sheriff, and the votes were pted carefully, showing the following result :

The returns from the country have not been received, but they will hardly affect the result given in the city. One precinct in Berkeley District, known as the 16-Mile Church, polled 219 votes for Mackey and two for Hastie.

I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients. ellent compound of alterative ingre lients.
