Look westward, pensive little one, How the bright hues together run, Around where late the waning sun Sank in his evening cloud. Or eastward turn thee, and admire How lung: ryet the showers of fire, Deep in each fold, high on each spire Or yonder mountain proud.

Thou seest it not; an envious screen,
A fluttering leaflet, floats between
Thee and that fair mysterious scene,
A veil to near thine eye.
One finger's breadth at hand will mar
A wo ld of light in Heaven sfar.
A mote chause a clorious star. mote echose a clorious star, An eyelid hide the sky.

The Liverpool Cotten Market.

The Liverpool Cotten Market.

LIVERPOOLT spitember 25.—Corrox.—[From the Brokers' circu ar.]—Cotton continues in fair demand but has been freely offered throughout the week it irregular prices, the warket closing heavily at a decline of about a ¼d per lb in most descriptions. In sea island the business has been limited, but no material change can be quoted. American has been in general request, but has given way ¼d to ¼d per lb. New York advices to the 24th instant quote miding 25¼c, costing to sell in Liverp oil 10¾d per lb by steamer. Brazis has been in fair demand, but a decline has been submitted to f¼d to ¼d per lb. Holders of Egyphan have shown some anxiety to decline has been submitted to of 1½ to 1½ per lb. Holders of Egyptian have shown some auxiety to realize, and prices have been irregular at a decline of 1½ to ½d per lb. The business in Fast India has been limited to the bare necessities of the trade, but exporters have operated to some extent, and prices exhibit a decline of ½ to ½d per lb. The latest quotations for cotton "to arrive" are—New Orleans, basis of middling, shipment October-November, 9½d; Dhollersh, fair new merchants, sailing June, 7½d; Domrawutiee, fair new merchants, sailing June, 7½d; Comrawutiee, fair new merchants, sailing 1½, 7½d bales, including 5890 on speculation and 13,820 declared for export, leaving 47,710 bales to the trade. Friday, September 25: The sales to-lay amounted to 10,000 bales, including 2500 on speculation and for export; prices of East India ruled very irregular.

ST COUNSEL FOR THE CARELESS. -THE body is a machine, and carelessness in its management is as sure to lead to evil results as carelessness in the management of a steam engine. Yet the las thing that most people think of is the protection of this delicate piece of Creation's handiwork from the subtle causes of disease by which it is surrounded It is no easy thing to repair the system when in ruins; but there is no difficulty in fortifying it against many of the dangers to which it is exposed. Guard against nervous debility. At the first sympton of tern. this forerunner of more serious al'ments, sustain the flagging energies of nature with HOSTETTER'S ST MACH BITTERS. Take it regularly and per. sistently, until boiliy vigor is thoroughly restored. It creates an appetite, promotes—or, it might as properly be said, compels—the complete digestion of the food, regulates the secretive action of the liver, tones and invigorates the bowels, improves the condition of the blood, and gives firmness to the nerves. Upon a system thus strengthened and regulated in all its important functions, the fogs and exhalations of autumn, pregnant with the elements of intermittent and remittent tever, can make little or no impression. Whoever supposes that fever and ague is an unavoidable evil in certain districts, at this season of the year, is egregiously mistaken. As effectually as a draught of cold air is shut out by the closing of a door, this complaint, and all disorders of a miasmatic type, may be prevented by the use of the BITTERS. When sickness can be avoided by a means so safe and simple, is it not the merest fatuity to neglect the profered antidote? Regarded either as a preventative or a cure for dyspepsia. bilious. ness, intermittent fever, nervous disorders, general debility, or constipation of the bowels, this pure vegetable preparation stands alone.

AT A YOUNG LADY REPURNING TO ner country home, after a sojourn of a few months in the city, was bardly recognized by her friends. In place of a coarse, rustic, finance face, she had a soit ruby con plexion of almost marble smoothness, and instead twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCA-SIAN BALM, and considered it an inthe CIRCA-SIAN BALM, and considered it an invaluable acquisition to any lady's toilet. By its use any Lady or Gentlemen can improve their personal appearance an nun-tredfold. It is simple in its combination, as Nature hersell is simple, yet among more during the sing, cleansing and beautifying the situ and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended i should be—clear, soft, smooth and beautiful. # McINTIRE'S IMPROVED COTTON

THE ABOVE CUT REPRESENTS MCINTIRE'S IMPROVED COTTON TIF, WHICH WE HAVE NO HESITATION IN PRESENTING

### BEST TIE IN USE.

It has been thoroughly tested in different sections of the South, and its superior merits freely acknowledged by all who have tried it. In fact its popularity has become so great as to warrant us in the assertion that it is destined to become THE UNIVERSAL FAVORITE. This TIE. combines ease and simplicity of adjustment with undoubted strength and durability. We particularly invite the attention of PLANTERS, PRESSMEN and deals respect to the following points: The perfect construction of the Hinge and rounded edges of the Buckle secure the entire strength of the Band, and give it great advantages in compressing. It has no Tongues to press against the Band—does not require any Pins to be slipped in, pulled out or to FALL out; and is used without the troublesome operation of bending or looping the Band. The manner in which it works is easily understood from the cut. Each Tie is complete in itself—the Buckle being riveted to the Band; and no part can be ost. The simple process of running the Band into the Buckle and letting it go at the proper place is all that is necessary, the fastening being perfected the moment the pressure of the cotton is brought to bear on the Bands. The Buckle is strong, compact and small, presenting an even surface, has no rough edges or protruding points, consequently sinks even with the cotton and obviates the great objection to other Ties, which are wrenched apart when the buckles of different bales get caught in handling or transportation, and especially when bales are piled on each other.
