house.

At this stage of the proceedings the Mayor took occasion to bring to the notice of Council the matter of the Hope Fire Engine Company's house. Three hundred and twenty-five dollars was appropriated for certain repairs, as reported by the City Engineer to the committee in charge. It has since been ascertained that the house requires more repairs than at first reported. At the request of the committee, the Engineer made another survey, which, by his specifications, will require an additional amount of over four hundred dollars.

Concurred in. By Alderman Lindstrom:
CHARLESTON, October 6, 1868.

To the Honorable the Mayor and Aldermen: The committee to whom the bill of G. W. The committee to whom the bill of G. W. Egan for exira work on engine houses was referred for investigation, beg leave to report that they have examined the case, and, from the evidences presented to them, find that the contractor had to dig deeper than expected to find a solid foundation for the extended parts of the building, and that he had instructions from the City Engineer so to do, with assurances from him that the bill for what they style extra work should be paid when presented to Cunneil. It seems, from section six of the ordinance creating the office of City Engineer, that he had authority to order said work. The question, however, arises if it can be considered extra work or not. It is the opinion of the committee that when the bids were made for the extension of the buildings the contrac-

sidered extra work or not. It is the opinion of the committee that when the bids were made for the extension of the buildings the contractor ought and must have known that there had never been any foundations laid, and must naturally have included the cost for the same in his estimate. It was a portion of the work which had to be made under the contract, and, therefore, cannot be considered as extra work. Your committee will here take occasion to bring to the notice of Council an evil that always exists with regard to work done under contracts—competition is great, and contractors generally underbid each other, hoping to nake up their profits by charges for extra work. This evil should be remedied. In the present case the original contracts for the two engine, houses were made at \$9030. Their actual cost is \$11,714, excluding the bill in question, which is \$582 25. If this bill is ordered to be paid, the cost of the buildings will be nearly forty per cent, more than the original contracts.

Perceptivity submitted.

Respectfully submitted.
ALEX. LINDSTROM.

Adopted.
On motion, the bill was ordered not to be paid. Carried.
The Committee on Licenses made a favorable report on the applications of F. P. Salas, for Auction License; G. F. Habenicht, for Cotton Press License, on South Bay, Bird's shipyard; and of John H. Luden and others, for Liquor Licenses Adonted

and of John H. Luden and others, for Liquor Licenses. Adopted.

By Alderman Voigt:

The Committe on Brick and Wooden Buildings, to whom was referred the application of Mr. James Michel to erect a wooden building on lot east side of Savage-street, beg leave to report that they have examined the same, and recommend that it be granted, provided that it be erected according to specified application, and to remain standing during the pleasure of Council.

ROBERT HOWARD,
Alderman McKinley, from the Committee on Steam Engines, made a verbal report on the application of G. F. Habenicht, for permission to put up a steam engine on Bird's shi yard, South Bay; also counter petition of sundry citizens living in the vicinity, protesting against the same. He stated that the requisite plans for erecting the steam engine were not submitted as required by the ordinance, and in the absence of the same was not prepared to report to-night, but would ask for further time to do so, which was granted.

The following bill came up for its second reading, which it received and passed. The bill was passed to its third reading, which it received and passed. The title was changed to ordinance, and ordered to be engrossed for ratification:

THE OLD BANKS IN SAVANNAH.—In February last, judgments were obtained in the Circuit Court of the United States, sitting in this city, against the Merchants and Planters' Bank, amounting in the aggregate to three hundred and twenty-one thousand six hundred and eighty-nine dollars (\$321,689), with ten per cent. damages.

Indements were also obtained at the same

Judgments were also obtained at the same term of the court against the Bank of Commerce for seventy-five thousand dollars (\$75,000) with ten per cent. damages, and against the Farmers' Bank for sixty-seven thousand six hundred and twenty dollars (\$67,620), with

ten per cent. damages.

All these judgments bear interest from last February, amounting in the aggregate, including the ten per cent. damages, to five hundred and ten thousand seven and thirty-nine dol-

lars (\$510,739).

The judgments in these cases were obtained upon the notes issued by the banks for circulation, a large proportion of which are said to have been purchased by the plaintiffs at a very heavy discount.

We learn that suits are now being instituted

have been purchased by the plantins at a very heavy discount.

We learn that suits are now being instituted against a large number of the stockholders of these institutions, with a view to make them liable in their individual capacity for the amount of the judgments, in proportion to the amount of stock owned by them.

We have also been informed that in many cases the stockholders have not paid up the full amount of stock subscribed by them, and that bills in equity are being filed for the purpose of compelling them to pay up the full amount of stock subscribed.

These cases will be at issue at the November term of the United States Circuit Court, and will be tried unless good cause for a continuance can be shown.—Savannah Republican.

SAMPLES OF FOREIGN COTTON.—Messrs. Jones & Plummer, commission merchants of this city, have received within the last day or two, direct from Liverpool, sixteen parcels of samples of cotton, grown in different portions of the world, and which finds a market in England. They were on exhibition on Saturday, and excited a great deal of attention from our merchants and manufacturers. Some of these samples compare very favorably with our American production, especially the Egyptian and Perpvian cotton, which, if not already so, will become formidable competitors with our own cotton in the markets of the world. Others of the sample indicate a low grade and careless picking. We give below the names of the districts in which these foreign cottons were grown, and from which SAMPLES OF FOREIGN COTTON. - Mesers. Savannah, October 8—Cotton his been good, and at times active, with a tendency each day to fuller prices. The difficences between the ideas of buyers and sellers somewhat restricted operations, but the reports from day to day of a stronger feeling in New York and Liverpool, with orders at more liberal figures, enabled sellers to obtain a material advance on last week's quotations.

The following are the features of our own and the leading markets for the week:

The staple at Liverpool on Friday, the fifth of October, was active, with an upward tendency; sales 15,000 bales; uplands 10½d. New York, firm; sales 1800 bales: middling 24½c.

COTTON—The market for this article has been quits unsettled the past week. Storts have become reduced so low that manufacturers have found it difficult to supply immediate wants, and in consequence a considerable advance has taken pla c. Advices from Europe are also firmer and prices are likely to rule high until supplies begin to come forward. We quote ordinary at 23241, good ordinary 15226c, low middling 2627c, midding at 273/228c, and good midding 2627c, midding at 273/228c, and good middling 2627c, midding at 372 per lb.
