The Charleston Money Market.

THUESDAY, June 11, 1868. Money is still very abundant, and all securities show a strong upward tendency. Choice securities are scarce and will command full quotations, and it is likely that speculative investors will be able to make a handsome profit on their operations during the next staty days. City and State stocks are very hard, and promise a further rise. South Carolina Railroad shares are in active demand. Four old shares were bought yesterday at 45, but the market is at our quotations. Bank stocks are moving up-ward, and First Nationals have been sold at par. The bank rates are unchanged, but money is offered freely on first-class collaterals. Loans have been effected on the street at 9 per cent. per annum. The ordinary price is % to 1 per cent. per month. SOUTHERN BANK BILLS.

THE CHARLESTON MARKET. [FOR THE WEER ENDING THURSDAY, JUNE 11.] COTTON. - This article has been characterized by much dullness and depression during the past week, and sellers could only dispose of the staple by lowering their rates. This flat condition of the fibre is traced to a guest degree by the determination of manufacturers to work short time, and by the very considerable amount of the article either on hand or afford defining of the English market, but as the time is at hand when shipments from the East-should exhibit a declided falling off, it is anticipated that the staple will show a firrer position at an early period.

The following has been the movements at Liverpool: On Friday, the market was quiet; sales 10,000 bales; uplands 11jd. On Saturday, the article was dull; sales 6000; prices unchanged. 290 ba stock being generally held above the ruling rates.

The arrivals here during the week have been very light, and were 5 bales of sea islands and Floridas and 259 bales of uplands, against 3 bales of sea islands and Floridas and 823 bales of uplands the week before, and 4 bales of sea islands and Floridas and 1730 bales of uplands for the corresponding week last

from the market, and there were no transactions, quotations continuing nominally the same as before.
On Monday a limited inquiry prevailed, prices having an easier tendency. Sales 50 bales; ordinary to good ordinary being quoted at 25@27c; low middling at 28c, and middling at 29c \$ 15.

On Tuesday the receding character of prices at the leading centres enabled buyers to operate at lowest rates. Sales 105 bales, ordinary to good ordinary being quoted at 25@27c; low middling at 27% @28c, and middling at 29c ? tb. On Wednesday the market was quiet and the day
